3. KEY FEATURES

- **Lightweight Frame Design:** Engineered for comfort during extended wear.
- **Protective Carrying Case:** Ensures safe storage and transport.
- **Versatile Use:** Suitable for everyday wear and various outdoor activities.
- **Durable Materials:** Constructed from premium cellulose acetate, ultra-lightweight titanium, and color-rich stainless steel.

4. SETUP

4.1 Attaching the Leash Accessory

The included leash accessory helps secure your eyeglasses during active use.

1. Locate the ends of the leash accessory. Each end has a small, flexible loop or connector.
2. Gently slide one loop over the end of an eyeglass temple (arm) until it is securely fitted.
3. Repeat the process for the other temple with the second loop.
4. Ensure both ends are firmly attached to prevent accidental detachment.

5. OPERATING INSTRUCTIONS

5.1 Wearing Your Eyeglasses

Place the eyeglasses on your face, ensuring the nose pads rest comfortably on your nose bridge and the temples extend over your ears. Adjust for a snug, comfortable fit.

5.2 Using the Leash Accessory

Once attached, the leash allows the eyeglasses to hang securely around your neck when not in use, preventing loss or damage. This is particularly useful during physical activities or when frequently taking your glasses on and off.

6. MAINTENANCE AND CARE

6.1 Cleaning Your Eyeglasses

- Use a clean microfiber cloth specifically designed for eyewear to gently wipe lenses and frames.
- For stubborn smudges, use a lens cleaning spray or mild soap and lukewarm water. Avoid harsh chemicals, ammonia-based cleaners, or paper towels, as these can damage coatings and scratch lenses.
- Rinse thoroughly with water if using soap, then dry with a clean microfiber cloth.

6.2 Storage

- Always store your eyeglasses in the provided protective carrying case when not in use.
- Avoid placing eyeglasses face down on surfaces to prevent scratching the lenses.
- Keep eyeglasses away from extreme heat, such as car dashboards, as this can warp the frames.

7. TROUBLESHOOTING

7.1 Common Issues

- **Loose Screws:** If screws on the hinges become loose, gently tighten them with a small eyewear screwdriver. Avoid overtightening.
- **Improper Fit:** If your eyeglasses feel too loose or too tight, visit a qualified optician for professional adjustment. Do not attempt to bend the frames yourself, as this may cause damage.
- **Scratched Lenses:** Minor scratches can sometimes be minimized with specialized lens repair kits, but deep scratches may require lens replacement. Prevent scratches by always storing glasses in their case and cleaning them properly.
