TABEVIO A19

TABEVIO A19 LED Light Bulb with Remote Control User Manual

Model: A19

PRODUCT OVERVIEW

The TABEVIO A19 LED Light Bulb with Remote Control offers versatile lighting solutions for your home. This 9W LED bulb is equivalent to a 60W incandescent bulb, providing 800 lumens of brightness. It features stepless dimming and adjustable color temperature from 3000K (warm white) to 6000K (daylight white). Designed with an E26 base, it fits standard light fixtures and boasts a high CRI 80+ for vivid color rendering. The included remote control allows for convenient operation, including brightness, color temperature, and various lighting modes.

SETUP AND INSTALLATION

Installation of the TABEVIO A19 LED Light Bulb is straightforward. Ensure the power to the light fixture is turned off before installation.

1. **Power Off:** Before replacing any bulb, always turn off the power at the light switch or circuit breaker to prevent

electrical shock.

2. **Screw In Bulb:** Carefully screw the A19 LED bulb into any standard E26 screw base fixture until it is snug. Do not overtighten.
3. **Power On:** Restore power to the light fixture. The bulb is now ready for operation with the remote control.

Image: A person's hands are shown screwing the LED light bulb into a hanging light fixture, demonstrating the installation process.

The remote control is pre-paired with the bulb. If you experience issues, ensure the remote has working batteries and is within the operating range of 49.2 feet (15 meters).

OPERATING INSTRUCTIONS

The included remote control provides full functionality for the A19 LED bulb. Familiarize yourself with the buttons and their functions:

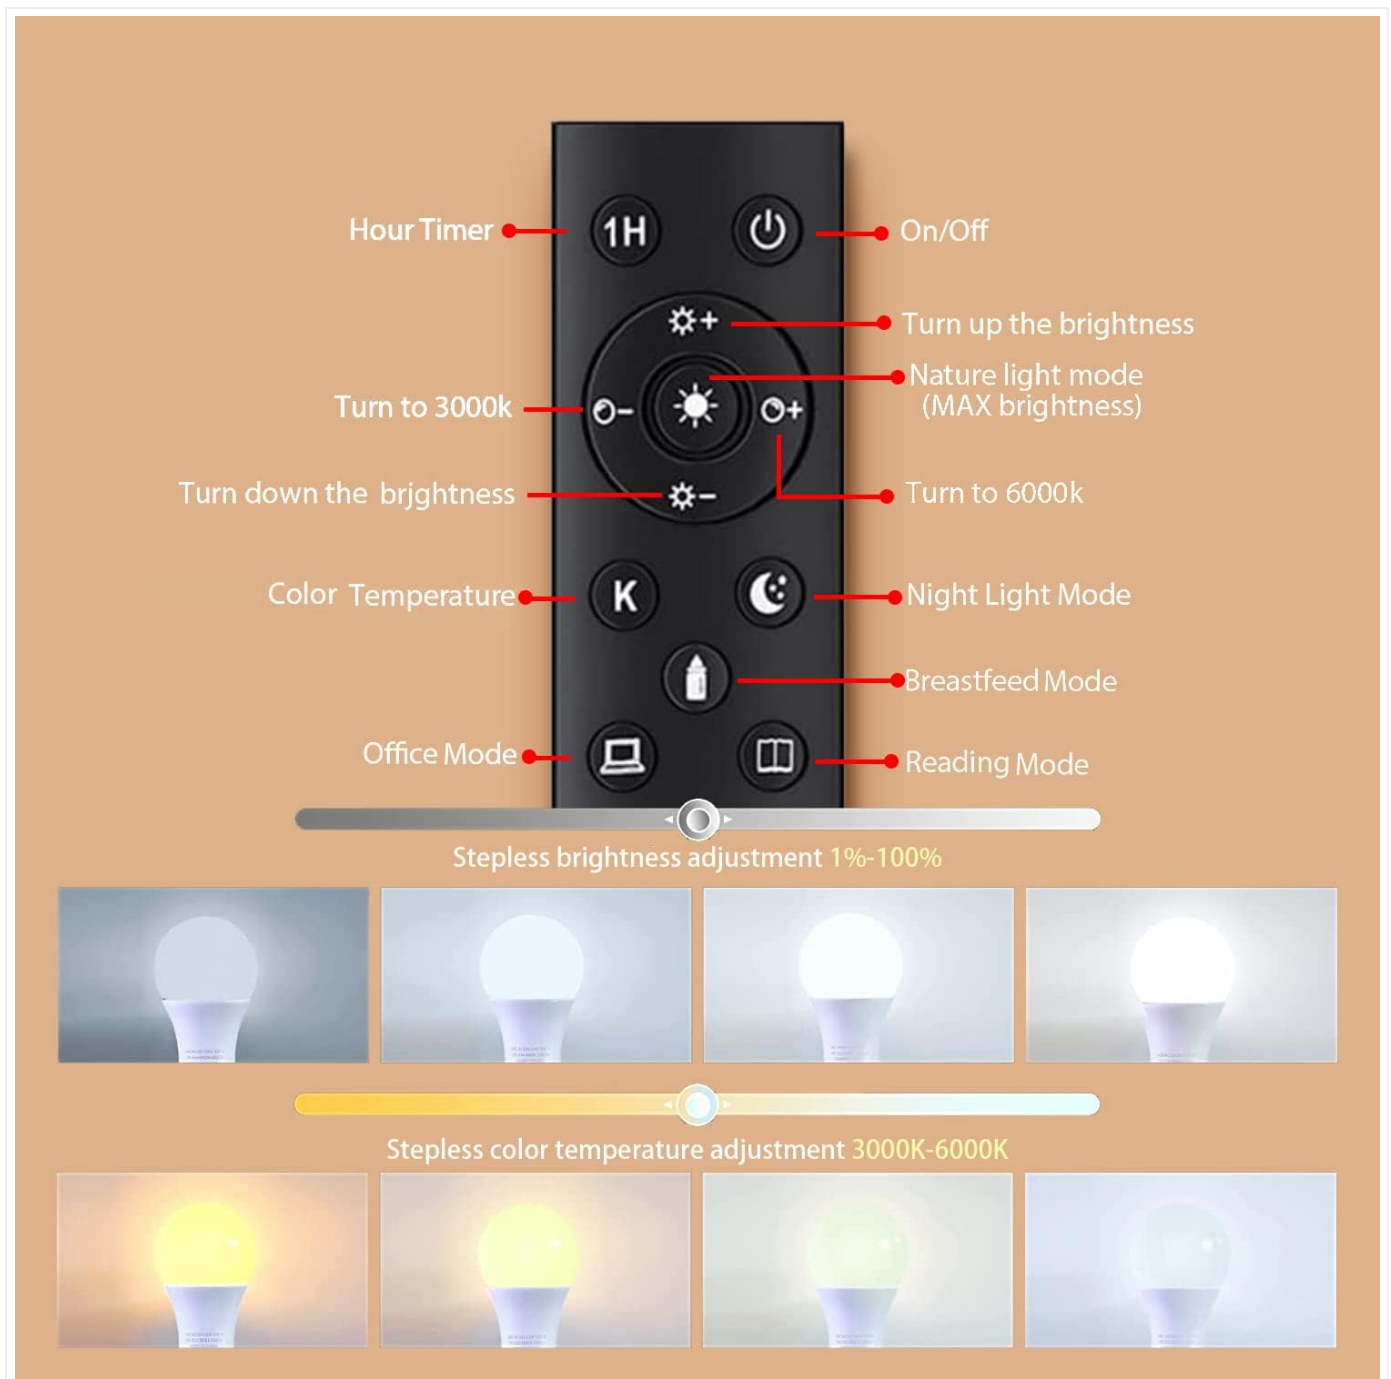

Image: A detailed diagram of the remote control, labeling each button with its corresponding function, such as On/Off, brightness adjustment, color temperature adjustment, and various lighting modes.

- **On/Off Button:** Powers the bulb on or off.
- **Brightness Adjustment (+/-):** Increases or decreases the light brightness from 1% to 100%.
- **Color Temperature (K Button):** Cycles through preset color temperatures or allows stepless adjustment between 3000K (warm white) and 6000K (daylight white).
- **Nature Light Mode (Sun Icon):** Activates a natural light setting, typically at maximum brightness.
- **Night Light Mode (Moon Icon):** Sets the bulb to a low, warm light suitable for nighttime.
- **Breastfeed Mode (Bottle Icon):** Provides a soft, gentle light for feeding.
- **Office Mode (Computer Icon):** Adjusts light for optimal working conditions.
- **Reading Mode (Book Icon):** Provides a comfortable light setting for reading.
- **Hour Timer (1H Button):** Activates a 1-hour timer, after which the bulb will automatically turn off.

MAINTENANCE

The TABEVIO A19 LED Light Bulb requires minimal maintenance. Follow these guidelines to ensure optimal performance and longevity:

- **Cleaning:** Before cleaning, ensure the bulb is cool and the power is off. Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as they may damage the bulb or its components.
- **Storage:** If storing the bulb, keep it in its original packaging or a protective container in a cool, dry place away from direct sunlight and extreme temperatures.
- **Remote Control:** Keep the remote control dry and clean. Replace batteries as needed (battery type not specified, typically AAA or coin cell).

TROUBLESHOOTING

If you encounter issues with your TABEVIO A19 LED Light Bulb, refer to the following troubleshooting steps:

Problem	Possible Cause	Solution
Bulb does not turn on.	No power to the fixture; Bulb not screwed in properly; Remote batteries dead.	Check power switch/circuit breaker. Ensure bulb is securely screwed into the socket. Replace remote batteries.
Remote control not responding.	Remote batteries dead or incorrectly inserted; Remote out of range; Interference.	Replace remote batteries, ensuring correct polarity. Move closer to the bulb (within 49.2 ft/15m). Reduce potential interference from other 2.4GHz devices.
Bulb flickers or dims unexpectedly.	Incompatible dimmer switch (if not using remote); Loose connection; Power fluctuations.	This bulb is designed for remote control dimming. Do not use with external dimmer switches unless specified. Check bulb connection. Consult an electrician for power issues.
Color temperature or brightness cannot be adjusted.	Remote control issue; Bulb malfunction.	Ensure remote batteries are good. Try resetting the bulb by turning power off and on. If issue persists, contact customer support.

Image: A visual comparison demonstrating the superior light quality of the TABEVIO bulb, showing higher Color Rendering Index (CRI) for more vivid colors and the absence of flicker compared to other bulbs.

SPECIFICATIONS

Feature	Detail
Brand	TABEVIO
Model Number	A19
Light Type	LED
Wattage	9W
Incandescent Equivalent	60W
Luminous Flux	800LM

Feature	Detail
Color Temperature	3000K-6000K (Stepless Dimmable)
Base Type	E26
Color Rendering Index (CRI)	80+
Frequency	2.4GHz (for remote control)
Lifespan	25,000+ Hours
Voltage	AC 110-120V
Remote Control Range	Up to 49.2 ft (15m)
Parcel Dimensions	17.1 x 8.2 x 6.5 cm; 110 g
Country of Origin	China

WARRANTY AND SUPPORT

For specific warranty details and terms, please refer to the documentation included with your purchase or visit the official TABEVIO website. The product is designed for a long lifespan of over 25,000 hours under normal use.

If you require further assistance, have questions about your product, or need to report an issue, please contact TABEVIO customer support through their official channels. Contact information is typically available on the product packaging or the manufacturer's website.
