

QCen J-001

QCen J-001 Electric Citrus Juicer User Manual

Model: J-001

INTRODUCTION

Welcome to the QCen Electric Citrus Juicer. This manual provides essential information for the safe and efficient operation of your new appliance. Please read all instructions carefully before first use and retain this manual for future reference.

IMPORTANT SAFETY INSTRUCTIONS

- Always unplug the juicer from the power outlet before cleaning, assembling, or disassembling parts.
- Do not immerse the motor unit in water or any other liquid. Wipe with a damp cloth only.
- Keep hands and utensils away from moving parts during operation to prevent injury.
- Ensure the lid is securely fastened before operating the juicer.
- This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.

Extract juice efficiently and quickly

This image displays the complete QGen J-001 Electric Citrus Juicer, showcasing its main unit, juice collector, juicing cone, filter, and lid. The compact design is highlighted.

SETUP

Follow these steps to assemble your juicer before first use:

1. Ensure the juicer is unplugged from the power outlet.
2. Place the main motor unit (base) on a stable, flat, and dry surface.
3. Insert the juicing cone into the filter, then place this assembly into the transparent juice collector.
4. Align the assembled juice collector with the main motor unit and twist clockwise until it locks securely into place.
5. Place the lid on top of the juice collector.

OPERATING INSTRUCTIONS

Enjoy fresh juice with these simple steps:

1. Wash your chosen citrus fruit (orange, lemon, grapefruit) and cut it in half.
2. Place one half of the fruit onto the juicing cone, ensuring it is centered.
3. Securely fasten the lid by twisting it until it clicks into place.
4. Place a glass or container under the juice spout. Ensure the juice spout stopper is open.
5. Press the power button (ON/OFF) to start the juicing process. The juicer will automatically extract the juice.
6. Once juicing is complete, the motor will stop. If the juicing tray becomes blocked during the process, long press the power button for 3 seconds to release the tray to go down.
7. Close the juice spout stopper to prevent drips, then remove your glass.

QCen Citrus Juicers

Enjoy juicer at home!

This image illustrates the juicer in action, with a halved orange placed on the juicing cone and juice flowing into a glass, highlighting the one-touch operation.

MAINTENANCE AND CLEANING

The QCen J-001 features a detachable design for easy and thorough cleaning:

1. Always unplug the juicer from the power outlet before cleaning.

2. Disassemble all removable parts: the lid, juice collector, juicing cone, and filter.
3. Wash all detachable parts with warm, soapy water using the provided cleaning brush to remove pulp and residue.
4. Rinse all parts thoroughly under running water and allow them to air dry completely before reassembling or storing.
5. Wipe the main motor unit (base) with a damp cloth. Do not immerse the motor unit in water.
6. All detachable parts are dishwasher safe for added convenience.

4 STEP TO ENJOY JUICER

1 Slice the fruit in half.

2 Securely fasten the lid.

3 Press the power button.

4 Unseal the outlet.

The image shows the juicer disassembled into its main components, emphasizing the detachable parts design which simplifies the cleaning process.

TROUBLESHOOTING

Refer to this table for common issues and their solutions:

Problem	Possible Cause	Solution
Juicer does not turn on	Not plugged in; Power button not pressed	Ensure power cord is securely plugged into a working outlet; Press the ON/OFF button.
Fruit not juicing effectively	Fruit not centered; Lid not securely fastened	Ensure fruit is centered on the juicing cone; Securely fasten the lid until it clicks.
Juice tray blocked	Excess pulp accumulation	Long press the power button for 3 seconds to release the tray to go down.
