

EIoTCLUB 100MB trial

EIoTCLUB Triple Play Data SIM Card (100MB Trial) - User Manual

Model: 100MB trial | Brand: EIoTCLUB

1. INTRODUCTION

This manual provides essential information and instructions for the EIoTCLUB Triple Play Data SIM Card. Designed for a wide range of IoT devices, this SIM card offers reliable 5G/4G LTE data connectivity across major networks in the USA without contracts or hidden fees. Please read this manual thoroughly before using your SIM card.

2. PRODUCT OVERVIEW

The EIoTCLUB Triple Play Data SIM Card is engineered to simplify IoT connectivity. It comes in a convenient triple-cut size (Standard, Micro, Nano) to fit various devices. It automatically selects the best available network from Verizon, AT&T, and T-Mobile for stable and strong signal coverage across the USA.

3. COMPATIBILITY

The EIoTCLUB SIM card is compatible with a wide range of 5G/4G/LTE IoT devices, including security cameras, trail cameras, routers, PoC radios, and tablets. It is designed to work with devices operating on specific network bands in the USA.

3.1. Supported Devices

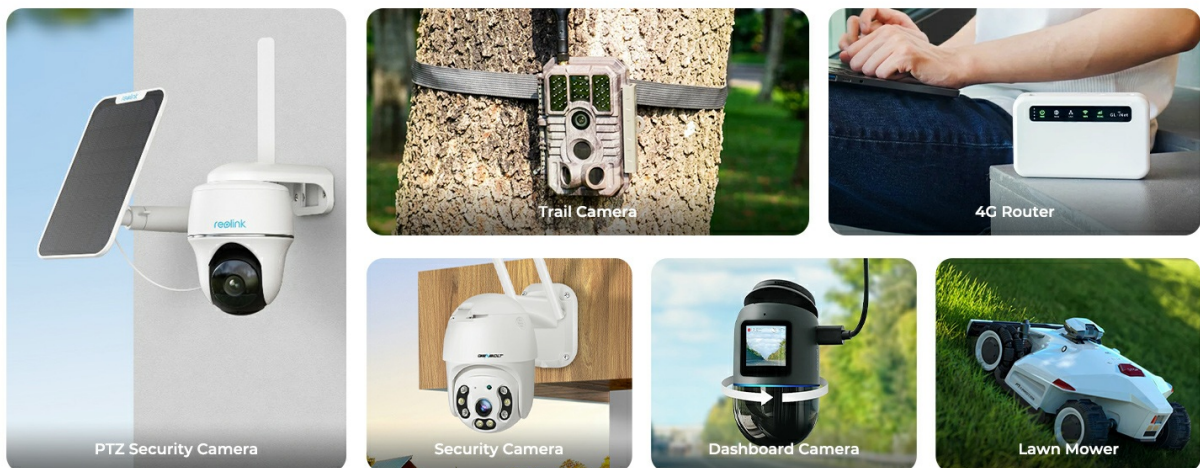

Image: Examples of compatible IoT devices such as security cameras, trail cameras, and routers.

3.2. Network Bands

For optimal performance, ensure your device supports the following network bands in the U.S.: B2, B4, B5, B12, B13, B14, B17, B25, B26, B30, B66, B71.

Important Note:

- Not compatible with 2G-GPS trackers.
- Not compatible with B1/B3 portable routers (non-U.S. bands).

! NOT compatible

with B1/B3 portable routers (non-U.S. bands)

2G-only GPS tracker

Bands compatible in the U.S. :
B2 / B4 / B5 / B12 / B14 / B17 / B25 / B26 / B30 / B66

4. SETUP INSTRUCTIONS

Setting up your EIoTCLUB SIM card is a straightforward process. Follow these steps to get your IoT device connected.

4.1. SIM Card Insertion

1. **Prepare the SIM Card:** Detach the appropriate size (Standard, Micro, or Nano) SIM card from the larger

card holder.

2. **Locate SIM Slot:** Identify the SIM card slot on your IoT device. Refer to your device's manual if unsure.
3. **Insert SIM Card:** Carefully insert the EIoTCLUB SIM card into the slot. Ensure it is correctly oriented according to your device's specifications.

Image: The triple-cut SIM card can be broken down into Standard, Micro, or Nano sizes to fit various devices.

Video: A demonstration of unboxing and inserting the EIoTCLUB SIM card into a device.

Video: Instructions on how to install the SIM card into a Eufy camera.

Video: A guide to installing the EIoTCLUB SIM card into a security camera for plug-and-play functionality.

Video: A step-by-step tutorial on how to set up the SIM card on a Reolink Trackmix camera.

4.2. Initial Activation

Once the SIM card is inserted, your device should automatically connect to the network. No manual activation is required for the SIM card itself. The service operates within the USA via 3 major nationwide cellular towers (Verizon/AT&T/T-Mobile).

5. OPERATING INSTRUCTIONS

The EIoTCLUB SIM card provides flexible data plans and easy management through the EIoTCLUB app or website.

5.1. Data Plans and Refill

EIoTCLUB offers various data plans tailored for different IoT device needs. You can manage your plan and refill data easily online.

1. **Visit the Portal:** Go to sim.eiotclub.com/1 or use the EIoTCLUB app.
2. **Enter ICCID:** Input your SIM card's ICCID number (found on the SIM card holder).
3. **Choose Plan:** Select the data plan that best suits your usage requirements.

Plan	2 GB	24 GB	48 GB
	30 days	360 days	720 days
	\$15.00	\$139.00	\$236.00
Plan	3.5 GB	7 GB	360 MB
	360 days	360 days	360 days
	Trail Camera	Trail Camera	Tracker
	\$72.00	\$96.00	\$25.00

6. MAINTENANCE

To ensure the longevity and proper functioning of your EIoTCLUB SIM card:

- Keep the SIM card in a dry, cool place when not in use.
- Avoid bending or scratching the metallic contacts on the SIM card.
- Retain your SIM card number (ICCID) for support inquiries.

7. TROUBLESHOOTING

If you encounter issues with your EIoTCLUB SIM card, consider the following:

7.1. No Network Connection

- **Check Device Compatibility:** Verify that your IoT device supports the required network bands (B2, B4, B5, B12, B13, B14, B17, B25, B26, B30, B66, B71).
- **SIM Card Insertion:** Ensure the SIM card is correctly inserted into the device's SIM slot.
- **Device Power:** Confirm your device is powered on and has sufficient battery.
- **Network Preference:** The SIM card automatically switches to the best carrier. If issues persist, try restarting your device.

Automatically preference for the best carrier

Image: The EIoTCLUB SIM card automatically selects the best network for stable connectivity.

7.2. Data Usage Issues

- **Check Data Balance:** Log into your EIoTCLUB account via the app or website to check your remaining data.
- **Refill Data:** If data is low or depleted, follow the refill instructions in Section 5.1.

8. SPECIFICATIONS

Feature	Detail
Brand	EIOTCLUB
Model	100MB trial
Cellular Technology	5G/4G LTE
Service Provider	EIOTCLUB (utilizes Verizon, AT&T, T-Mobile networks)
SIM Card Type	Triple-cut (Standard, Micro, Nano)
Coverage	USA
Contract	No Contract
Network Bands (USA)	B2, B4, B5, B12, B13, B14, B17, B25, B26, B30, B66, B71
Non-Compatibility	2G-GPS trackers, B1/B3 portable routers (non-U.S. bands)

9. WARRANTY AND SUPPORT

9.1. Warranty

The EIOTCLUB SIM card comes with a **10-year warranty**. This commitment ensures free exchange and returns if the product breaks, safeguarding your rights for an extended period.

Image: EIOTCLUB's 10-year commitment for product reliability.

9.2. Customer Support

EIOTCLUB provides professional 24/7 online customer support to assist you with any questions or issues. Please reach out via message and provide your SIM card number (ICCID) for efficient assistance.
