## 1. INTRODUCTION

Thank you for choosing the Junsun 2GB+64GB Android 13 Car Radio Stereo. This advanced head unit is designed to enhance your driving experience with its powerful features and seamless integration. This manual provides essential information for installation, operation, maintenance, and troubleshooting to ensure optimal performance of your new car stereo.

## 2. APPLICABLE MODELS

This Junsun Car Radio Stereo is specifically designed for the following vehicle models:

- **Dodge Caravan:** 2001-2007
- **Chrysler Town&Country:** 2001-2007

Please ensure your vehicle falls within these model years for proper fitment and functionality.

## 3. KEY FEATURES

- **Android 13 System:** Experience smooth and fast operation with the latest Android 13 operating system, providing a comfortable and convenient user experience.
- **Wireless CarPlay & Android Auto:** Connect your iPhone or Android phone wirelessly or via wired connection to access contacts, notifications, messages, map navigation, and music directly on the stereo screen.
- **GPS Navigation & WiFi Connect:** Supports online maps and allows installation or deletion of Android apps from the Application Store when connected to WiFi. Utilize GPS Navigation anywhere with ease.

- **Bluetooth 5.0:** Fast pairing with your phone for hands-free calls and Bluetooth music streaming. Includes an external microphone for clear voice pickup.
- **Split-Screen Functionality:** Enjoy simultaneous navigation and live traffic updates or other applications on a single screen, enhancing multitasking safety and efficiency.
- **Steering Wheel Control:** Easily toggle between radio stations and adjust volume levels using your vehicle's steering wheel buttons, improving driving safety and convenience.
- **High-Definition Visual Experience:** A 1280\*720 resolution display delivers exquisite image quality with true-to-life colors for navigation, entertainment, and rearview imagery.
- **Digital Sound Processor (DSP):** Customize sound effects to your preferences and enjoy various music styles with the advanced built-in DSP.
- **FM Radio:** Compatible with FM radio function, allowing you to listen to real-time radio, weather forecasts, and news for improved driving comfort.

## 4. WHAT'S IN THE Box

---

Upon unboxing, please verify that all the following components are included:

Image: All components included with the Junsun car stereo.

- Junsun 10.1-inch Car Radio Stereo Unit

- Custom Dashboard Frame for Dodge Caravan / Chrysler Town&Country
- Backup Camera (if 'with backup camera' variant purchased)
- Power Cable Harness
- RCA Cable Set
- Reversing Line Cable
- Antenna Cable
- CanBus Decoder
- GPS Module
- USB Cables (x2)
- Crowbar Tool
- Screwdriver
- External Microphone

## 5. SETUP & INSTALLATION

---

Installation of this car stereo requires technical knowledge and experience with automotive electronics. It is highly recommended to seek professional installation to avoid damage to the unit or your vehicle.

### 5.1 General Installation Overview

## For Dodge Caravan Chrysler Town&Country 2001-2007

Image: Visual comparison of the dashboard before and after Junsun car stereo installation.

- 1. Remove Factory Radio:** Carefully remove the existing factory radio and dashboard trim. Use the provided crowbar tool to prevent scratching.
- 2. Connect Wiring Harness:** Connect the Junsun power cable harness to your vehicle's wiring. Ensure all connections are secure.
- 3. Antenna & GPS Module:** Connect the radio antenna and position the GPS module in a location with a clear view of the sky for optimal signal reception.
- 4. RCA & USB Connections:** Connect any necessary RCA cables for external amplifiers or subwoofers, and route the USB cables to an accessible location.
- 5. Backup Camera (Optional):** If installing the backup camera, connect the reversing line and camera video input to the head unit. Ensure the camera is mounted securely at the rear of the vehicle.
- 6. External Microphone:** Connect the external microphone and route it to a suitable location for clear voice input during calls.
- 7. Test Functionality:** Before fully reassembling the dashboard, power on the unit and test all basic functions (radio, display, touch screen, sound).
- 8. Secure Unit:** Mount the Junsun stereo into the dashboard using the provided frame and secure it. Reinstall all trim pieces.

### 5.2 Steering Wheel Control Wiring

For vehicles with existing steering wheel controls, you may need to connect the control wires. A common method involves connecting one steering control wire directly to the head unit's "KEY 1" input and grounding the other steering control wire to the vehicle's chassis. Refer to your vehicle's wiring diagram for specific wire identification. After physical connection, controls can be programmed via the head unit settings.

### 5.3 Amplifier Bypass (if applicable)

Some older vehicles, particularly those with premium sound systems (e.g., Infinity), may use a PCI bus or other non-standard methods to activate the factory amplifier. If you experience no sound after installation, you may need to bypass the factory amplifier. Consult a professional installer or vehicle-specific forums for guidance on bypassing your vehicle's factory amplifier.

## 6. OPERATING INSTRUCTIONS

---

### 6.1 Android 13 System Navigation

The unit operates like a standard Android tablet. Swipe to navigate between home screens, tap icons to open applications, and use the back/home buttons on the side panel or screen for navigation.

### 6.2 Wireless CarPlay & Android Auto

Image: Wireless CarPlay and Android Auto interfaces shown on the car stereo.

To use Wireless CarPlay or Android Auto:

1. Ensure Bluetooth is enabled on your smartphone and the car stereo.
2. On the car stereo, open the CarPlay or Android Auto application.
3. Search for the car stereo's Bluetooth name on your phone and pair the devices.
4. Follow any on-screen prompts on both your phone and the stereo to complete the connection.
5. Once connected, your phone's compatible apps will appear on the stereo display.

### 6.3 GPS Navigation

Image: GPS navigation map displayed on the Junsun car stereo screen.

The unit supports both offline and online navigation. For online maps and real-time traffic, connect the unit to a WiFi hotspot (e.g., from your smartphone). Open the Maps application and enter your destination. The system will provide turn-by-turn directions.

### 6.4 Bluetooth Functionality

To pair your phone via Bluetooth:

1. Go to the Bluetooth settings on the car stereo.
2. Enable Bluetooth on your smartphone and search for available devices.
3. Select the car stereo's Bluetooth name (e.g., "Car BT") from your phone's list.
4. Confirm the pairing code on both devices.
5. Once paired, you can make/receive calls and stream audio.

## 6.5 Split-Screen Mode

To activate split-screen, open an application, then long-press the recent apps button or swipe from the bottom of the screen (depending on Android version) to select another app to run simultaneously. This allows for viewing two applications at once, such as navigation and music.

## 6.6 Steering Wheel Controls

Image: Steering wheel control interface on the car stereo screen.

After successful wiring and programming (refer to Section 5.2), use your vehicle's steering wheel buttons to control functions like volume adjustment, track skipping, and mode switching. This feature is designed to minimize distractions while driving.

## 6.7 Reversing Image Display

<b>Power Cable</b>	<b>RCA cable</b>	<b>Reversing line</b>	<b>Antenna cable</b>	<b>CanBus</b>
<b>GPS module</b>	<b>USB cable*2</b>	<b>Crowbar</b>	<b>Screwdriver</b>	<b>Microphone</b>

Image: Rearview camera display with parking guidelines on the car stereo.

When the vehicle is shifted into reverse gear, the stereo will automatically display the rearview image from the connected backup camera (if installed). This provides visual assistance for parking and maneuvering.  
Note: The backup camera is included only with specific product variants.

## 7. MAINTENANCE

- Screen Cleaning:** Use a soft, lint-free cloth to clean the display. For stubborn smudges, a screen cleaner designed for electronics can be used. Avoid harsh chemicals.
- Software Updates:** Periodically check for system updates through the unit's settings menu to ensure optimal performance and access to new features. A stable internet connection is required for updates.
- Temperature:** Avoid exposing the unit to extreme temperatures for prolonged periods.
- Wiring Inspection:** Periodically check wiring connections for any signs of wear or looseness, especially after initial installation.

## 8. TROUBLESHOOTING

If you encounter issues with your Junsun car stereo, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No Power	Loose power connection, blown fuse, incorrect wiring.	Check power cable connections. Inspect vehicle fuses. Verify wiring against installation instructions.
No Sound	Volume too low, mute activated, incorrect speaker wiring, factory amplifier issue.	Increase volume. Check mute settings. Verify speaker connections. If your vehicle has a factory amplifier, ensure it is correctly integrated or bypassed.
Bluetooth/CarPlay/Android Auto not connecting	Bluetooth off on phone/stereo, incorrect pairing, software glitch.	Ensure Bluetooth is on and discoverable. Delete previous pairings and re-pair. Restart both phone and stereo.
GPS Signal Lost/Inaccurate	GPS antenna obstructed, poor satellite reception.	Ensure GPS antenna has a clear view of the sky. Check antenna connection.
Steering Wheel Controls not working	Incorrect wiring, not programmed.	Verify wiring to KEY1/KEY2 inputs. Access stereo settings to program the controls.
Touchscreen Unresponsive	Software freeze, temporary glitch.	Perform a soft reset (refer to device manual for specific reset method). If issue persists, contact support.

## 9. SPECIFICATIONS

Feature	Detail
Operating System	Android 13
Display Size	10 Inches
Resolution	1280*720
Memory (RAM)	2GB
Storage (ROM)	64GB
Connectivity	Bluetooth 5.0, WiFi, USB
Navigation	GPS (North America maps included)
Audio Output Mode	Stereo, DSP
Mounting Type	Dashboard Mount
Item Weight	4.99 pounds
Package Dimensions	19.8 x 14.25 x 4.29 inches

## 10. WARRANTY & SUPPORT

## 10.1 Manufacturer's Warranty

This Junsun Car Radio Stereo comes with a **1-year manufacturer's warranty** covering defects in materials and workmanship from the date of purchase. Please retain your proof of purchase for warranty claims.

## 10.2 Extended Protection Plans

Extended protection plans may be available for purchase separately to provide additional coverage beyond the manufacturer's warranty. Options may include:

- 2-Year Protection Plan
- 3-Year Protection Plan
- Complete Protect (monthly subscription for eligible past and future purchases)

Please refer to the retailer for details on available protection plans.

## 10.3 Customer Support

For technical assistance, warranty inquiries, or any other questions regarding your Junsun Car Radio Stereo, please contact Junsun Customer Support. You can typically find contact information on the product packaging or the official Junsun website.
