ZGZUXO CZK-3668

ZGZUXO Portable Tire Inflator User Manual

Model: CZK-3668

1. Introduction

Thank you for choosing the ZGZUXO Portable Tire Inflator. This compact and powerful device is designed for quick and efficient inflation of various items, including car tires, motorcycle tires, bicycle tires, and sports balls. Featuring a digital display, automatic shut-off, and emergency lighting, it provides a safe and convenient inflation experience. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. Safety Information

For your safety and to prevent damage to the device, please adhere to the following guidelines:

- Do not use this appliance in the rain, snow, or where there are liquids.
- Please do not over-inflate; personal injury might be caused due to high pressure.
- For your safety, do not disassemble, repair, or modify the appliance by yourself.
- Keep the appliance out of the reach of children and pets.
- Keep away from fire, flammable gases, and liquids, as this may increase the risk of fire and burst.

3. Package Contents

Please check the package to ensure all items are present:

- Tire Inflator
- Air Hose
- 4 Extra Nozzles
- Type-C Charging Cable
- User Manual
- Built-in Pressure Gauge

4. Product Overview and Features

The ZGZUXO Portable Tire Inflator is designed for convenience and efficiency. Its compact size makes it easy to carry

and store, while its powerful motor ensures fast inflation.

The ZGZUXO Portable Tire Inflator, shown with its various accessories and compatible items like cars, motorcycles, bikes, and balls.

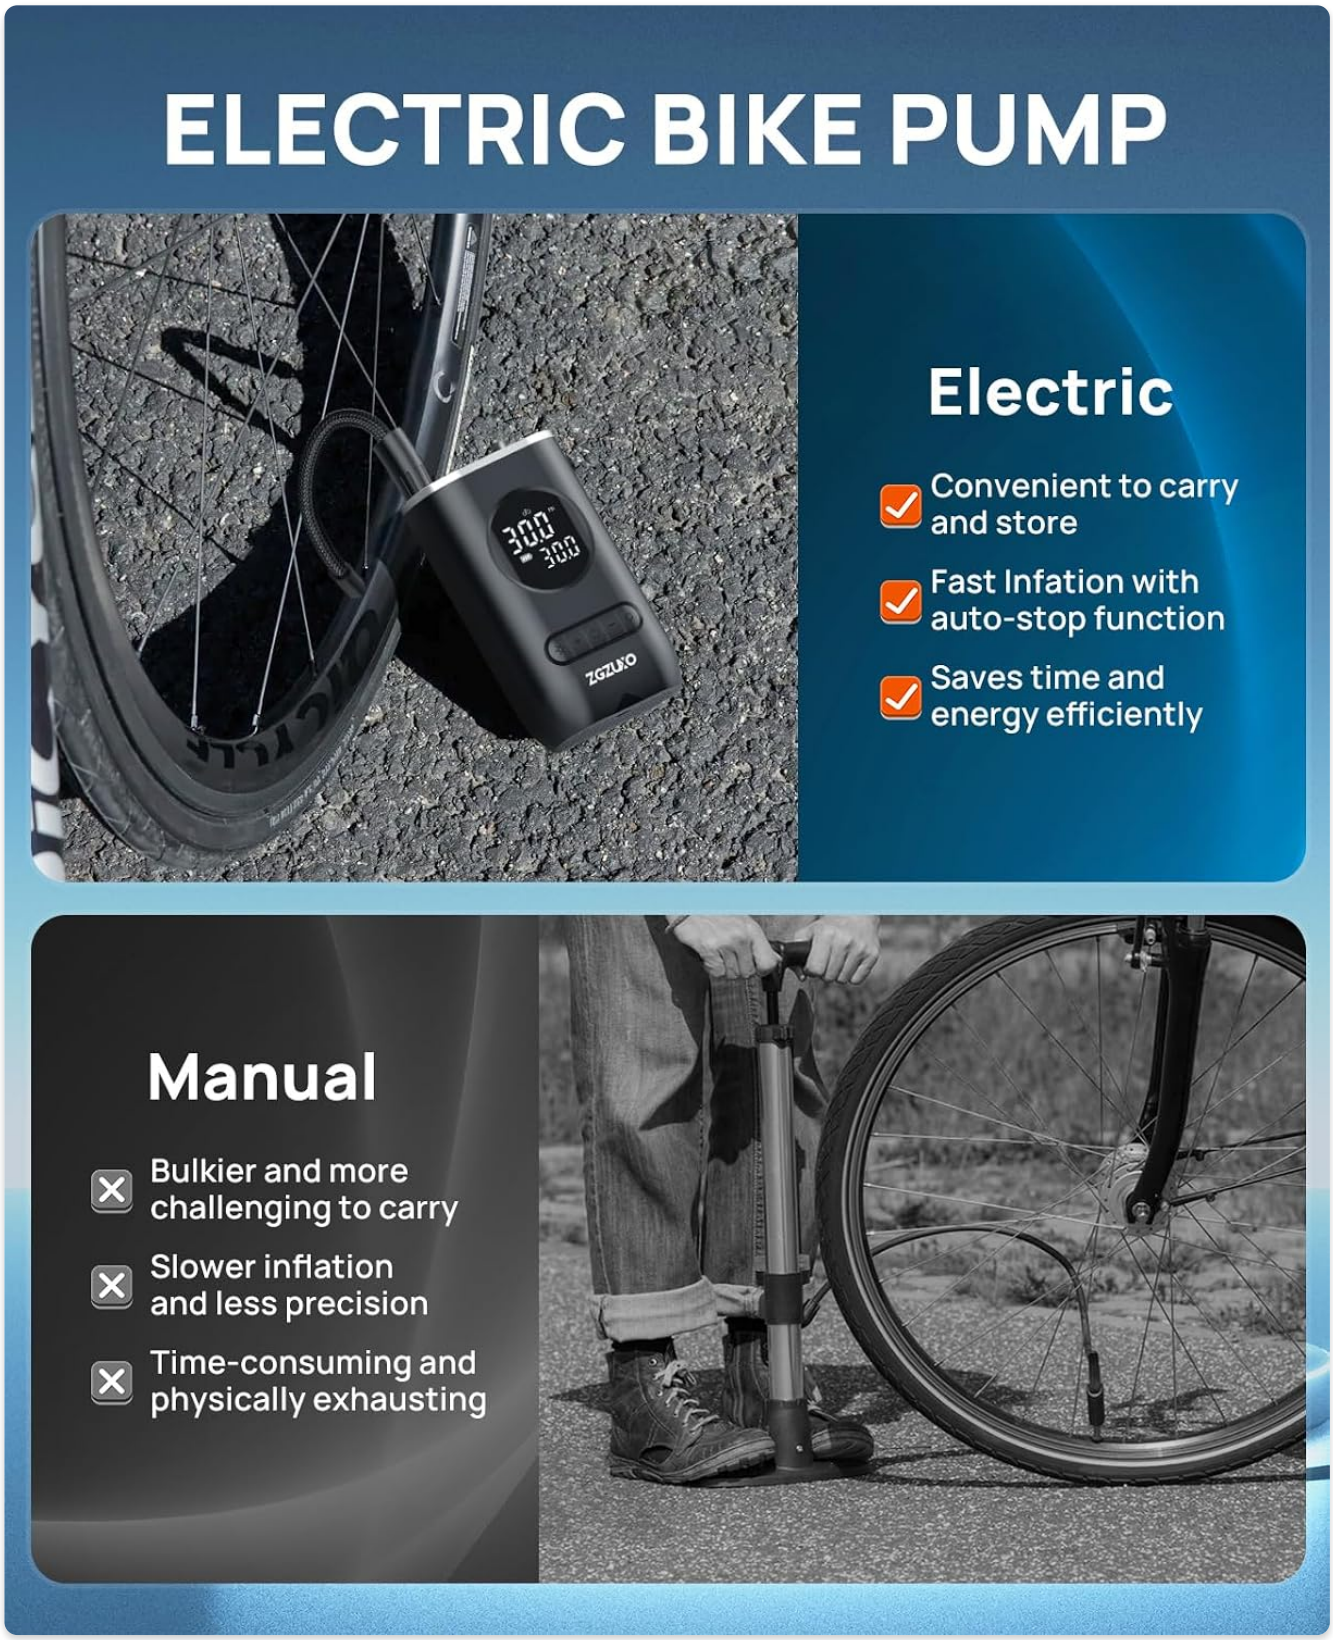

The compact dimensions (5.4 in x 3.3 in x 1.8 in) of the inflator allow for easy carrying in a backpack, pocket, or car compartment.

Key Features:

- **Fast Inflation:** Offers up to 150 PSI, capable of inflating car tires (29-36 PSI) in approximately 1 minute.
- **4+N Smart Inflation Modes:** Features 4 preset inflation modes and 4 pressure measurement units. Allows customization of any inflation value.
- **Emergency Lighting:** Built-in LED flashlight for nighttime use and emergencies, also functions as a power bank for phones.
- **Digital Display & Auto Shut-off:** High-definition LCD dual number display shows real-time and preset pressure

values. Automatically stops inflation at the preset pressure to prevent over-inflation.

- **Portable & Compact:** Designed for easy storage and carrying, fitting conveniently in a car or backpack.
- **Long Battery Life:** Powered by a built-in battery, capable of inflating up to 4 car tires on a single charge.

The powerful battery can inflate approximately 4 car tires, 8 motorcycle tires, 15 bike tires, or 30 balls on a single charge.

The built-in LED light provides illumination for night use and can function as an SOS flash light. The device can also charge a phone.

5. Setup

Before first use, ensure the device is fully charged using the provided Type-C charging cable. The battery indicator on the display will show the charging status.

Initial Setup Steps:

1. **Charge the Device:** Connect the Type-C charging cable to the inflator and a suitable USB power source.
2. **Familiarize with Nozzles:** Identify the appropriate nozzle for the item you intend to inflate (e.g., Schrader valve

for cars/bikes, Presta valve adapter for some bikes, needle for balls, cone nozzles for inflatables).

3. **Attach Air Hose:** Screw the air hose securely onto the inflator's output port.

Visual guide for easy setup and operation: 1. Connect nozzle, 2. Power on, 3. Choose mode/pressure, 4. Start inflation.

6. Operating Instructions

Follow these steps to inflate your items safely and efficiently:

Inflation Process:

1. **Connect Nozzle:** Select the correct nozzle and securely attach it to the air hose.
2. **Power On:** Hold the power button for 3 seconds to turn on the tire inflator. The digital display will illuminate.
3. **Select Mode & Set Pressure:** Press the mode button to cycle through the 4 preset inflation modes (Car, Motorcycle, Bike, Ball) or select the custom mode. Use the '+' and '-' buttons to adjust the target pressure value. The display shows both real-time and preset pressure.
4. **Start Inflation:** Press the power button again to begin inflation. The inflator will automatically stop once the preset pressure is reached.
5. **Disconnect:** Once inflation is complete, disconnect the nozzle from the item and the air hose from the inflator.

The high-definition LCD display allows for effortless monitoring of real-time and preset tire pressure values.

The auto-stop feature ensures safe and precise inflation by automatically stopping when the preset pressure is reached for various applications.

Application Modes and Pressure Ranges:

The inflator supports a wide range of applications with recommended pressure settings:

The inflator is suitable for cars (26-50 PSI), motorcycles (26-45 PSI), bikes (30-145 PSI), balls (4-16 PSI), and custom settings (3-150 PSI).

Experience fast inflation, with motorcycle tires (28-35 PSI) inflating in approximately 35 seconds.

7. Maintenance

To ensure the longevity and optimal performance of your ZGZUXO Portable Tire Inflator, follow these maintenance tips:

- **Cleaning:** Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or immerse the device in water.
- **Storage:** Store the inflator in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the air hose and nozzles are neatly stored to prevent damage.
- **Battery Care:** For best battery life, charge the device regularly, even if not in frequent use. Avoid fully discharging

the battery for extended periods.

- **Nozzle Inspection:** Periodically check nozzles and the air hose for any signs of wear or damage. Replace if necessary.

8. Troubleshooting

If you encounter any issues with your ZGZUXO Portable Tire Inflator, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not turn on	Low battery; Power button not held long enough	Charge the device fully; Hold the power button for 3 seconds
Inflation is slow or not working	Nozzle not securely attached; Air hose leak; Incorrect pressure setting	Ensure nozzle is tightly screwed; Check hose for damage; Verify preset pressure is appropriate
Device stops prematurely	Preset pressure reached; Overheating	This is normal if target pressure is met; Allow device to cool down before resuming use
Inaccurate pressure reading	Nozzle not fully connected; Sensor issue	Ensure a tight connection; If problem persists, contact customer support

If the problem persists after trying these solutions, please contact ZGZUXO customer support for further assistance.

9. Specifications

Feature	Detail
Model Number	CZK-3668
Product Dimensions	8.3 x 4.8 x 13.7 cm
Item Weight	530 g
Batteries	3 Lithium Ion batteries (included)
Colour	Black
Material	Metal
Power Source	Battery Powered
Voltage	12 Volts
Maximum Power	144 Watts

Feature	Detail
Air Flow Capacity	35 LPM
Sound Level	67 dB
Special Features	Emergency LED Light, Memory Function, Cordless and Quick Inflation, Clear and Accurate Pressure Readings, Track Real-time Inflation, Easy to Use, Compact Size and Lightweight, Convenient to Carry and Store, Reliable and Durable Battery Life, Affordable

10. Warranty and Support

The ZGZUXO Portable Tire Inflator comes with a **1-year warranty** from the date of purchase. This warranty covers manufacturing defects and issues arising from normal use.
For warranty claims, technical support, or any questions regarding your product, please contact ZGZUXO customer service through the retailer's platform or the official ZGZUXO website. Please have your purchase receipt and model number (CZK-3668) ready when contacting support.
