GLIDiC TW-5300

GLIDiC TW-5300 True Wireless Earphones User Manual

Model: TW-5300 | Brand: GLIDiC

INTRODUCTION

Thank you for choosing the GLIDiC TW-5300 True Wireless Earphones. This manual provides essential information for the safe and effective use of your device. Please read it thoroughly before use and retain it for future reference. The GLIDiC TW-5300 earphones feature Hybrid Active Noise Cancelling (ANC), Ambient Sound Mode, IPX4 water resistance, and multipoint connectivity, designed to enhance your audio experience.

PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- Earphones (Left/Right) x 1 set
- Charging Case x 1
- Earpieces Basic Type (XXS, XS, S, M, L) x 2 sets (one set pre-installed)
- Earpieces Short Type (XS, S, M) x 2 sets
- Quick Guide x 1
- Loss & Extended Warranty Description x 1

1. Charging the Earphones and Case

Before first use, fully charge the earphones and the charging case. Place the earphones into the charging case. Connect the charging case to a USB power source using a compatible USB-C cable (not included). The indicator light on the case will show the charging status.

2. Selecting Eartips

Choose the eartips that provide the best fit and seal for your ears. A proper seal is crucial for optimal sound quality and effective noise cancellation. Experiment with the included Basic and Short type eartips in different sizes (XXS, XS, S, M, L) to find your ideal fit.

3. Pairing with a Device (Easy Connection)

1. Open the charging case. The earphones will automatically power on and enter pairing mode.
2. On your smartphone or audio device, enable Bluetooth and search for available devices.
3. Select "GLIDiC TW-5300" from the list of found devices to complete the pairing process.

4. Multipoint Function

The earphones support multipoint connectivity, allowing them to be simultaneously connected to two Bluetooth devices. This enables seamless switching between devices, for example, from a smartphone to a laptop.

OPERATING INSTRUCTIONS

1. Power On/Off

The earphones automatically power on when removed from the charging case and power off when placed back into the case and the lid is closed.

2. Active Noise Cancelling (ANC)

The GLIDiC TW-5300 features Hybrid ANC to reduce ambient noise. This function allows you to focus on your audio by minimizing distractions from your surroundings. Refer to the quick guide for specific button operations to activate or deactivate ANC.

3. Ambient Sound Mode

Activate Ambient Sound Mode to hear your surroundings without removing the earphones. This is useful for situations where you need to be aware of your environment, such as walking in traffic or listening for announcements. This mode is typically toggled via a button press on the earphone.

4. Bass Sound Mode

Switch between
