Tractive TRCAT5MTNA

Tractive Cat Mini GPS Tracker User Manual

Model: TRCAT5MTNA

1. PRODUCT OVERVIEW

The Tractive Cat Mini GPS Tracker is a lightweight, waterproof device designed for cats weighing 6.5 lbs and up. It provides real-time location tracking, wellness monitoring, virtual fence capabilities, and location history to help you keep track of your feline companion.

2. SETUP INSTRUCTIONS

2.1 Unboxing and Initial Charge

Your Tractive Cat Mini GPS Tracker comes with the tracker unit, a cat collar, attachment clips, and a charging cable. Before first use, ensure the device is fully charged.

- Connect the magnetic charging cable to the charging port on the tracker.
- Plug the USB end of the cable into a compatible USB charging block (not included).
- A flashing yellow light indicates charging. The light will turn green when fully charged.
- Battery lasts up to 5 days, extended further with Power Saving Zones.

2.2 App Download and Account Setup

To utilize the full features of your Tractive GPS Tracker, download the Tractive GPS app on your smartphone and set up your account.

- Download the Tractive GPS app from your device's app store.

- Follow the in-app instructions to create an account and register your tracker.
- A subscription is required for the built-in SIM and unlimited data. Plans start at \$5/month.

2.3 Attaching the Tracker to the Collar

The tracker is designed to attach securely to your cat's collar using the provided attachment clips.

- Thread your cat's collar through the silicone strap or attachment clips on the tracker.
- Ensure the tracker is positioned comfortably and securely on the collar.
- The device is lightweight (0.9 oz / 25 grams) and designed to be unobtrusive for cats 6.5 lbs and up.

3. OPERATING THE TRACKER

3.1 Real-Time GPS Tracking

Monitor your cat's location with live updates directly from the Tractive GPS app.

- Open the Tractive GPS app on your smartphone.
- Select your cat's profile to view their current location on the map.
- Live tracking provides location updates every 2-3 seconds, with unlimited range.

Real-time GPS Tracking

Track your cat's location live with no distance limits

Image 3.1: Real-time GPS tracking feature displayed on the Tractive app.

3.2 Virtual Fences and Location History

Define safe areas and receive alerts if your cat enters or leaves these zones.

- In the app, create custom 'Safe Zones' (e.g., your home, garden).
- Receive instant notifications if your cat leaves a designated Safe Zone.
- Review your cat's past movements and frequently visited areas with the Location History and Territory features.

Escape Alerts

Create a virtual fence so you get an alert if they escape

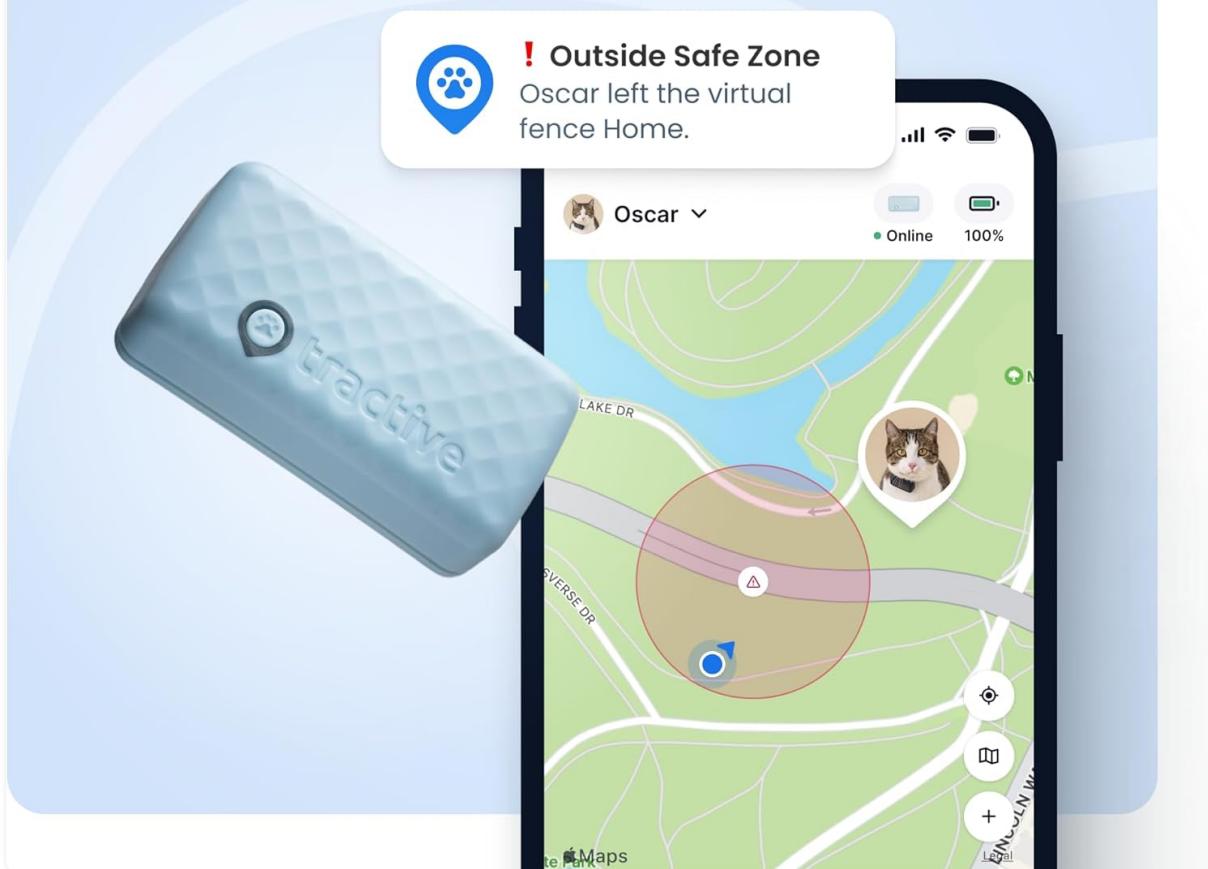

Image 3.2: The Tractive app displaying an 'Escape Alert' when a cat leaves a virtual safe zone.

3.3 Health and Activity Monitoring

Gain insights into your cat's well-being through activity and sleep tracking.

- The tracker monitors daily activity levels and sleep patterns.
- Receive alerts for unusual changes in activity or sleep, allowing for early intervention if health issues arise.
- View weekly reports and compare your cat's activity with others of the same breed.

Health & Sleep Activity Alerts

4. MAINTENANCE

4.1 Charging

Regular charging ensures continuous tracking and monitoring.

- The battery lasts up to 5 days, with extended life in Power Saving Zones.
- Charge the device fully when the battery indicator in the app shows low power.
- Use the provided magnetic charging cable for optimal performance.

4.2 Cleaning

Keep your tracker clean for optimal function and hygiene.

- The tracker is waterproof, allowing for easy cleaning.
- Wipe the device with a damp cloth to remove dirt or debris.
- Avoid using harsh chemicals that may damage the device.

5. TROUBLESHOOTING

5.1 No Location Updates

- Check if the tracker's battery is charged.
- Ensure your subscription plan is active.
- Verify that the tracker is in an area with cellular network coverage.

5.2 Inaccurate Location

- Ensure the tracker has a clear line of sight to the sky for GPS signals.
- Location accuracy can be affected by dense buildings, heavy tree cover, or indoor environments.

5.3 Tracker Not Turning On

- Fully charge the device for at least 30-60 minutes.
- If the issue persists, contact customer support.

6. SPECIFICATIONS
