# Baseus AP02 Hand Held Vacuum Cleaner Instruction Manual

Model: AP02 | Brand: Baseus

## INTRODUCTION

This manual provides comprehensive instructions for the safe and efficient operation, maintenance, and troubleshooting of your Baseus AP02 Hand Held Vacuum Cleaner. Please read this manual thoroughly before first use and retain it for future reference.

The Baseus AP02 Hand Held Vacuum Cleaner, shown here with its various attachments and filter.

## WHAT'S IN THE BOX

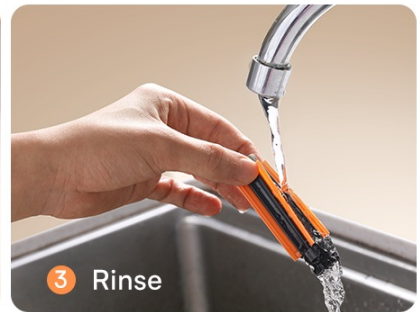

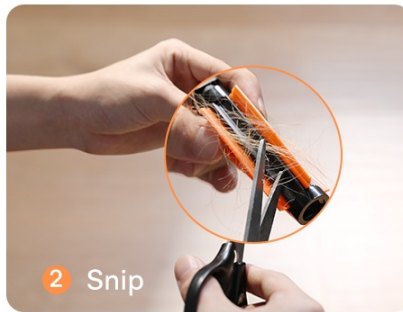

Verify that all components are present upon unboxing:

- Main Body of the Vacuum Cleaner
- Electric Silicone Roller Brush (for pet hair and carpets)
- Brush Head (for dusting)
- Crevice Tool (for tight spaces)
- USB-C Charging Cable
- HEPA Filter Cleaning Brush

- User Manual (this document)

## Detachable Roller

No Entanglement & Easy to Clean

All components included in the Baseus AP02 package.

## SETUP

### Initial Charging

Before first use, fully charge the vacuum cleaner. Connect the USB-C charging cable to the charging port on the vacuum and plug the other end into a compatible USB power adapter (not included). The indicator lights will flash during charging and remain solid when fully charged.

**Charging Time:** Approximately 3.5 hours for a full charge.

**Battery Life:** Up to 25 minutes of continuous use on a full charge.

### Attaching Nozzles

Select the appropriate nozzle for your cleaning task and firmly attach it to the vacuum's suction port. The electric roller brush, brush head, and crevice tool are interchangeable.

## OPERATING INSTRUCTIONS

### Power On/Off and LED Light

To power on the vacuum, press and hold the power button for 3 seconds. The LED light will illuminate automatically, assisting in cleaning dark areas. Press the power button again briefly to turn off the LED light. To power off the vacuum, press and hold the power button for 3 seconds.

## Crevice Tool

Perfect for cleaning hard-to-reach spots like gaps and corners.

The built-in LED light helps illuminate debris in dark or hard-to-reach areas.

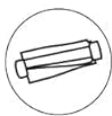

## Using the Electric Silicone Roller Brush

This attachment is ideal for picking up pet hair and debris from carpets, upholstery, and car interiors. Its unique design prevents hair entanglement, ensuring efficient cleaning.

# Removes Hair with No Entanglement

High-speed  
roller

Washable silicone  
brush

Detachable  
design

Other bristle brush

Baseus no wrap silicone brush

The electric silicone roller brush effectively removes hair without entanglement.

## Brush Head

Dusts fine particles from surfaces and carpets.

Demonstration of the electric silicone roller brush picking up pet hair from various surfaces.

### Using the Brush Head

The brush head is suitable for dusting delicate surfaces, keyboards, hard floors, and other areas where a gentle touch is required.

### Larger Cleaning Area

Wider vacuum port, so you don't have to go back and forth on the same spot.

The brush head is effective for dusting fine particles from various surfaces.

### Using the Crevice Tool

For hard-to-reach spots, narrow gaps, and corners, attach the crevice tool. This allows for precise cleaning in tight areas like car seats, sofa crevices, and cabinet edges.

# Perfect for Car Interior Cleaning

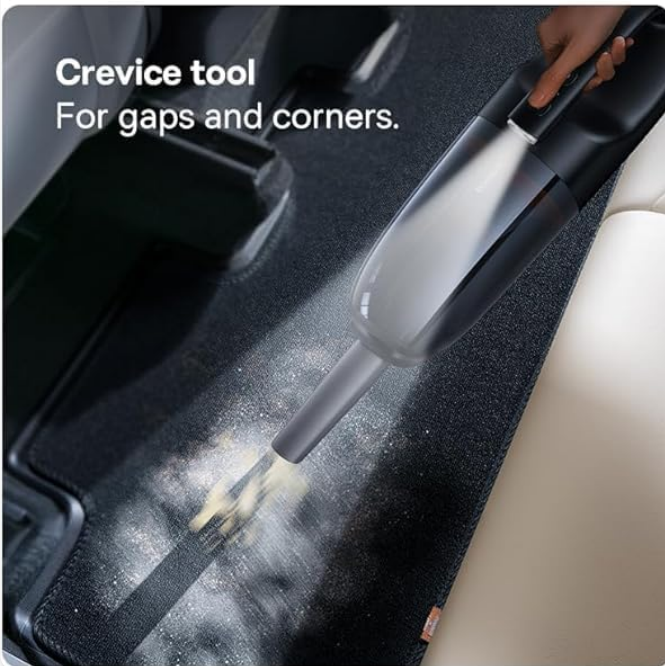

## Electric roller

For carpets and rugs in your car trunk.

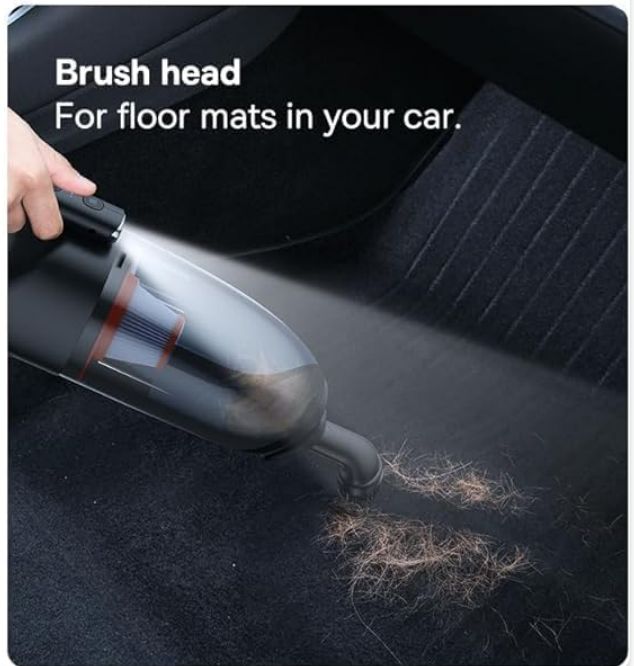

## Crevice tool

For gaps and corners.

## Brush head

For floor mats in your car.

The crevice tool is perfect for cleaning tight spaces in car interiors.

## Electric Silicone Roller Brush

Picks up pet hair and pet messes more easily.

The crevice tool reaches deep into gaps and corners for thorough cleaning.

## MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your vacuum cleaner.

### Emptying the Dustbin and Cleaning the HEPA Filter

1. Press the dustbin release button to detach the dustbin from the main body.
2. Empty the collected debris into a trash can.
3. Remove the HEPA filter from the dustbin. Use the provided cleaning brush to remove dust and debris from the filter.
4. For thorough cleaning, the HEPA filter can be rinsed under running water. Ensure it is completely dry before reinserting it into the dustbin.
5. Reattach the dustbin to the main body until it clicks into place.

# Hassle-Free Dust Emptying

Steps for hassle-free dustbin emptying and filter cleaning.

## Cleaning the Electric Roller Brush

To maintain optimal performance, regularly clean the electric silicone roller brush, especially if used for pet hair.

1. Locate the roller brush lock button on the bottom of the vacuum head and press it to release the roller brush.

- 2. Remove any tangled hair or debris from the roller brush. You may use scissors to carefully cut through stubborn tangles.
- 3. The silicone roller brush can be rinsed under water for a more thorough clean. Ensure it is completely dry before reinserting.
- 4. Reinstall the roller brush by aligning it correctly and pushing it until it clicks into place.

Instructions for detaching, snipping tangled hair, and rinsing the detachable roller.

## TROUBLESHOOTING

If you encounter issues with your Baseus AP02 vacuum cleaner, refer to the common problems and solutions below:

Problem	Possible Cause	Solution
Vacuum does not turn on.	Low battery; Power button not held long enough.	Charge the vacuum fully. Press and hold the power button for 3 seconds.
Weak suction power.	Full dustbin; Clogged filter; Blocked nozzle/hose.	Empty the dustbin. Clean or replace the HEPA filter. Check and clear any blockages in the nozzles or main suction path.
Roller brush stops spinning.	Hair/debris tangled in brush; Protection mechanism activated (due to excessive pressure).	Remove and clean the roller brush. If the protection mechanism is activated, release pressure and restart the vacuum.
Short battery runtime.	Battery not fully charged; Battery degradation over time.	Ensure the vacuum is fully charged before use. If battery life significantly decreases, contact customer support.

## SPECIFICATIONS

Brand:	Baseus
Model Name:	AP02
Wattage:	160 watts
Capacity:	1 Liters (Dust Bin)
Battery:	10,000mAh Lithium-Ion (included)

Runtime:	Up to 25 minutes
Charging Time:	3.5 Hours
Filter Type:	HEPA Filter
