## GDLF LNG803m

# GDLF Outdoor Storage Cabinet and Grill Prep Table User Manual

Model: LNG803m

## INTRODUCTION

---

This manual provides instructions for the assembly, operation, and maintenance of your GDLF Outdoor Storage Cabinet and Grill Prep Table. This versatile unit is designed to enhance your outdoor cooking and entertaining experience, offering a durable stainless steel work surface, ample storage, and convenient mobility.

The GDLF Outdoor Storage Cabinet and Grill Prep Table is constructed from premium fir wood with a stainless steel top. It features an open shelf, a divided cabinet for storage (including space for a 20LBS propane cylinder with gas line access), and casters for easy movement. A waterproof cover is included to protect the unit when not in use.

## SAFETY INFORMATION

---

- Ensure all parts are properly secured before use.
- Use caution when moving on uneven surfaces to prevent tipping.
- Do not allow children to play on, with, or around the cart.
- Keep the cart on a covered patio or porch area to protect from weather conditions.
- Always follow assembly instructions carefully to avoid injury from sharp tools or small parts.

## SETUP AND ASSEMBLY

---

Assembly of the GDLF Outdoor Storage Cabinet and Grill Prep Table requires careful attention to the provided instructions. Two people are recommended for assembly.

### Required Tools (Not Included):

- Phillips head screwdriver
- Drill with small drill bits (may be needed for pilot holes)

## Assembly Steps:

1. **Unpack and Inspect:** Carefully unpack all components. Verify that all parts are present and undamaged. Refer to the parts list in your included instruction booklet.
2. **Air Out Wood:** It is recommended to allow the wood pieces to air out for a few days prior to assembly, especially if a strong varnish odor is present.
3. **Follow Illustrated Guide:** Assemble the unit according to the step-by-step illustrations provided in the separate assembly guide. Pay close attention to the orientation of each piece.
4. **Door Installation:** When installing cabinet doors, note that pilot holes may not be pre-drilled. Use a small drill bit to create pilot holes before inserting screws to prevent wood splitting and ensure proper alignment. Use caution as screws may be low quality and prone to stripping.
5. **Secure Top and Shelves:** Ensure the stainless steel top and internal shelves are securely fastened. Note that the bottom and top shelves are not solid, which may allow for small gaps.
6. **Caster Attachment:** Attach the casters to the base of the unit for mobility. Ensure they are securely tightened.

# DIY

*The natural wood finish of this cabinet serves as the perfect canvas, inviting you to get creative and personalize it in any color of your choosing through DIY.*

Image: The natural wood finish of this cabinet can be personalized by painting it in a color of your choosing.

The GDLF Outdoor Storage Cabinet and Grill Prep Table is designed for versatile use in outdoor settings.

### Using the Prep Table:

- The stainless steel top provides a durable and easy-to-clean surface for food preparation, serving, or holding small appliances like air fryers or portable grills.
- Avoid placing extremely hot items directly on the stainless steel surface for extended periods without protection.

### Storage:

- Utilize the open middle shelf for easy access to plates, cups, or frequently used items.
- The divided cabinet offers enclosed storage. One side is designed to accommodate a standard 20LBS propane cylinder, featuring a hole in the back for gas line access.
- The other side of the cabinet provides additional shelving for various outdoor cooking accessories or supplies.

### Mobility:

- The table is equipped with casters for easy movement. Lock the casters when the unit is in a desired position to ensure stability.
- Use the side handle for convenient maneuvering.

### Accessory Hooks:

- The integrated hooks hanger on the side can be used to hang grilling tools, towels, or other small accessories.

## MAINTENANCE

---

Proper maintenance will extend the life and appearance of your GDLF Outdoor Storage Cabinet and Grill Prep Table.

### Cleaning:

- **Stainless Steel Top:** Wipe with a dry cloth after each use. For deeper cleaning, use a mild detergent and water, then dry thoroughly to prevent water spots. Avoid abrasive cleaners or scouring pads that can scratch the surface.
- **Wood Surfaces:** Wipe wood surfaces with a dry cloth. For stubborn dirt, use a slightly damp cloth and dry immediately. Avoid harsh chemicals.

### Protection:

- Wood is a natural product and is susceptible to weather, temperature, and humidity changes. To protect your prep table for long-term use, we recommend keeping it on a covered patio or porch area.
- Use the provided waterproof cover when the unit is not in use or during inclement weather. Ensure the unit is clean and dry before covering.

## EQUIP WITH WATERPROOF COVER

## TROUBLESHOOTING

This section addresses common issues you might encounter with your GDLF Outdoor Storage Cabinet and Grill Prep Table.

### Assembly Challenges:

- **Missing Pilot Holes:** If you encounter parts, particularly for cabinet doors, without pre-drilled pilot holes, use a small drill bit to create them. This prevents wood splitting and ensures screws are properly seated.
- **Stripped Screws:** If screws strip during assembly, replace them with higher-quality screws of the same size, or consider using wood glue in conjunction with the original screws for added stability.
- **Unclear Instructions:** Review the assembly illustrations carefully. If a step is unclear, try re-orienting the pieces as shown in the diagrams.

### Product Performance:

- **Strong Odor:** New wood products may have a strong varnish odor. Allow the unit to air out outdoors for several days before extensive use.
- **Metal Top Oxidation:** The stainless steel top may show signs of oxidation over time, especially if exposed to harsh weather or certain chemicals. Regular cleaning and use of the waterproof cover can help mitigate this.
- **Gaps in Shelves:** The slatted design of the bottom and top shelves may have small gaps. If this is a concern for pests or dirt, consider adding a liner or using silicone caulk to seal gaps.

## SPECIFICATIONS

Feature	Detail
Model Number	LNG803m
Product Dimensions (D x W x H)	19.68" x 42.7" x 36.36"
Stainless Steel Tabletop Dimensions	19.68" x 35.43"
Item Weight	41 Pounds
Maximum Weight Recommendation	20 Pounds (for shelves)
Material	Fir Wood, Stainless Steel
Number of Shelves	2 (one open, one inside cabinet)
Color	Natural Wood Color
Assembly Required	Yes
