Webeauty F9A 3-in-1 Hot Air Styler Instruction Manual

Model: F9A | Brand: Webeauty

IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions before using this appliance. When using electrical appliances, especially when children are present, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury.

- Keep out of reach of children.
- Do not rinse or submerge the appliance in water.
- Keep the power plug and cord away from heated surfaces.
- Do not use the hair styler while bathing or in wet environments.
- Ensure your hands are dry before plugging in or unplugging the appliance.
- Always unplug the appliance after use and before cleaning.

PRODUCT OVERVIEW

The Webeauty F9A Hot Air Styler is a versatile 3-in-1 hair styling tool designed to dry, smooth, volumize, and curl hair. It features a high-speed brushless motor and negative ion technology to reduce frizz and enhance shine.

Image: The Webeauty F9A Hot Air Styler with its main unit and interchangeable attachments.

This multi-styler combines a styling brush and two auto-air curling irons into one device, significantly reducing styling time. It releases 200 million negative ions during operation for smoother, shinier results.

Key Features and Attachments:

- **Main Unit:** Features power controls, heat settings, and a 360° swivel cord for ease of use.
- **65mm Blow Dryer Brush:** A unique heated oval brush with 360° airflow and titanium plates for drying, smoothing, and volumizing.
- **1.35" Auto-Air Curlers (2 pieces):** Utilizes the Coanda effect for effortless curling without extreme heat. Includes one for left-direction curls and one for right-direction curls.

GETTING STARTED & ASSEMBLY

Attaching and Removing Accessories:

To attach an accessory, align the arrow on the accessory with the unlock symbol on the main unit. Rotate the brown ring to the left until the arrow aligns with the lock symbol. To remove, rotate the brown ring to the right until the arrow aligns with the unlock symbol, then pull the accessory off.

FREQUENTLY ASKED QUESTIONS

Q: Why doesn't my curly hair style last long?

A: I. Weather: Humid or rainy days shorten style duration.

II. Hair condition: Varying hair quality and damage affect longevity.

Q: Tips to prolong curly hair style?

A: I. Style hair when **80-90% dry**.

II. Set with **cold air** after using hot air.

III. Use styling mousse or **spray** for better hold.

OPERATING INSTRUCTIONS

Power and Settings:

The Webeauty F9A features intuitive controls for power, wind speed, and heat settings. Ensure the device is plugged into a 100-120V US-only safety plug. A voltage converter (not just an adapter) is required for use in Europe.

Intelligent Heat Regulation Setting

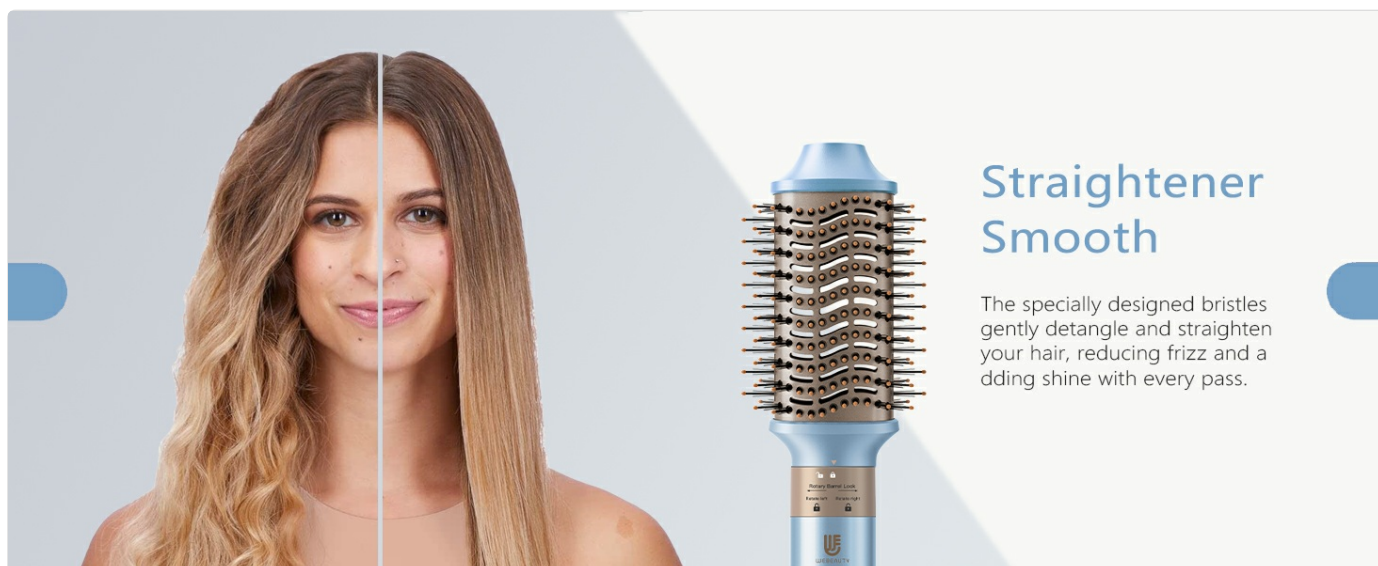

3 HEAT SETTING

- Cool
- Warm
- Hot

2 WIND SPEED

- = High
- Medium

Tips for Optimal Curling:

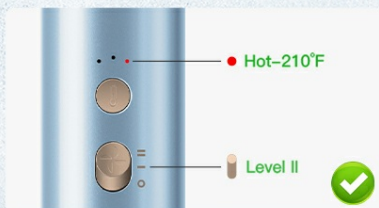

Low temp or level I speed may not be enough.

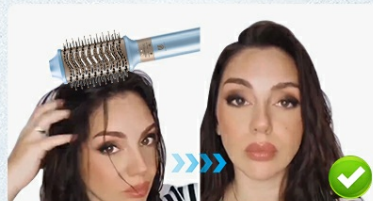

Begin to curl while hair is wet (too heavy).

Grabbing too much hair at once.

Set to the highest temp and higher speed model to start curl.

Dry hair 80%-90% before curling.

Take a small section of your combed hair.

Preparation: Ensure hair is 80-90% dry before curling. Do not attempt to curl fully wet hair. Take small, combed sections of hair for best results. Set the device to the highest temperature (Hot - 210°F) and higher speed (Level II) to begin curling.

360° Swivel Cord

This design prevents cord tangling during hair curling.

Technique: Position the curling iron below the hair section, with the arrow pointing towards the ends. Curl the ends first, then move up. After curling with heat for approximately 10 seconds, switch to COLD air for 5 seconds to set and prolong the curls. Avoid brushing curls too soon after styling. For extended hold, use mousse or styling spray.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your Webeauty F9A Hot Air Styler.

Cleaning:

The end cap of the main unit is removable for easy cleaning of the internal filter. Regularly clean the filter to prevent dust and hair buildup, which can affect airflow and performance.

Other Features:

- **360° Swivel Cord:** The power cord is designed to rotate 360 degrees to prevent tangling during use.
- **Anti-Scald Tip:** Attachments feature an anti-scald tip for safe handling during and after use.
