## Acer N50-656-UR16

# Acer Nitro 50 N50-656-UR16 Gaming Desktop User Manual

Model: N50-656-UR16

## INTRODUCTION

This manual provides essential information for setting up, operating, maintaining, and troubleshooting your Acer Nitro 50 N50-656-UR16 Gaming Desktop. Please read this manual thoroughly to ensure optimal performance and longevity of your device.

## PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- Acer Nitro 50 N50-656-UR16 Desktop Unit
- Keyboard
- Mouse
- Power Cord

Image: Acer Nitro 50 N50-656-UR16 Gaming Desktop, accompanied by its wired keyboard and mouse, ready for setup.

## SETUP INSTRUCTIONS

- 1. Unpack the Desktop:** Carefully remove the desktop unit, keyboard, mouse, and power cord from their packaging.
- 2. Position the Desktop:** Place the desktop on a stable, flat surface with adequate ventilation. Ensure air vents are not obstructed.
- 3. Connect Peripherals:**
  - Connect the keyboard and mouse to the available USB ports on the desktop.
  - Connect your monitor(s) to the graphics card ports (DisplayPort or HDMI) on the rear of the desktop.
  - Connect speakers or headphones to the audio jacks if desired.
- 4. Connect to Network:**
  - For a wired connection, connect an Ethernet cable from your router/modem to the RJ-45 Ethernet port on the rear of the desktop.
  - For a wireless connection, ensure your Wi-Fi network is active. The desktop supports Intel Wi-Fi 6E AX211.
- 5. Connect Power:** Plug the power cord into the desktop's power input, then plug the other end into a grounded

electrical outlet.

6. **Power On:** Press the power button on the front of the desktop. Follow the on-screen instructions to complete the Windows 11 Home setup.

## Front Port Access

1 - USB 3.2 Type C Gen 2x2 port (up to 20 Gbps), 1 - USB 3.2 Gen 2 Port & 2 - Audio Ports

Image: Rear view of the Acer Nitro 50 desktop, displaying the array of connectivity options including DisplayPort, HDMI, multiple USB ports, and an Ethernet port for comprehensive setup.

## OPERATING INSTRUCTIONS

Your Acer Nitro 50 N50-656-UR16 comes pre-installed with Windows 11 Home, offering a user-friendly interface for all your computing needs.

- **Power On/Off:** Press the power button once to turn on the system. To shut down, click the Start button in Windows, then select Power > Shut down.
- **Restart:** To restart the system, click the Start button, then select Power > Restart.

- **Sleep Mode:** To put the system into sleep mode, click the Start button, then select Power > Sleep.
- **Connecting to Wi-Fi:** Access network settings in Windows 11 to connect to your preferred Wi-Fi 6E network.
- **Audio Settings:** Utilize DTS:X Ultra Audio for enhanced sound experience. Adjust settings via the Windows sound control panel or dedicated DTS:X Ultra software.
- **Gaming Performance:** The Intel Core i7-14700F processor and NVIDIA GeForce RTX 4060 graphics card are designed for high-performance gaming. Ensure graphics drivers are up to date for optimal experience.

## MAINTENANCE

Regular maintenance helps ensure the longevity and optimal performance of your desktop.

- **Keep Vents Clear:** Ensure all air vents on the desktop chassis are free from dust and obstructions to prevent overheating.
- **Dust Cleaning:** Periodically clean the exterior of the desktop with a soft, dry cloth. For internal cleaning, it is recommended to consult a professional or refer to Acer's official support resources.
- **Software Updates:** Regularly update your Windows operating system, drivers (especially graphics drivers), and other software to maintain security and performance.
- **Data Backup:** Regularly back up important data to an external drive or cloud storage to prevent data loss.
- **Power Management:** Use a surge protector to protect your desktop from power fluctuations.

## TROUBLESHOOTING

If you encounter issues with your Acer Nitro 50, refer to the following common troubleshooting steps:

- **No Power:**

- Check if the power cord is securely connected to both the desktop and the electrical outlet.
- Ensure the power outlet is functional by testing it with another device.

- **No Display:**

- Verify that the monitor is powered on and connected correctly to the graphics card ports (DisplayPort or HDMI).
- Try connecting the monitor to a different port or using a different cable if available.

- **System Slowdown:**

- Close unnecessary applications running in the background.
- Check for malware or viruses using reputable antivirus software.

- Ensure sufficient free space on your 1TB PCIe Gen 4 SSD.

- **Network Connectivity Issues:**

- For wired connections, check the Ethernet cable and router/modem status.
- For wireless connections, ensure Wi-Fi is enabled and you are connected to the correct network. Restart your router/modem.

- **Audio Problems:**

- Check speaker/headphone connections and volume levels.
- Verify audio drivers are installed and up to date in Device Manager.

For more advanced issues, please contact Acer Support.
