ELEGOO Saturn 4 Ultra

ELEGOO Saturn 4 Ultra Smart Resin 3D Printer Instruction Manual

Brand: ELEGOO | Model: Saturn 4 Ultra

1. SAFETY INFORMATION

Please read this manual carefully before operating the ELEGOO Saturn 4 Ultra 3D printer. Failure to follow safety guidelines may result in injury or damage to the device.

- Always operate the printer in a well-ventilated area to minimize exposure to resin fumes.
- Wear appropriate personal protective equipment (PPE), including gloves and safety glasses, when handling resin or uncured prints.
- Keep the printer and resin out of reach of children and pets.
- Do not expose resin to direct sunlight or UV light, as this will cause it to cure.
- Ensure the power supply is correctly connected and the voltage matches your region's requirements.
- Avoid touching moving parts of the printer during operation.
- In case of emergency, immediately disconnect the power supply.

2. PACKAGE CONTENTS

The ELEGOO Saturn 4 Ultra package includes the following items:

- ELEGOO Saturn 4 Ultra 3D Printer
- Build Plate
- Resin Vat
- Power Adapter
- USB Drive
- Scraper (Metal)
- Scraper (Plastic)
- Hex Wrenches (various sizes)
- Funnel Filters
- Disposable Gloves
- Dust Mask
- User Manual (this document)

3. SETUP

3.1 Unboxing and Initial Inspection

Carefully remove the printer from its packaging. Inspect all components for any signs of damage during

transit. Remove all protective films and packaging materials from the printer.

3.2 Automatic Leveling

The ELEGOO Saturn 4 Ultra features an automatic leveling system, eliminating the need for manual calibration. The build plate automatically levels itself when it descends to the LCD screen, ensuring it is ready for immediate use out of the box.

Image: Visual representation of the automatic leveling mechanism in action, showing the build plate adjusting itself.

3.3 Mini Heater Installation

To ensure optimal resin temperature for printing, you may install the optional Mini Heater. Follow these steps:

1. Lift the top cover of the printer.
2. Use a 2.5mm hex key to loosen the four screws at the back of the top cover that secure the filler plate.
3. Remove the filler plate.
4. Take out the mounting bracket of the Mini Heater. Determine the installation orientation based on the button hole and screw holes.
5. Position the mounting bracket on the outer side of the top cover's back.
6. Use a 2.5mm hex key to tighten the two screws securing the mounting bracket from the inside. (Use the

two screws that originally secured the filler plate).

7. Take out the Mini Heater. Align the Mini Heater with the button hole and screw holes on the mounting bracket and place it in the installation position.
8. Use a 2.0mm hex key to tighten the two screws securing the Mini Heater.
9. Plug in the Mini Heater's power cord.
10. Turn on the Mini Heater.
11. Ensure the top cover is securely closed for optimal heating performance.

4. OPERATING THE PRINTER

4.1 Printing Process Overview

The Saturn 4 Ultra incorporates several advanced features to streamline your printing experience:

- **Inclined Release Technology:** This advanced technology significantly reduces the release force, accelerating printing speeds up to 150 mm/h and increasing success rates.
- **AI Camera Monitoring:** An integrated AI camera monitors the printing process in real-time, automatically detecting anomalies and capturing time-lapse footage of the entire print.
- **Mechanical Sensors:** Mechanical sensors evaluate resin levels, alert for material shortages, detect foreign objects, and assist with leveling issues, ensuring a safer and more reliable printing experience.
- **Power Outage Recovery:** The printer features a power outage recovery function, allowing you to resume printing after an interruption.
- **Temperature Protection:** Printing pauses if the temperature exceeds 80°C until it cools down, protecting the printer and print.
- **Wi-Fi File Transfer & Cluster Printing:** Supports Wi-Fi file transfer at 6-10 Mbps (2.4G and 5G networks) and network control for multiple machines, optimizing productivity.

CAPTEUR MÉCANIQUE INTELLIGENT, PROFITEZ D'UNE IMPRESSION SANS SOUCI

Reprise après Panne de Courant :

Après une coupure de courant, cliquer sur « continuer l'impression » au redémarrage permet de poursuivre l'impression.

Protection contre La Surchauffe :

L'impression s'interrompt et des alertes sont émises lorsque la température atteint un niveau critique.

Autotest de l'Appareil :

Un simple clic déclenche un autodiagnostic pour vérifier le fonctionnement des composants.

NOUVELLE CAMÉRA AI : DÉTECTION INTELLIGENTE

La détection intelligente en temps réel identifie avec précision les risques de détachement et de déformation du modèle, fournissant des alertes en temps opportun.

Surveillez l'état d'impression à tout moment et enregistrez entièrement l'ensemble du processus d'impression grâce à l'enregistrement en accéléré.

IMPRESSION EN GRAPPE PAR WI-FI

Contrôlez sans effort plusieurs imprimantes à la fois à partir d'un seul appareil.
Équipée d'un système auto-développé avec 8 Go de RAM pour des transferts de fichiers stables et des calculs plus rapides, la Saturn 4 Ultra garantit une impression plus fluide et plus efficace.

5. MAINTENANCE

5.1 ACF Film Replacement

The ACF (Advanced Composite Film) in your resin vat is a consumable part that may need replacement over time due to wear or damage. Follow the instructions in the video below for proper replacement.

Your browser does not support the video tag.

Video: Detailed instructions on how to replace the ACF film in an ELEGOO Saturn 3 Ultra resin vat. The process is similar for the Saturn 4 Ultra.

5.2 Cleaning the Printer and Resin Vat

Regular cleaning ensures optimal performance and longevity of your printer. After each print, carefully clean the build plate and resin vat. If using a wash and cure station for post-processing, refer to its specific instructions.

Video: Overview of the ELEGOO Mercury X Bundle Wash and Cure Machine. While not the printer itself, this video demonstrates post-processing steps relevant to resin 3D printing.

6. TROUBLESHOOTING

If you encounter issues with your ELEGOO Saturn 4 Ultra, consider the following common troubleshooting steps:

- **Print Failure:** Check resin exposure settings, ensure the build plate is clean and properly leveled, and verify the ACF film is intact.
- **Layer Shifting:** Tighten all screws on the build plate and Z-axis, and ensure the printer is on a stable surface.
- **Resin Not Curing:** Confirm the UV light source is functioning, check resin expiration date, and ensure proper exposure settings.

- **Printer Not Responding:** Restart the printer, check all cable connections, and ensure the firmware is up to date.
- **AI Camera Alerts:** Follow on-screen prompts for detected anomalies. Clean the camera lens if image quality is poor.

For more detailed troubleshooting, refer to the official ELEGOO support resources.

7. SPECIFICATIONS

Key technical specifications for the ELEGOO Saturn 4 Ultra 3D Printer:

Feature	Detail
Product Dimensions (L x W x H)	26 x 26.8 x 45.2 cm
Item Weight	14.5 Kilograms
Manufacturer Reference	EL-3D-S4U
Material	Aluminum
Printing Technology	MSLA
Power Consumption	144 Watt
Supported File Formats	STL, OBJ, GCODE
Compatible Devices	Laptop
Operating System	Windows 10, macOS, Linux

Image: The 12K Monochrome LCD screen, highlighting its high resolution for detailed prints.

IMPRESSION RAPIDE SANS CONDITIONS

ELEGOO Saturn Ultra est doté d'une technologie de démoulage par inclinaison, qui permet de retirer rapidement le modèle du film de démoulage en inclinant le réservoir de résine, il permet une vitesse d'impression allant jusqu'à 150 mm/h.

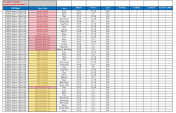

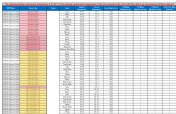

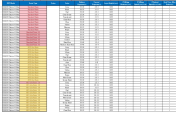

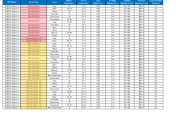

Image: Diagram illustrating the COB (Chip-on-Board) and Fresnel lens setup, ensuring perfect and uniform light distribution for precise prints.

8. WARRANTY AND SUPPORT

The ELEGOO Saturn 4 Ultra 3D printer comes with a standard manufacturer's warranty. Please refer to the warranty card included in your package for specific terms and conditions. For technical support, troubleshooting assistance, or spare parts, please visit the official ELEGOO website or contact their customer service directly.
