

Comfytemp K9032

Comfytemp Extra Large Heating Pad User Manual

Model: K9032

1. INTRODUCTION

Welcome to your new Comfytemp Extra Large Heating Pad. This manual provides essential information for safe and effective use, maintenance, and troubleshooting. Please read it thoroughly before first use.

The Comfytemp Extra Large Heating Pad, measuring 17 inches by 33 inches, is designed for comprehensive heat therapy across various body parts. It features a soft flannel material and an easy-to-use controller.

2. IMPORTANT SAFETY INFORMATION

Read all instructions and warnings before using this heating pad.

- Do not sit, lie on, or fold the heating pad during use.
- Avoid direct skin contact with the heating pad.
- Built-in NTC thermistor triggers overheat protection to prevent excessive heat.

- Not intended for medical use. Consult a healthcare professional for pain relief.
- Do not use on infants, invalids, or persons insensitive to heat.
- Do not use with liniment, salve, or ointment preparations, as skin burns could result.
- Do not use pins or other metallic means to fasten the pad.
- Do not use if the pad is wet.
- Unplug when not in use.

Visual representation of key safety precautions: do not sit on, sleep on, fold, or use with direct skin contact. These guidelines ensure safe operation and prevent potential hazards.

3. SETUP

1. Unpack the heating pad and controller from the packaging.
2. Ensure the power cord is securely connected to the heating pad's connector.
3. Place the heating pad on the desired area of the body, ensuring it lies flat and is not folded or bunched.
4. Plug the power cord into a standard electrical outlet.

The heating pad measures 17 inches by 33 inches, providing ample coverage for various body parts. The detachable controller connects easily for power and heat adjustments.

4. OPERATING INSTRUCTIONS

Your Comfytemp heating pad features a user-friendly controller with multiple heat settings and an auto-off function.

Powering On/Off

Press the power button (marked with a thermometer icon) to turn the heating pad on or off.

Adjusting Heat Settings

The controller offers three heat levels: High, Medium, and Low.

- Press the power button repeatedly to cycle through the settings: Low (one red light), Medium (two red lights), High (three red lights).
- The corresponding indicator light will illuminate to show the selected heat level.

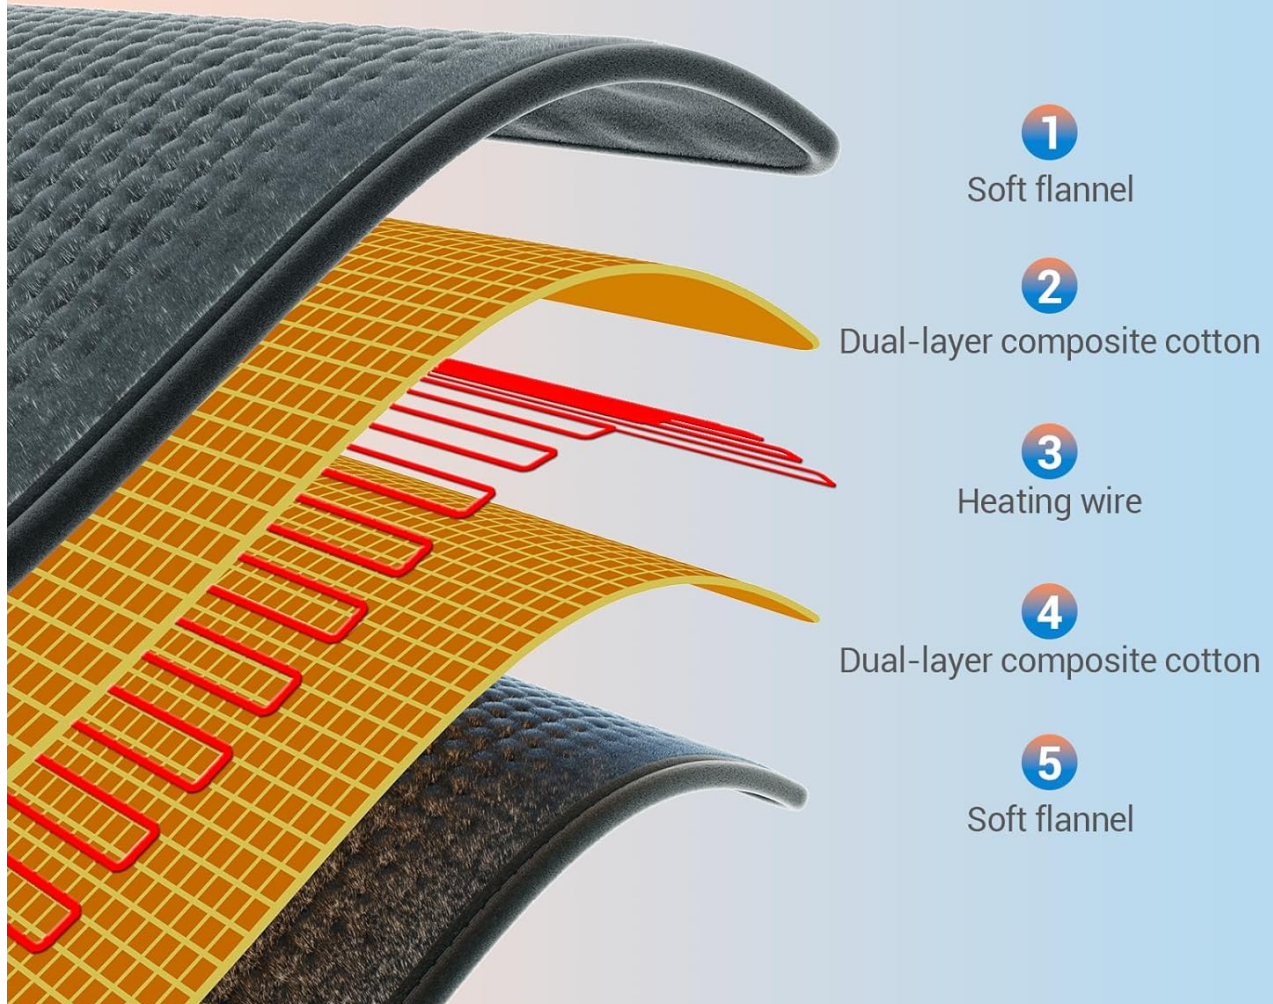

Auto-Off Feature

For safety and energy conservation, the heating pad is equipped with a 2-hour auto-off function. The "2 Hour Auto-off" indicator light will be illuminated when the pad is on.

Moist Heat Therapy

For moist heat, lightly spray a fine mist of water on the surface of the heating pad before use. Do not immerse the pad in water.

Premium Quality and Durability

The intuitive controller allows users to easily select from three heat settings (High, Medium, Low) and features a 2-hour auto-off timer for safety and convenience.

5. CARE AND MAINTENANCE

Cleaning Instructions

The Comfytemp heating pad is machine washable for easy cleaning.

1. Disconnect the power cord from the electrical outlet.
2. Detach the control panel from the heating pad.
3. Machine wash on a gentle cycle with cold water (approximately 86°F / 30°C).
4. Do not bleach or use harsh detergents.
5. Tumble dry on low heat or line dry. Ensure the pad is completely dry before reattaching the controller and using.
6. Do not iron.

Removable
Control Panel

The heating pad is designed to be machine washable for hygiene and convenience. Ensure the control panel is detached before washing and avoid tumble drying to preserve the pad's integrity.

Storage

When not in use, store the heating pad in a cool, dry place. Do not fold tightly or place heavy objects on it, as this may damage the internal heating elements.

6. TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|-------------------------------------|----------------------------------|---|
| Heating pad does not turn on. | Not plugged in securely. | Ensure the power cord is firmly plugged into both the pad and the electrical outlet. |
| Heating pad is not heating. | Incorrect heat setting selected. | Press the power button to cycle through heat settings (Low, Medium, High) and ensure a setting is active. |
| Heating pad turns off unexpectedly. | Auto-off feature activated. | The pad automatically turns off after 2 hours. Press the power button to restart if needed. |

| Problem | Possible Cause | Solution |
|-------------------------------------|---|---|
| Pad feels too hot or uncomfortable. | High heat setting or direct skin contact. | Reduce the heat setting. Avoid direct skin contact; use over clothing or a thin towel. |
| Pad is damaged or frayed. | Wear and tear. | Discontinue use immediately. Do not attempt to repair. Contact customer support for assistance. |

If the problem persists after trying these solutions, please contact Comfytemp customer support.
