

## Briignite IP207

# Briignite IP207 RGB Star Projector Night Light User Manual

Model: IP207

## INTRODUCTION

---

Thank you for choosing the Briignite IP207 RGB Star Projector Night Light. This device is designed to enhance your living space with dynamic, colorful light patterns, featuring a convenient dusk-to-dawn sensor and multiple color modes. Please read this manual carefully to ensure proper setup, operation, and maintenance.

## WHAT'S IN THE BOX

---

- 1 x Briignite IP207 RGB Star Projector Night Light
- 1 x User Manual

## PRODUCT OVERVIEW

---

The Briignite IP207 features a compact design with a faceted dome that projects vibrant light patterns. It includes a light sensor for automatic operation and a control button for mode selection.

## SETUP

---

1. **Unpack:** Carefully remove the night light from its packaging.
2. **Choose Location:** Select a standard wall outlet in your desired indoor location. Ensure the area is clear of obstructions that might block the light projection or the dusk-to-dawn sensor.
3. **Plug In:** Insert the night light directly into a standard 120V AC wall outlet. The device is designed to fit into one outlet space, allowing the other outlet to remain accessible for most 2-prong plugs.

## OPERATING INSTRUCTIONS

---

The Briignite IP207 night light features a built-in dusk-to-dawn sensor and a manual control button for color selection.

### Automatic Operation (Dusk to Dawn Sensor)

- The night light will automatically turn on when the ambient light is low (dusk).
- It will automatically turn off when the ambient light is sufficient (dawn).
- Ensure the light sensor (small dot on the side of the unit) is not obstructed for optimal performance.

### Manual Color Selection

The night light offers 9 different RGB color modes. To cycle through these modes:

- Locate the small button on the side of the night light.
- Press the button repeatedly to cycle through the available color modes (Red, Green, Blue, Purple, Yellow, Cyan, White, Multi-color static, Multi-color dynamic).

- The device will remember the last selected color mode when it turns off and on automatically.

## FEATURES

- **Star Projector Lights:** Projects beautiful and intricate light patterns, creating a galaxy-like ambiance.
- **Dusk to Dawn Sensor:** Automatically turns the light on at dusk and off at dawn, providing convenience and energy efficiency.
- **9 Color Modes:** Easily switch between 9 different RGB color modes to match your mood or decor.
- **Up & Down Projection:** The dual projection design casts light both upwards and downwards, offering comprehensive illumination and a stunning visual effect.

## MAINTENANCE

- **Cleaning:** Disconnect the night light from the power outlet before cleaning. Wipe the surface with a soft, dry cloth. Do not use abrasive cleaners or solvents.
- **Storage:** If not in use for an extended period, unplug the device and store it in a cool, dry place.
- **Avoid Water:** This product is for indoor use only and is not waterproof. Avoid exposure to water or high humidity.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on at dusk.	Light sensor is obstructed or ambient light is too bright.	Ensure the light sensor is clear of obstructions. Move the night light to a darker location if necessary.

Problem	Possible Cause	Solution
Light does not turn off at dawn.	Light sensor is obstructed or ambient light is too dim.	Ensure the light sensor is clear of obstructions. Move the night light to a brighter location if necessary.
No light projection.	Device not powered or faulty.	Check if the night light is securely plugged into a working outlet. If the issue persists, contact customer support.
Cannot change color modes.	Button not pressed correctly or device malfunction.	Ensure you are pressing the button firmly. If the button is unresponsive, contact customer support.
