6. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your convertible sofa.

- **Velvet Upholstery:** Regularly vacuum the velvet fabric using a soft brush attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, a professional upholstery cleaner is recommended. Do not use harsh chemicals or abrasive cleaners.
- **Frame:** The engineered wood frame requires no special maintenance. Avoid exposing it to excessive moisture.
- **Legs:** The plastic legs can be wiped clean with a damp cloth.
- **Cushions:** The cushions are not removable, and their covers are not removable. Spot clean only as described for velvet upholstery.
- **General:** Periodically check all fasteners and tighten if necessary. Avoid placing hot items directly on the fabric.

7. TROUBLESHOOTING

If you encounter issues with your sofa, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Sofa feels unstable or wobbly.	Loose leg or frame connections.	Check and tighten all bolts and screws. Ensure the sofa is on a level surface.
Difficulty converting from sofa to bed.	Mechanism obstruction or improper technique.	Ensure no objects are blocking the pull-out mechanism. Follow operating instructions carefully, ensuring a smooth, even pull.
Backrest does not adjust.	Mechanism not engaged or obstructed.	Push the backrest fully forward until it clicks, then recline. Check for any fabric or debris obstructing the mechanism.
Squeaking noises during use.	Loose connections or friction in moving parts.	Tighten all assembly hardware. If the noise persists, contact customer support.
