2. PRODUCT CONTENTS

The Airpher Electric Cleaning Brush Replacement Head Set includes the following items:

- 9 x Replacement Brush Heads (various types)
- 1 x Storage Bag

Please check that all items are present and undamaged upon opening the package.

3. BRUSH HEAD TYPES AND APPLICATIONS

The set includes 9 different brush heads, each designed for specific cleaning tasks:

- **Pointed Brush:** Suitable for cleaning hard-to-reach narrow areas like wall corners and door gaps.
- **Arc Brush:** Suitable for cleaning curved surfaces such as frying pans, washbasins, rice cookers, and cutlery.
- **Deck Brush:** Suitable for cleaning wide, flat surfaces like bathtubs, floors, stoves, walls, and glass.
- **Flat Brush:** Suitable for cleaning bathtubs, sinks, and washstands.

- **Polishing Pad:** Suitable for cleaning stubborn stains on frying pans, dishes, BBQs, and kitchen surfaces.
- **Towel Brush:** Suitable for polishing leather products like bags, leather clothing, car interiors, and flooring.
- **Sponge Brush:** Suitable for waxing floors, glass windows, cars, and furniture.
- **Wool Brush:** Suitable for polishing sofas, bags, leather clothing, and car interiors.
- **Sponge Cloth Brush:** Suitable for polishing sofas, bags, leather clothing, and car interiors.

4. SETUP

These brush heads are designed for use with the Airpher GH1006 Electric Cleaning Brush (sold separately). Follow these steps to attach and detach the brush heads:

1. **Attaching a Brush Head:** Align the desired brush head with the attachment point on the Airpher GH1006 Electric Cleaning Brush. Push firmly until it clicks into place, ensuring it is securely fastened.
2. **Detaching a Brush Head:** Grip the brush head firmly and twist counter-clockwise (or press the release button, if applicable on your main unit) while pulling it away from the main unit.

Always ensure the electric cleaning brush is turned off and unplugged (if applicable) before attaching or detaching brush heads.

5. OPERATING INSTRUCTIONS

Once a brush head is securely attached to your Airpher GH1006 Electric Cleaning Brush, you can begin cleaning. Refer to the main unit's instruction manual for specific power and speed settings.

- **Surface Preparation:** For optimal results, remove any loose debris from the surface before using the electric brush.
- **Cleaning Agents:** Use appropriate cleaning solutions or water as recommended for the surface you are cleaning. Apply the solution directly to the surface or the brush head, depending on the product's instructions.
- **Gentle Application:** Allow the electric brush to do the work. Apply light pressure and move the brush steadily across the surface. Avoid excessive force, which can damage the brush head or the surface.
- **Rinsing:** After cleaning, rinse the surface thoroughly with water to remove any cleaning solution residue.

6. MAINTENANCE AND CARE

Proper maintenance extends the life of your brush heads and ensures effective cleaning.

- **Cleaning Brush Heads:** After each use, detach the brush head and rinse it thoroughly under running water to remove dirt and cleaning solution residue. For stubborn grime, a mild soap can be used.
- **Drying:** Allow brush heads to air dry completely before storing them. Do not store wet brush heads, as this can lead to mold or mildew growth.
- **Storage:** Store all brush heads in the provided storage bag in a clean, dry place, away from direct sunlight and extreme temperatures.
- **Inspection:** Regularly inspect brush heads for wear and tear. Replace any brush heads that show signs of significant damage or reduced effectiveness.

7. TROUBLESHOOTING

If you encounter any issues with your Airpher replacement brush heads, consider the following:

- **Brush Head Not Attaching Securely:** Ensure the brush head is correctly aligned with the main unit's attachment point and pushed firmly until it clicks. Check for any obstructions or damage to the attachment mechanism.
- **Reduced Cleaning Effectiveness:** The brush head may be worn out or clogged with debris. Clean the brush head thoroughly or replace it if necessary. Ensure you are using the correct brush head type for the surface and stain.
- **Unusual Noise/Vibration:** Detach and reattach the brush head to ensure it is properly seated. If the issue persists, inspect the brush head for damage. If the main unit is making unusual noises, refer to its instruction manual.

For issues not resolved by these steps, please contact Airpher customer support.

8. SPECIFICATIONS

Brand	Airpher
Model Number	GH1006 (DSHSBH104JP)
Color	Blue
Material	Acrylonitrile Butadiene Styrene (ABS)
Product Dimensions (L x W x H)	62 x 37 x 33 cm (approximate packaging dimensions)
