

## Ledvion LVS10030

# Ledvion Solar LED Table Lamp Instruction Manual

Model: LVS10030

## 1. INTRODUCTION

---

Thank you for choosing the Ledvion Solar LED Table Lamp. This modern, cone-shaped LED table lamp is powered by solar energy, offering an eco-friendly and atmospheric lighting solution for your outdoor spaces. With an IP44 rating, it is designed for outdoor use, such as in gardens or on terraces, and is resistant to various weather conditions. This manual provides essential information for the safe and efficient use of your new solar lamp.

## 2. SAFETY INFORMATION

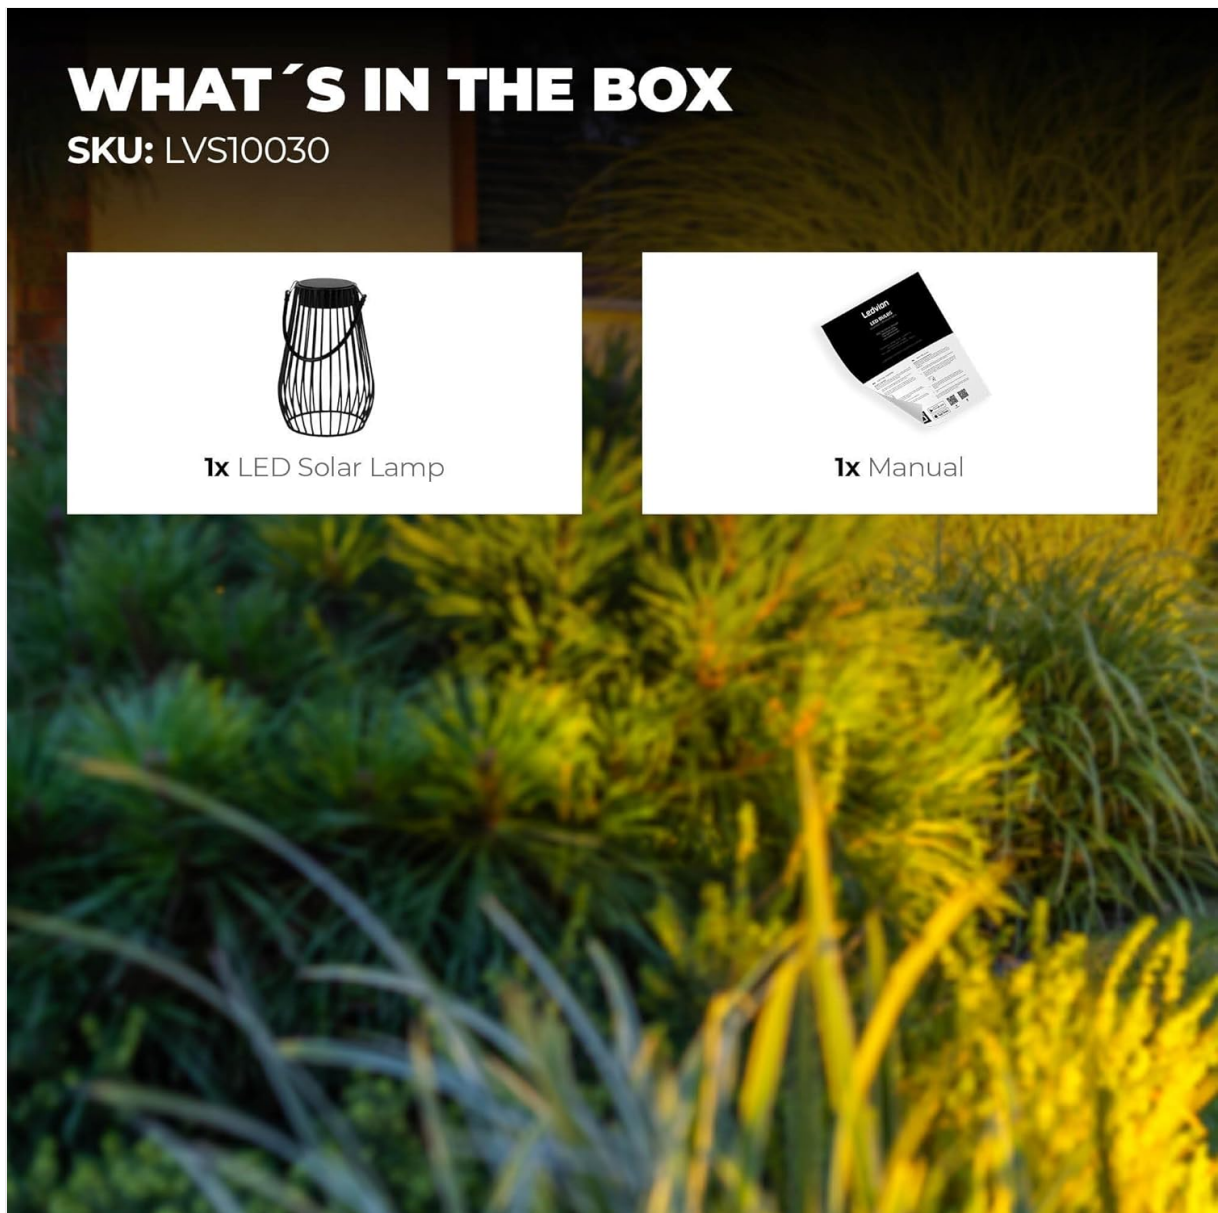

---

- Read all instructions carefully before first use.
- Do not attempt to disassemble, repair, or modify the product. This may void the warranty and pose safety risks.
- Ensure the solar panel is exposed to direct sunlight for optimal charging.
- Keep the product away from open flames or extreme heat sources.
- Dispose of the product and its battery responsibly according to local regulations.

## 3. PACKAGE CONTENTS

---

Verify that all components are present in the package:

- 1x Ledvion Solar LED Table Lamp (Model LVS10030)
- 1x Instruction Manual

## 4. SETUP

## 4.1 Initial Charging

Before first use, place the solar lamp in a location where the solar panel can receive direct sunlight for at least 6-8 hours. This ensures the internal battery is fully charged for optimal performance.

Image 4.1: The durable solar panel on top of the lamp.

## 4.2 Placement

Choose a location for your solar lamp that receives ample direct sunlight throughout the day. Avoid placing it under eaves, trees, or other obstructions that might block sunlight, as this will affect charging efficiency and operating time.

## 5. OPERATING INSTRUCTIONS

### 5.1 Power On/Off

The lamp features an integrated on/off button, typically located near the solar panel. Press this button to activate the lamp. Once activated, the lamp will automatically turn on at dusk and turn off at dawn, provided it has received sufficient charge during the day.

## 5.2 Automatic Operation

The Ledvion Solar LED Table Lamp is equipped with a light sensor. After initial activation, it will automatically detect ambient light levels. It will illuminate when it gets dark and switch off when light returns or the battery is depleted.

**BURNING**  
HOURS

# LONG OPERATION TIME

When fully charged, the solar lamp burns  
up to 9,5 hours

## 6. MAINTENANCE

### 6.1 Cleaning

Regularly clean the solar panel with a soft, damp cloth to remove dust, dirt, or debris. A clean solar panel ensures maximum charging efficiency. Do not use abrasive cleaners or solvents.

### 6.2 Weather Resistance

The lamp has an IP44 rating, meaning it is protected against solid objects larger than 1mm and splashing water from any direction. While it is weather-resistant, prolonged exposure to extreme weather conditions (e.g., heavy storms, blizzards) may reduce its lifespan. Consider bringing it indoors during severe weather.

# WATER & DUST RESISTANT

The solar lamp is protected against dust and is splash proof

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on at night.	Insufficient solar charge.	Ensure the solar panel is clean and placed in direct sunlight for 6-8 hours.
Lamp turns off too quickly.	Partial charge or reduced battery capacity.	Allow for a full day of direct sunlight charging. Battery life may vary with age and environmental conditions.
Lamp flickers or is dim.	Low battery charge.	Relocate the lamp to an area with more direct sunlight for charging.
Lamp stays on during the day.	Light sensor obstructed or faulty.	Ensure no objects are covering the light sensor. If the issue persists, contact customer support.

## 8. SPECIFICATIONS

Feature	Detail
Model Number	LVS10030
Brand	Ledvion
Light Source Type	LED (Light Emitting Diode)
Power Source	Solar
Color Temperature	3000 Kelvin (Warm Light)
Luminosity	20 lm
Material	Iron
Finish Type	Powder or Paint
Water Resistance Level	IP44 (Splash-proof)
Battery Life (Full Charge)	Up to 36 hours (or 9.5 hours as per image)
Charging Time (Full)	6-8 hours (direct sunlight)
Product Dimensions (L x W x H)	160 x 160 x 240 mm (approx. 220 x 160 x 160 cm in product data, but image shows 160mm diameter, 240mm height)
Item Weight	830 Grams
Shape	Cone

*Note: The product dimensions from the specifications (220 x 160 x 160 cm) appear to be an error, likely intended as millimeters. The image indicates a diameter of 160mm and height of 240mm.*
