Setup: Skin Application Guide

Follow these steps carefully to ensure proper application of your MightySkins vinyl decal to your Bose Ultra Open Earbuds and charging case.

1. **Prepare Your Device:** Ensure your Bose Ultra Open Earbuds and charging case are clean and free of dust, oils, or

residues. Use a microfiber cloth for best results.

2. **Identify Skin Pieces:** Carefully identify each piece of the skin and match it to the corresponding part of your earbuds and charging case. The skin set includes pieces for the charging case and individual earbuds.
3. **Apply to Charging Case (Top):**
    - Peel off the backing from the top piece of the charging case skin.
    - Align the skin precisely with the top surface of the charging case, ensuring all edges and cutouts match.
    - Gently press down from the center outwards, smoothing out any air bubbles with your finger or a soft, flat tool.
4. **Apply to Charging Case (Bottom/Sides):** Repeat the alignment and application process for any remaining pieces designed for the charging case's bottom or sides.
5. **Apply to Earbuds:**
    - Carefully peel off the backing from one earbud skin piece.
    - Align the skin with the contours of the earbud, paying close attention to speaker openings and sensor areas.
    - Press firmly to adhere, working from one end to the other to prevent air bubbles. Repeat for the second earbud.
6. **Final Smoothing:** Once all pieces are applied, gently rub over the entire surface of the skin to ensure maximum adhesion and remove any remaining small air bubbles.

Operating (Daily Use)

Once applied, your MightySkins protective wrap functions as a durable layer against everyday wear and tear. The skin is designed to be ultra-thin, ensuring it does not interfere with the functionality, fit, or charging capabilities of your Bose Ultra Open Earbuds or their case. Continue to use your earbuds as normal, enjoying the added protection and personalized aesthetic.

Maintenance

To maintain the appearance and longevity of your MightySkins product:

- **Cleaning:** Wipe the surface of the skin with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the vinyl and print.
- **Avoid Extreme Temperatures:** Prolonged exposure to extreme heat or cold may affect the adhesive and material integrity.
- **Handle with Care:** While durable, avoid sharp objects or excessive force that could scratch or peel the skin.

Troubleshooting

If you encounter any issues during or after application, consider the following:

- **Air Bubbles:** Small air bubbles can often be smoothed out by gently pressing them towards the edge of the skin with your finger or a soft, flat tool. The air-release adhesive is designed to minimize this.
- **Misalignment:** If the skin is slightly misaligned during initial application, gently peel it back slowly and re-align. The adhesive allows for minor adjustments. Avoid aggressive pulling.
- **Edges Lifting:** Ensure all edges are firmly pressed down during application. If an edge lifts later, gently press it back into place. Heat from a hairdryer on a low setting can sometimes help reactivate the adhesive for better adherence, but use with extreme caution and minimal heat.
- **Residue After Removal:** MightySkins are designed to remove cleanly. If any minimal residue remains, it can typically be wiped away with a soft cloth and a small amount of rubbing alcohol.

Specifications

Attribute	Detail
Product Type	Vinyl Decal Skin
Compatibility	Bose Ultra Open Earbuds
Material	Premium 3M Vinyl, Matte Finish
Special Features	Fade Resistant, Fingerprint Resistant, Scratch Resistant, Slip Resistant
Color	Sky Camouflage
