## POPETPOP A11Y327FICDUX01SIE0KZMHM

# POPETPOP 3D Digital Pedometer User Manual

Model: A11Y327FICDUX01SIE0KZMHM

### INTRODUCTION

Thank you for choosing the POPETPOP 3D Digital Pedometer. This compact and accurate device is designed to help you track your daily activity, including steps taken, distance covered, and calories burned. With its advanced 3D sensor technology and versatile wearing options, it's an ideal companion for your fitness journey. Please read this manual carefully to ensure proper use and maintenance of your pedometer.

Image: The POPETPOP 3D Digital Pedometer, shown with its included lanyard, ready for use.

## PRODUCT FEATURES

- **Precision Step Tracking:** Utilizes advanced 3D sensor technology for accurate step counting, enabling effective monitoring of daily activity levels.
- **Compact Design:** Measures approximately 1.96 x 0.98 x 0.59 inches, making it lightweight and portable for easy carrying in a pocket or clipping onto clothing.
- **Durable Construction:** Made from sturdy ABS material, designed to withstand daily use and maintain reliable performance.
- **Quiet Operation:** Features a silent operation mode, allowing discreet checking of steps without interrupting activities or workouts.
- **Versatile Usage:** Can be worn as a clip-on device, an ankle pedometer, or as a necklace using the included lanyard, offering multiple tracking options.

# PRODUCT SIZE

Image: Diagram illustrating the compact dimensions of the pedometer, approximately 1.96 inches (5.0 cm) in length and 0.98 inches (2.5 cm) in width.

## SETUP

- Battery Installation:** The pedometer comes with a pre-installed lithium battery. If the display is blank, ensure the battery is properly seated or replace it if necessary.
- Initial Placement:** Choose your preferred wearing method. The pedometer can be worn:
  - **Clipped On:** Use the integrated clip to attach it securely to your waistband, pocket, or shoe.
  - **With Lanyard:** Attach the provided lanyard to the pedometer and wear it around your neck.
  - **In Pocket:** Simply place the pedometer in your pocket.
- Orientation:** For optimal accuracy, ensure the pedometer remains relatively stable and upright during activity. The 3D sensor is designed to track movement effectively regardless of precise orientation, but consistent placement helps.

## Convenient to wear

Image: Visual guide demonstrating various convenient ways to wear the pedometer, including clipping it to clothing or using the lanyard.

## OPERATING INSTRUCTIONS

### Automatic Step Tracking

The POPETPOP pedometer automatically begins tracking your steps as soon as it detects movement. There is no need to press a button to start or stop tracking during your activity.

### Viewing Your Data

Your current step count will be displayed on the screen. The display is designed to be clear and easy to read at a glance.

### Resetting Step Data

To reset your step count to zero, locate the reset button (often a small, circular button) on the pedometer. Press and hold this button for approximately 3 seconds. The display will clear, indicating that the step data has been reset.

## RESET STEP DATA

Press and hold the button for 3 seconds,  
the step data will reset to zero.

Image: A hand demonstrating how to press and hold the reset button on the pedometer for 3 seconds to clear the step data.

## LANYARD DESIGN

Used to hang a pedometer, it can be detached for use, and it can be hung on the neck for use

## LONG WAIST CLIP

Convenient to carry around, can be clipped to use

## RESET STEP DATA

Press and hold the button for 3 seconds, the step data will reset to zero.

## MAINTENANCE

- **Cleaning:** Wipe the pedometer with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Water Resistance:** The pedometer is designed to be durable but is not fully waterproof. Avoid submerging it in water or exposing it to heavy rain. Light splashes or sweat should not affect its function.
- **Storage:** Store the pedometer in a cool, dry place when not in use. Avoid extreme temperatures.
- **Battery Replacement:** If the display becomes dim or unresponsive, it may be time to replace the lithium battery. Refer to the battery compartment for specific battery type and replacement instructions.
