ZAFRO Z5813AF

ZAFRO Countertop Ice Maker Model Z5813AF Instruction Manual

Your guide to efficient ice making and optimal appliance care.

IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before operating the appliance.
- Do not touch the evaporator when the ice maker is working.
- Ensure the appliance is placed on a stable, level surface.
- Keep at least 5 inches of clearance around the unit for proper ventilation.
- Do not immerse the power cord, plug, or any part of the appliance in water or other liquids.
- Unplug the appliance before cleaning or when not in use.
- This appliance is for household use only.

PRODUCT OVERVIEW

The ZAFRO Countertop Ice Maker is designed for convenience and efficiency, producing up to 30 pounds of ice per day. It features dual water tanks, an automatic cleaning function, and adjustable ice thickness settings.

Figure 1: ZAFRO Countertop Ice Maker.

Key Features

- **Efficient Ice Making:** Produces up to 16 ice cubes in 9 minutes, with a daily capacity of 30 pounds.
- **Dual Water Tanks:** Features a 0.5L top tank and a 1.5L internal tank for a total 2L capacity, reducing refill frequency.
- **Easy to Use and Monitor:** LCD display with water shortage and full ice alerts. Ice thickness is adjustable.
- **Space-Saving Design:** Compact dimensions (8.66 x 11.81 x 16.54 inches) suitable for various locations.
- **Advanced Features:** Automatic cleaning function for hygiene and a 24-hour timing function.

What's in the Box

- ZAFRO Countertop Ice Maker
- Ice Scoop
- Ice Basket

SETUP

1. Unpacking and Placement

1. Remove all packaging materials and tape from the unit.
2. Place the ice maker on a flat, stable surface away from direct sunlight and heat sources.
3. Ensure there is at least 5 inches (12.7 cm) of space around the unit for proper air circulation.

2. Initial Cleaning

1. Before first use, clean the interior of the ice maker with a soft cloth and mild detergent.
2. Rinse thoroughly with clean water and drain.

3. Adding Water

The ice maker supports two methods for adding water:

Figure 2: Two ways to add water.

- **Manual Fill:** Lift the ice basket and pour water directly into the internal reservoir up to the 'MAX' fill line.
- **External Water Tank:** Place the 0.5L external water tank on top of the unit and fill it with water. The water will automatically flow into the internal reservoir.

OPERATING INSTRUCTIONS

1. Powering On/Off

1. Plug the ice maker into a grounded electrical outlet.
2. Press the **ON/OFF** button on the control panel to start or stop the unit.

2. Selecting Ice Size and Thickness

Figure 3: Optional ice thickness settings.

- Use the "+" and "-" buttons on the LCD display to adjust the ice making time, which controls the ice thickness.
- Options typically include Thin (5-9 minutes), Medium (10-14 minutes), and Thick (15-20 minutes).

3. LCD Display Indicators

Figure 4: LCD Display functions.

- **Add Water Indicator:** A red light will illuminate when the water level is low, and the unit will pause operation.
- **Ice Full Indicator:** A green light will illuminate when the ice basket is full, and the unit will pause operation.
- **Ice Symbol:** The ice symbol on the display flashes to indicate that the ice making process is about to end.

4. 24-Hour Timing Function

The ice maker includes a 24-hour timing function for scheduled operation. Refer to the user manual for detailed instructions on setting the timer.

MAINTENANCE

1. Automatic Cleaning Function

Self-Cleaning Function

Press “+” button for 5s

Figure 5: Activating the self-cleaning function.

- The ice maker is equipped with an automatic cleaning function to ensure clean and healthy ice.
- To activate, press and hold the “+” button for 5 seconds. The cleaning cycle typically lasts 20 minutes.

2. Regular Cleaning

1. Unplug the appliance before cleaning.
2. Remove the ice basket and clean it with warm water and a mild detergent.
3. Drain any remaining water from the internal reservoir.
4. Wipe the interior and exterior surfaces with a soft, damp cloth.
5. Ensure all parts are dry before reassembling and storing the unit.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
"Add Water" indicator is on	Water level is too low.	Add water to the internal reservoir up to the 'MAX' line.
"Ice Full" indicator is on	Ice basket is full.	Remove ice from the basket.
Ice is not forming	No water, or ambient temperature is too high.	Ensure water is added. Move the unit to a cooler, well-ventilated area.
Ice cubes are too thin/thick	Incorrect ice thickness setting.	Adjust ice thickness using the "+" and "-" buttons.

SPECIFICATIONS

Feature	Detail
Model Number	Z5813AF
