› Podofo Car Stereo User Manual for Honda Accord 9th Gen 2.0L (2014-2016)

podofo B0D3DDL31

Podof Car Stereo User Manual

For Honda Accord 9th Gen 2.0L (Manual A/C) 2014-2016

1. INTRODUCTION

This manual provides instructions for the installation, operation, and maintenance of your Podof Car Stereo system. Please read this manual thoroughly before installation and use to ensure proper function and safety. This car stereo is specifically designed for the Honda Accord 9th Generation 2.0L (Manual A/C) models from 2014 to 2016.

2. PACKAGE CONTENTS

Verify that all items listed below are included in your package. If any items are missing or damaged, please contact customer support.

- Radio Housing ×1
- Power Cable ×1
- Installation Tool ×1
- Original USB cable ×1
- Accessories ×1 (includes RCA Cable, USB Cable, GPS Antenna, Rear Camera Cable)
- Canbus ×1
- Screen Drive Box ×1
- User Manual ×1

Package List

Image: Contents of the Podofo Car Stereo package, including the main unit, various cables, installation tools, and accessories.

3. COMPATIBILITY

This car stereo system is compatible with Honda Accord 9th Generation 2.0L models manufactured between 2014 and 2016, specifically those with manual air conditioning. It is important to verify your vehicle's center console year, size, and shape before installation. This product is not applicable to central control systems that already have a screen.

Image: Visual representation of the car stereo installed in a Honda Accord 2014-2016 dashboard, showing 'Before installation' and 'After installation' views. It also indicates incompatibility with vehicles already equipped with a central screen.

4. SETUP AND INSTALLATION

4.1 General Installation Overview

Installation of the car stereo involves removing the original radio unit and integrating the new display and wiring harness. Professional installation is recommended. Ensure the vehicle's power is disconnected before beginning installation.

Image: A side-by-side comparison showing the vehicle's dashboard before and after the Podofo Car Stereo installation, highlighting the integrated appearance.

4.2 Canbus Wiring Installation

The Canbus connection is crucial for integrating the car stereo with your vehicle's existing systems, including steering wheel controls. Ensure the 8-pin Canbus cable is securely plugged into the radioconnector. Improper connection may result in non-functional steering wheel controls.

Image: Detailed diagram illustrating the Canbus wiring connection points on the back of the car stereo and the corresponding 8-pin Canbus plug.

4.3 Backup Camera Connection

To connect the AHD rearview camera, ensure the reversing input is plugged in, even if the camera is not immediately used. Connect the camera's power cable to the red port of the camera and the black wire to ground (GND). The video signal cable links the camera to the car stereo's rear-view camera input.

Image: Wiring diagram showing how to connect the backup camera to the car stereo, including power and video signal connections. It also highlights the difference between CVBS and AHD signals.

5. OPERATING INSTRUCTIONS

5.1 Wireless CarPlay & Android Auto

The car stereo supports both wireless and wired CarPlay and Android Auto. This feature allows seamless integration with your smartphone for navigation, music, calls, messages, and voice-assisted control. Connect your phone via Bluetooth or USB for initial setup.

Image: Screenshots of the CarPlay and Android Auto interfaces displayed on the car stereo, showing various applications like Phone, Music, Maps, and Waze.

5.2 Bluetooth Hands-free & Audio

Utilize the built-in Bluetooth for hands-free calling and audio streaming. Pair your smartphone with the car stereo to make and receive calls safely while driving, and to play music directly from your device.

Image: Display showing a Bluetooth hands-free call interface and a music player interface. Also includes the FM radio interface with frequency display.

5.3 GPS Navigation & WiFi Connection

The car stereo features a built-in GPS module. You can use pre-installed navigation software or download additional apps from the Play Store. Connect to a WiFi hotspot to access online maps and other internet-dependent applications.

Image: Screenshots of the GPS navigation interface showing a map with route information, along with icons for various navigation and internet applications. Also shows a WiFi connection interface.

5.4 FM/RDS Radio

Access FM radio stations with RDS (Radio Data System) support. The system allows you to preset up to 18 stations and provides real-time traffic conditions, weather forecasts, and news broadcasts where available.

Image: Displays the FM radio interface, split-screen functionality, and a user interacting with steering wheel controls.

5.5 Steering Wheel Control (SWC)

After connecting the Canbus protocol, you can configure your steering wheel controls to operate the car stereo. Navigate to "Settings" > "Factory Setup" (password 1234) > "Car Settings" to select your car model and perform steering wheel control learning.

Image: A user's hand interacting with the steering wheel controls, with an overlay showing the car stereo interface and a note on configuring SWC via settings.

5.6 Split Screen Function

The split-screen feature allows you to run two applications simultaneously on the display. For example, you can use navigation on one side while controlling music on the other, enhancing multitasking convenience.

Image: Shows the car stereo displaying a split screen with two applications running concurrently. Also highlights 2GB RAM + 32GB ROM, SWC function, and optional accessories.

5.7 AHD Rear Camera

The included AHD (Analog High Definition) rearview camera provides a clear, 1080P image with excellent night vision and a 170° ultra-wide field of view. When shifting into reverse gear, the display automatically switches to the camera feed, aiding in safe parking and maneuvering.

Connectivity Technology	Bluetooth, WiFi
Supported Navigation System	GPS
Audio Output Mode	HIFI, FM Radio, Bluetooth
Human-Interface Input	Touchscreen
Mounting Type	Dashboard Mount
Included Components	Radio Housing, Power Cable, Installation Tool, Original USB cable, Accessories

7. TROUBLESHOOTING

If you encounter issues with your car stereo, please refer to the following common troubleshooting steps:

- **No Power:** Check all power connections and fuses. Ensure the main power cable is securely connected.
- **No Sound:** Verify speaker connections. Check volume levels and audio output settings. Ensure the mute function is not active.
- **Steering Wheel Controls Not Working:** Confirm the Canbus is correctly installed and configured in the system settings (refer to section 5.5).
- **GPS Not Locating:** Ensure the GPS antenna is properly connected and placed in a location with a clear view of the sky. Check GPS settings in the system.
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on both the car stereo and your smartphone. Try unpairing and re-pairing the devices.
- **Rear Camera Not Displaying:** Check the camera's power and video signal connections. Ensure the reversing input is correctly wired (refer to section 4.3).
- **System Freezing/Unresponsive:** Perform a soft reset by pressing the reset button (if available) or by disconnecting the power for a few minutes and reconnecting.

For persistent issues, please contact Podofo customer support.

8. MAINTENANCE

To ensure the longevity and optimal performance of your Podofo Car Stereo, follow these maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touchscreen. Avoid abrasive cleaners or solvents that could damage the display.
- **Software Updates:** Periodically check for available software updates to ensure you have the latest features and bug fixes. Follow the instructions provided with the update.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- **Cable Connections:** Periodically check that all cables are securely connected to prevent intermittent issues.

9. WARRANTY AND SUPPORT

This Podofo Car Stereo comes with a **1-year warranty** from the date of purchase. This warranty covers manufacturing

defects and malfunctions under normal use. It does not cover damage caused by improper installation, misuse, accidents, or unauthorized modifications.

For warranty claims, technical support, or any questions regarding your product, please contact Podofo customer service through the retailer where you purchased the product or visit the official Podofo website for contact information.

Please retain your proof of purchase for warranty validation.
