Saker Cordless Hedge Trimmer Instruction Manual

Model: LZ | Brand: Saker

INTRODUCTION

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your Saker Cordless Hedge Trimmer. Please read this manual thoroughly before first use and keep it for future reference.

Safety Information

Always prioritize safety when operating power tools. Failure to follow these instructions may result in serious injury.

- **Dual-Lock Mechanism:** The trimmer is equipped with a double-lock mechanism for your protection. It will only activate when both the top handle (security switch) and the main power switch are pressed simultaneously. This design significantly reduces the risk of accidental activation.
- **Blade Protection:** The durable shell provides enhanced protection against accidental contact with the sharp blades. Always ensure the blade cover is in place when the trimmer is not in use or during transport.
- **Personal Protective Equipment (PPE):** Always wear appropriate safety glasses, gloves, and sturdy footwear when operating the hedge trimmer. Consider hearing protection for extended use.
- **Clear Work Area:** Ensure the work area is clear of debris, children, and pets before starting the trimmer.
- **Inspect Before Use:** Before each use, inspect the trimmer for any damage, loose parts, or worn blades. Do not

operate if damaged.

Image: A close-up view of the Saker Cordless Hedge Trimmer's handle, highlighting the "Power Switch" (A) and "Security Switch" (B). Text indicates that both must be pressed simultaneously to initiate operation, demonstrating the dual safety system.

COMPONENTS AND FEATURES

Familiarize yourself with the main components of your Saker Cordless Hedge Trimmer:

- **Dual-Action Blades:** 20-inch blades designed for efficient cutting in both forward and backward motions, minimizing vibrations. Made from SK5 steel for durability and sharpness.
- **Ergonomic Wrap-Around Handle:** Provides enhanced maneuverability and comfort during use, reducing fatigue.
- **22V/2.0Ah Lithium-Ion Battery:** Rechargeable battery providing up to 60 minutes of continuous operation. Features a status display.
- **Brushless Motor:** Delivers efficient cutting performance with a no-load speed of up to 1200 RPM.
- **Blade Guard:** Transparent guard for protection during operation.
- **Battery Charger:** For rapid charging of the lithium-ion batteries.

SETUP

1. **Charge the Battery:** Before first use, fully charge the lithium-ion battery. Connect the charger to a power outlet and insert the battery. The red light indicates charging in progress, and the green light indicates a full charge. A full charge takes approximately 2.5 hours.
2. **Install the Battery:** Align the charged battery with the battery slot on the trimmer handle and slide it in until it clicks securely into place. Ensure it is firmly seated to prevent dislodgement during operation.
3. **Inspect Blades:** Verify that the blades are clean and free from any obstructions. Remove the blade cover before use.

OPERATING INSTRUCTIONS

- 1. Starting the Trimmer:** To start the trimmer, simultaneously press and hold both the security switch on the top handle and the power switch on the main grip. Release both switches to stop the trimmer.
- 2. Trimming Technique:**
 - Hold the trimmer firmly with both hands.
 - Maintain a balanced stance.
 - Move the trimmer smoothly and evenly along the hedge or bush. The dual-action blades cut effectively in both directions.
 - The trimmer is capable of cutting branches up to 9/16 inches (0.56 inches) thick. Do not force the trimmer through thicker branches.

3. **Battery Status:** Monitor the battery status display on the battery to ensure sufficient power for your task. Recharge as needed.

LIGHTWEIGHT & ERGONOMIC

MAINTENANCE

- **Cleaning:** After each use, disconnect the battery and carefully clean the blades and housing. Remove any sap, leaves, or debris using a stiff brush or cloth.
- **Blade Care:** Periodically apply a light machine oil to the blades to prevent rust and ensure smooth operation. If blades become dull, they may need sharpening or replacement by a qualified service technician.
- **Storage:** Store the trimmer in a dry, secure location, out of reach of children. Always attach the blade cover before storage.
- **Battery Storage:** Store batteries in a cool, dry place. For long-term storage, it is recommended to store batteries with a partial charge (around 50%).

TROUBLESHOOTING

Problem	Possible Cause	Solution
Trimmer does not start	Battery not charged or not properly inserted. Safety switches not engaged simultaneously.	Ensure battery is fully charged and securely inserted. Press both the security switch and power switch at the same time.
Reduced cutting performance	Blades are dull or dirty. Cutting branches too thick.	Clean blades and apply oil. Consider sharpening or replacing blades. Do not attempt to cut branches exceeding 9/16 inches.
Trimmer stops during operation	Battery is depleted. Overload protection activated.	Recharge the battery. Reduce the load on the trimmer. Allow the motor to cool if it feels hot.

SPECIFICATIONS

- Brand:** Saker
- Model Number:** LZ
- Power Source:** Battery Powered
- Battery Type:** 22V/2.0Ah Lithium-Ion
- Blade Length:** 20 Inches
- Blade Material:** Steel (SK5)
- Cutting Capacity:** 9/16 Inches (0.56 inches)
- No-Load Speed:** Up to 1200 RPM
- Item Weight:** 5.3 Pounds (approximately 2.4 kg)
- Product Dimensions:** 37.8 x 7.48 x 3.54 inches

WARRANTY AND SUPPORT

Saker is committed to providing exceptional support and ensuring customer satisfaction. If you have any questions, encounter any challenges with your Saker Cordless Hedge Trimmer, or require warranty service, please do not hesitate to contact Saker customer service.
