VRURC T0571

VRURC Slim Portable Charger User Manual

Model: T0571

PRODUCT OVERVIEW

The VRURC Slim Portable Charger (Model T0571) is a compact 5000mAh power bank designed for on-the-go charging. It features a built-in USB-C cable for direct compatibility with iPhone 15 series, Samsung, Google, and other Android devices. It also includes an additional USB-C port for broader compatibility with various devices including older iPhone models (via a separate cable), AirPods, and smartwatches. The integrated LED display provides precise battery level indication. Its ultra-small and lightweight design, along with an anti-slip magnetic feature, makes it ideal for travel and daily use.

Key Features:

- **Built-in USB-C Cable:** Integrated cable for direct charging of compatible devices like iPhone 15 series, Samsung S22/23, Google, and other Android phones. The durable cable can also serve as a lanyard.

- **Wide Compatibility USB-C Port:** An additional USB-C port functions for both input and output, allowing connection to a broader range of devices including iPhone 14/13/12/11/X/8 series (with a separate cable), AirPods, smartwatches, other Android devices.
 - **Compact and Lightweight Design:** Measuring only 3.8 x 2.5 x 0.43 inches and weighing 3.7 oz, this power bank is ultra-portable and features a precise digital LED display for battery status.
 - **Non-Slip Magnetic Feature:** Equipped with an exclusive magnetic anti-slip design that allows the power bank to attach to your phone (case removal may be required) for secure handling during charging. Note: This product does NOT support magnetic wireless charging.
 - **Dual Charging Inputs:** The power bank can be recharged using either its USB-C port or an iOS port, offering 2.4A fast charging to fully charge the 5000mAh battery in approximately 3 hours. A USB-C to USB-C cable is included.

SETUP AND CHARGING THE POWER BANK

Before first use, fully charge your VRURC Slim Portable Charger. The LED display will show the charging progress.

Charging the Power Bank:

1. Connect the included USB-C to USB-C cable to the power bank's USB-C input/output port.
2. Alternatively, use an iOS charging cable to connect to the dedicated iOS input port.
3. Connect the other end of the cable to a compatible USB wall adapter (not included) or a computer's USB port.
4. The LED display will illuminate and show the increasing battery percentage as it charges.
5. Charging is complete when the LED display shows "100%". A full charge takes approximately 3 hours.

OPERATING INSTRUCTIONS

Charging Your Devices:

1. Using the Built-in USB-C Cable:

- Pull out the integrated USB-C cable from its storage slot.
- Connect the USB-C end directly into your compatible device (e.g., iPhone 15 series, Samsung, Google, Android).
- The power bank will automatically begin charging your device.

2. Using the USB-C Input/Output Port:

- Connect a compatible charging cable (e.g., USB-C to Lightning for older iPhones, USB-C to USB-C for other Type-C devices) to the power bank's USB-C input/output port.
- Connect the other end of the cable to your device (e.g., iPhone 14/13/12/11/X/8 series, AirPods, smartwatches, other Android devices).
- Charging will commence automatically.

3. **Simultaneous Charging:** You can charge two devices simultaneously by utilizing both the built-in USB-C cable and the USB-C input/output port with an additional cable.

Magnetic Anti-Slip Feature:

For enhanced stability while charging, the power bank features a magnetic anti-slip design. When using the built-in cable or USB-C port, the power bank can attach to your phone (ensure your phone case, if any, does not interfere with the magnetic connection). This helps prevent accidental drops and makes it easier to carry both devices together.

Important Note: This feature provides magnetic suction for attachment and does NOT support magnetic wireless charging.

MAINTENANCE

- Keep the power bank away from extreme temperatures, direct sunlight, and humid environments.
- Do not expose the device to water or other liquids.
- Clean the power bank with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

- Store the power bank in a cool, dry place when not in use. For long-term storage, ensure it is charged to about 50-70% to preserve battery health.
- Avoid dropping or subjecting the power bank to strong impacts.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging	Cable not properly connected; Wall adapter faulty; Power bank battery depleted.	Ensure cables are securely connected; Try a different wall adapter or USB port; Allow sufficient time for charging.
Device not charging from power bank	Power bank battery depleted; Incorrect cable used; Device not compatible; Loose connection.	Recharge the power bank; Use the correct cable for your device; Ensure your device is compatible; Check for secure connections.
LED display not working	Power bank is off; Battery completely depleted; Malfunction.	Press the power button to activate the display; Charge the power bank; Contact customer support if issue persists.
Magnetic attachment is weak	Thick phone case; Interference from other magnetic objects.	Remove phone case for better magnetic connection; Ensure no other magnetic objects are interfering.

SPECIFICATIONS

- **Model Number:** T0571
- **Battery Capacity:** 5000 Milliamp Hours (mAh)
- **Product Dimensions:** 3.81 x 2.5 x 0.43 inches
- **Item Weight:** 4.6 ounces
- **Color:** Blue
- **Connector Type:** USB Type C (Built-in cable and additional port)
- **Special Features:** Built-in USB-C cable, Lanyard design, Non-slip magnet, Slim and mini pocket sized, USB C In & Out Port
- **Manufacturer:** Dong guan Utopia-Originality Technology Co., Ltd
- **Date First Available:** July 27, 2025
