VECELO Metal Twin Over Twin Bunk Bed Instruction Manual

Model: B0D3DL5C6H

INTRODUCTION

Thank you for choosing the VECELO Metal Twin Over Twin Bunk Bed. This manual provides essential information for the safe assembly, operation, and maintenance of your new bunk bed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

- The mattress surface of the upper bed must be at least 5 inches (127mm) below the top edge of the guardrail.
- Always assemble and use the bunk bed according to the provided instructions to ensure stability and safety.
- Do not exceed the maximum weight capacity of 400 lbs per bunk.
- Be cautious of sharp edges during assembly and use.
- Ensure all parts and screws are firmly attached before use.
- It is recommended to attach the bunk bed to the wall for enhanced stability. Wall anchors are provided for this purpose.

PACKAGE CONTENTS

Your VECELO Metal Twin Over Twin Bunk Bed package includes:

- 1 x Twin Bunk Bed Frame (various metal components)
- 1 x Instruction Manual
- 1 x Assembly Kit (including all necessary hardware and tools)

SETUP AND ASSEMBLY

The VECELO Metal Twin Over Twin Bunk Bed is designed for straightforward assembly. All components are clearly labeled to assist you. It is recommended to have two people for assembly, though it can be done by one person.

Preparation

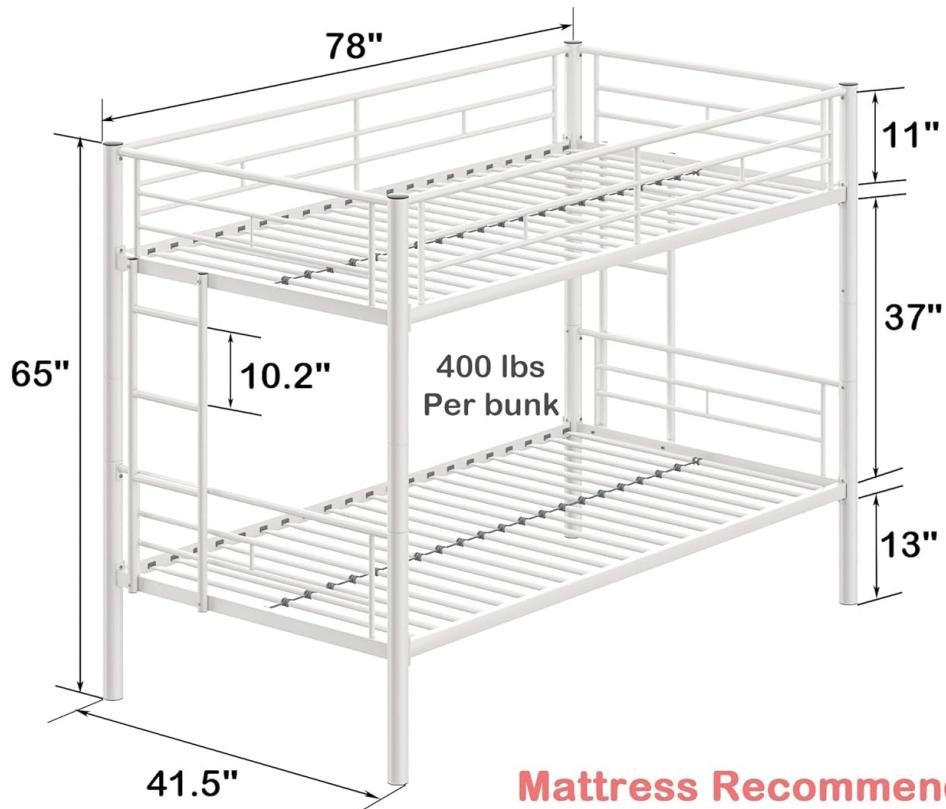

- Unpack all components and lay them out on a clean, flat surface.
- Verify that all parts listed in the instruction manual are present. Each part is labeled with a letter for easy identification.
- A power drill can expedite the assembly process, but is not strictly necessary.

Assembly Steps

1. Begin by assembling the headboards and footboards for both the upper and lower bunks. Ensure that the pieces with holes for the guardrails are correctly oriented for the top bunk.
2. Attach the side rails to the assembled headboards and footboards, forming the bed frames.
3. Insert the metal slats into the designated slots on the bed frames. The custom plastic buckles will securely fasten the slats, preventing noise.
4. Connect the upper bunk to the lower bunk using the provided connectors.
5. Install the full-length guardrails on the upper bunk. These are 11 inches high for safety.
6. Attach the two side ladders. These ladders are designed for easy access to the top bunk and can be positioned on either side.
7. Finally, use the provided safety device to fix the bunk bed to the wall for additional stability. If attaching to drywall, use the appropriate anchors. For studs, screw directly.

Mattress Recommendation

Thickness: Less than 5"

The mattress surface of the upper bed must be at least **5"(127mm)** below the top edge of the guardrail.

Image: Detailed diagram illustrating the dimensions of the VECELO Metal Twin Over Twin Bunk Bed, including height, length, and width, along with mattress thickness recommendations.

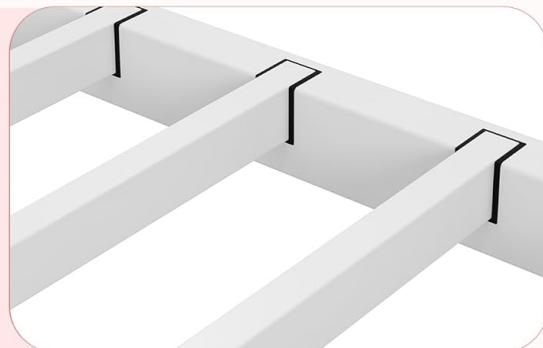

Full-length Guardrail

11" height, increase security and prevent accidental falls.

2 Side Ladders Design

Built-in side ladders on both sides to give you easier access to the top bunk.

Noise-Free

Mute buckles fasten the slats firmly and prevent noise from moving the slats.

OPERATING INSTRUCTIONS

The VECELO Metal Twin Over Twin Bunk Bed provides a comfortable and space-saving sleeping solution. It accommodates two standard twin mattresses (not included).

- Ladders:** The bunk bed features two integrated side ladders, allowing for convenient access to the top bunk from either side of the bed.
- Guardrails:** The full-length guardrails on the upper bunk ensure safety and prevent accidental falls during sleep.
- Under-Bed Storage:** The 13-inch clearance underneath the lower bunk provides ample space

for storing various items, helping to keep your room tidy.

- **Noise-Free Design:** The bed is designed with custom plastic buckles that securely fasten the slats, minimizing noise and movement for a peaceful sleep.

MAINTENANCE

- **Cleaning:** The sleek design of the metal frame allows for easy cleaning. Wipe down the frame with a damp cloth and mild detergent as needed. Avoid abrasive cleaners.
- **Regular Checks:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten any loose fasteners to maintain the bed's stability and safety.
- **Mattress Care:** Ensure your mattresses are of appropriate size and thickness (less than 5 inches for the top bunk to ensure guardrail effectiveness). Rotate and flip mattresses regularly according to their manufacturer's recommendations.

TROUBLESHOOTING

- **Noise/Squeaking:** If you experience any noise or squeaking, check all slat connections and frame bolts. The mute buckles are designed to prevent noise, but ensuring all fasteners are tight is crucial.
- **Instability/Wobbling:** If the bed feels unstable, ensure all assembly steps were followed correctly and all bolts are securely tightened. Verify that the bed is properly anchored to the wall using the provided safety device.
- **Assembly Difficulties:** If you encounter issues during assembly, double-check the labeled parts against the instruction manual. Some users have noted that ensuring the correct orientation of headboard/footboard pieces (especially those with holes for railings) is important to avoid reassembly.

SPECIFICATIONS

Feature	Detail
Size	Twin Over Twin
Product Dimensions	78"L x 41.5"W x 65"H
Material	Heavy-duty Metal
Color	Off White
Weight Capacity (Per Bunk)	400 lbs
