

## PetSafe ZPA10-17883

# PetSafe Large Cat Flap 2.0 White User Manual

MODEL: ZPA10-17883

For Large Cats and Small Dogs

## 1. Product Overview

---

The PetSafe Large Cat Flap 2.0 White is designed to provide convenient and controlled access for your large cats and small dogs, allowing them to move freely between indoor and outdoor spaces. This durable pet door features a unique 4-way Push-&-Turn lock and GentleClose technology for quiet and safe operation, ensuring peace of mind for pet owners.

## 2. Key Features

- **4-Way Push-&-Turn Lock:** Offers four locking settings: locked, unlocked, entry only, or exit only, providing complete control over your pet's access.
- **Quiet and Cushioned Door:** Incorporates GentleClose technology, allowing the flap to close slowly and silently, preventing sudden closures and ensuring your pet's comfort and safety.
- **DIY Installation:** Designed for easy installation on standard internal and external doors, with comprehensive step-by-step instructions included.
- **Draft Reduction:** Equipped with weather strips to minimize cold air entry and magnets on the flap to ensure a secure closure every time, improving energy efficiency.

# La porta a chiusura morbida garantisce la sicurezza dei gatti

Con tecnologia GentleClose™

## 3. Setup and Installation

---

The PetSafe Large Cat Flap is designed for straightforward DIY installation. It is suitable for various door types and thicknesses. Always ensure you have the correct tools and follow the provided instructions carefully.

### Door Compatibility:

This cat flap can be installed on internal and external doors with a thickness of 2.5 cm to 5 cm (1 inch to 2 inches). Compatible door materials include:

- Wood
- Metal
- Fiberglass
- Glass (requires a separate installation adapter)

- Composite
- MDF

## Può essere installato su porte interne ed esterne di spessore 2,5-5 cm.

\*Adattatore di installazione necessario per il vetro (venduto separatamente)

### Migliora la tua gattaiola per gatti di grossa taglia esistente

Il ritaglio attuale della gattaiola per gatti di grossa taglia si allinea perfettamente con il modello aggiornato.

*Image: Visual guide showing various door types (wood, metal, fiberglass, glass, composite, MDF) compatible with the PetSafe cat flap, noting that a glass adapter is sold separately.*

### Upgrading Existing Flaps:

If you are replacing an older large cat flap, the cutout for the previous model should align perfectly with this updated version, simplifying the upgrade process.

### Serratura in 4 modalità Push-&-Turn™

- 1 Spingere la manopola verso l'interno
- 2 Ruotare per scegliere l'impostazione di blocco
- 3 L'accesso è controllato, così puoi vivere in totale tranquillità

### Tecnologia GentleClose™

Sperimenta una maggiore sicurezza con la porta GentleClose™, che offre al tuo gatto tutto il tempo per passare prima di chiudersi delicatamente, creando un ambiente domestico più silenzioso.

## 4. Operating the 4-Way Lock

The 4-way Push-&-Turn lock allows you to control your pet's access with ease. Follow these steps to adjust the setting:

1. **Push the knob inwards:** Gently press the central knob on the cat flap.
2. **Rotate to select the lock setting:** While pressed, turn the knob to choose one of the four settings:
  - **Locked:** No entry or exit.
  - **Unlocked:** Free entry and exit.
  - **Entry Only:** Pet can enter but not exit.
  - **Exit Only:** Pet can exit but not enter.
3. **Release the knob:** Once the desired setting is aligned, release the knob to secure the selection.

## 5. Maintenance

To ensure the longevity and optimal performance of your PetSafe Large Cat Flap, regular maintenance is recommended:

- **Cleaning:** Wipe the flap and frame regularly with a damp cloth and mild detergent. Avoid abrasive cleaners that could scratch the plastic.
- **Check for Obstructions:** Periodically inspect the flap and its hinges for any debris, dirt, or pet hair that might impede smooth operation.
- **Weather Strips:** Ensure the weather strips around the flap are intact and free from damage to maintain draft reduction.
- **Lock Mechanism:** Keep the Push-&-Turn lock mechanism clean and free of dust to ensure smooth rotation and secure locking.

## 6. Troubleshooting

If you encounter issues with your PetSafe Large Cat Flap, consider the following common solutions:

- **Flap not closing completely:** Check for any obstructions in the flap's path. Ensure the magnets are clean and properly aligned. Verify that the weather strips are not interfering with the closure.
- **Pet hesitant to use the flap:** Encourage your pet by gently guiding them through the flap with treats. Keep the flap in the 'unlocked' position initially to allow them to get accustomed to it. Some pets may take time to adjust.
- **Lock mechanism is stiff:** Clean the knob and surrounding area to remove any accumulated dirt or debris. Ensure the knob is pushed in fully before rotating.
- **Drafts around the flap:** Inspect the weather strips for wear or damage. Ensure the flap is closing securely and the magnets are engaging properly.

## 7. Specifications

Model Number	ZPA10-17883
Product Dimensions	8.26 x 27.94 x 30.48 cm (3.25 x 11 x 12 inches)
Product Weight	1.03 kg (2.27 lbs)

Color	White
Material	Plastic
Closure Type	Magnetic
