ASAKUKI Essential Oils for Diffuser - 6 Mood Blends

ASAKUKI Essential Oils for Diffuser - 6 Mood Blends Instruction Manual

Model: Essential Oils for Diffuser - 6 Mood Blends

INTRODUCTION

Welcome to the world of aromatherapy with your ASAKUKI Essential Oils for Diffuser - 6 Mood Blends set. This collection is designed to enhance your daily rituals, offering distinct aromas for various moments from morning to night. Each blend is crafted to create a serene and tranquil atmosphere in your home or office.

PRODUCT OVERVIEW: 6 MOOD BLENDS

Your ASAKUKI Essential Oils set includes six unique 10ml blends, each formulated for a specific mood or time of day:

- **Breathe:** Ideal for morning awakenings, featuring vanilla, ginger, eucalyptus, and peppermint oils.
- **Uplift:** Perfect for late morning work starts, with rosemary, clove, lemongrass, peppermint, patchouli, tea tree, and pine needle oils.
- **Balance:** Designed for midday recentering, containing lavender, ylang-ylang, balsam, clove, and jasmine oils.
- **Rest:** For a gentle afternoon pause, blended with benzoin, sweet orange, sandalwood, and chamomile oils.
- **Unwind:** Suitable for early evening relaxation, featuring sandalwood, ylang-ylang, lavender, lemon, and sweet orange oils.
- **Sensual:** Created for night and preparing for sleep, with lavender, bergamot, fennel, star anise, and pomelo oils.

SAFETY INFORMATION

Please read and follow these safety guidelines carefully before using the essential oils:

- May cause skin irritation. Always perform a patch test on a small area of skin before widespread use.
- Keep out of reach of children and pets. Store in a cool, dark place away from direct sunlight.
- Avoid contact with eyes and mouth. If contact occurs, rinse thoroughly with water.
- Do not ingest. If swallowed, seek medical attention immediately.
- Consult a healthcare professional before use if you are pregnant, nursing, or have any medical conditions.
- Statements regarding dietary supplements have not been evaluated by the FDA and are not intended to diagnose, treat, cure, or prevent any disease or health condition.

SETUP FOR DIFFUSER USE

To use your ASAKUKI Essential Oils with a diffuser, follow these general steps:

1. Ensure your diffuser is clean and on a stable, flat surface.
2. Fill the diffuser's water tank to the indicated maximum fill line with clean, cool tap water. Do not overfill.
3. Add 5-10 drops of your chosen ASAKUKI essential oil blend per 100ml of water. Adjust the number of drops based on your preference for scent intensity.
4. Replace the diffuser lid securely.
5. Plug in the diffuser and select your desired settings (mist mode, light, timer).

OPERATING INSTRUCTIONS

Beyond diffusers, your essential oils can be used in various ways:

- **DIY Soaps:** Add 10-30 drops of essential oils into your soap base, then stir well. Handmade soap can help remove bacteria and dust from the skin.
- **DIY Candles:** Add drops of essential oils into melted wax, then stir well and pour into the mold. Insert the wax core and gently press the mold around the candle until it is completely solidified.
- **Sprays:** Add 5-6 drops of essential oils into a spray bottle filled with water. This can purify the air of unpleasant odors and create a calm atmosphere. Suitable for outdoors, campground, yoga room, car, and more.
- **Direct Inhalation:** For a quick aromatic boost, open the bottle cap, invert the bottle at a 45-degree angle, and let it stand for a moment so the essential oil can continue to drip out without shaking. Inhale directly from the bottle.

MAINTENANCE

Proper care ensures the longevity and effectiveness of your essential oils and diffuser:

- **Oil Storage:** Keep essential oil bottles tightly capped and stored in a cool, dark place to preserve their potency. Avoid direct sunlight and extreme temperatures.
- **Diffuser Cleaning:** Regularly clean your diffuser according to its manufacturer's instructions. Typically, this involves emptying any remaining water, wiping the reservoir with a soft cloth, and occasionally using a cotton swab with rubbing alcohol to clean the ultrasonic plate.
- **Avoid Contamination:** Do not mix different essential oil brands or types directly in the same bottle to prevent contamination or alteration of their properties.

TROUBLESHOOTING

If you encounter any issues, refer to these common solutions:

Problem	Possible Cause	Solution
No mist from diffuser	Low water level; clogged ultrasonic plate; improper lid placement.	Refill water; clean ultrasonic plate; ensure lid is correctly seated.
Weak scent output	Too few drops of oil; old oil; large room size.	Add more drops; replace old oils; use multiple diffusers for larger spaces.
Diffuser leaking water	Overfilled water tank; loose lid; diffuser on uneven surface.	Do not exceed max fill line; secure lid; place on a flat, stable surface.
