

KPON EZ32

KPON 3 in 1 Magnetic Wireless Charging Station User Manual

Model: EZ32 | Brand: KPON

INTRODUCTION

Thank you for choosing the KPON 3 in 1 Magnetic Wireless Charging Station. This versatile and compact charging solution is designed to power your iPhone, Apple Watch, and AirPods simultaneously, providing a clutter-free and efficient charging experience. Its foldable design makes it an ideal companion for both home and travel. This manual will guide you through the setup, operation, maintenance, and troubleshooting of your new charging station.

SETUP GUIDE

Follow these steps to set up your KPON 3 in 1 Magnetic Wireless Charging Station:

1. **Unpack the Contents:** Carefully remove all items from the packaging. Ensure you have the charging station, USB Type-C cable, 20W power adapter, and this user manual.
2. **Connect Power:** Plug the USB Type-C cable into the charging port on the back of the charging station. Connect the other end of the cable to the included 20W power adapter, then plug the adapter into a wall outlet.
3. **Unfold the Station:** Gently unfold the charging station to its upright position. The magnetic phone charging pad will extend upwards, and the Apple Watch charging module will swing into place.
4. **Placement:** Place the charging station on a flat, stable surface, such as a desk or nightstand.

This video demonstrates the key features of the KPON 3-in-1 Magnetic Wireless Charging Station, including its ability to charge an iPhone, Apple Watch, and AirPods simultaneously. It highlights the vertical and horizontal viewing experience, the magnetic attachment, and the compact, portable design for travel.

OPERATING INSTRUCTIONS

The KPON 3 in 1 Magnetic Wireless Charging Station offers convenient charging for your Apple devices:

- **Charging iPhone:** Place your Mag-Safe compatible iPhone (iPhone 12/13/14/15 series) onto the magnetic charging pad. The strong magnetic connection will securely hold your phone in place and initiate charging. You can adjust the phone's angle for comfortable vertical or horizontal viewing.
- **Charging Apple Watch:** Place your Apple Watch (Ultra 2/Ultra/9/8/7/6/5/4/3/2/SE) onto the dedicated charging module. Ensure the watch is properly aligned for charging to begin.

- **Charging AirPods:** Place your AirPods (Pro/3/2) charging case onto the wireless charging pad at the base of the station. The indicator light on the AirPods case will confirm charging.
- **Simultaneous Charging:** All three devices can be charged simultaneously, streamlining your charging routine and reducing cable clutter.
- **Foldable Design:** When not in use or for travel, the charging station can be easily folded down into a compact form, making it highly portable.

MAINTENANCE

To ensure the longevity and optimal performance of your charging station, follow these maintenance tips:

- **Cleaning:** Use a soft, dry cloth to wipe down the surface of the charging station. Avoid using abrasive cleaners, solvents, or harsh chemicals, as they may damage the finish.
- **Dust Removal:** Periodically use a can of compressed air to clear any dust or debris from the charging ports and surfaces.
- **Handle with Care:** While durable, avoid dropping the charging station or subjecting it to excessive force.
- **Storage:** When not in use, especially during travel, fold the station compactly and store it in a protective pouch or bag to prevent scratches and damage.

TROUBLESHOOTING

If you encounter any issues with your KPON 3 in 1 Magnetic Wireless Charging Station, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging	Loose cable connection; Incompatible power adapter; Device misalignment; Phone case too thick; Foreign object interference.	Ensure USB-C cable is securely connected to both the station and the power adapter. Use the included 20W power adapter. Realign the device on the charging pad. Remove thick phone cases. Remove any metal objects or cards between the phone and charger.
Slow charging	Underpowered adapter; Background apps on device; Device overheating.	Ensure you are using the included 20W power adapter. Close unnecessary background applications on your device. Allow the device to cool down if it feels warm.
Overheating	Poor ventilation; Foreign object interference; Excessive usage during charging.	Ensure the charging station is placed in a well-ventilated area. Remove any foreign objects. Avoid heavy usage (e.g., gaming, video streaming) while charging. The station has built-in overheating protection.
Magnetic connection is weak	Non-Mag-Safe compatible phone/case.	Ensure your iPhone is Mag-Safe compatible (iPhone 12 series or newer) or that you are using a Mag-Safe compatible phone case.

If the problem persists after trying these solutions, please contact KPON customer service for further assistance.
