faroro TD20

faroro Automatic Cat Feeder with Camera User Manual

Model: TD20

INTRODUCTION

The faroro Automatic Cat Feeder with Camera (Model TD20) is designed to provide scheduled meals for your pets while allowing remote monitoring and interaction. This smart feeder features a 3MP HD camera with night vision, 5G/2.4G WiFi connectivity, app control, two-way audio, motion alerts, and a low food sensor. It has a 4L capacity, suitable for both cats and small dogs.

SETUP GUIDE

1. Unboxing and Component Check

Carefully remove all components from the packaging. Ensure the following items are present:

- 1 x faroro Automatic Pet Feeder with Camera
- 1 x Anti-bite Power Cord
- 1 x Power Adapter
- 1 x Desiccant Bag
- 1 x User Manual

Package Includes

2. Power Supply

The feeder supports dual power options:

- **Corded Electric:** Connect the anti-bite USB cable to the feeder and the power adapter, then plug it into a wall outlet.
- **Battery Backup:** For power outages, insert three D-cell batteries (not included) into the battery compartment at the bottom of the feeder. This ensures continuous operation if the main power is interrupted.

3. App Installation and Pairing

Download the dedicated faroro app from your smartphone's app store. Follow the in-app instructions to pair your feeder with your device. Ensure your phone is connected to a 5G or 2.4G WiFi network during the pairing process.

4. Food Loading

Open the lid of the feeder and pour dry pet food into the 4L capacity hopper. The feeder is compatible with freeze-dried, dry, and air-dried food, with kibble sizes not exceeding 10mm (0.39 inches). Place the included desiccant bag in its designated slot to maintain food freshness.

OPERATING INSTRUCTIONS

1. Smart App Control and Feeding Schedules

Use the faroro app to program and monitor your pet's feeding schedules remotely. You can schedule up to 8 meals per day, with 1-10 portions per meal (approximately 10g per portion). The app provides a real-time feeding record to track your pet's eating habits.

Remote Pet Feeding with App

Program feeding schedules anywhere anytime on your phone

2. Camera Features: 3MP HD Video & Night Vision

The integrated 3MP high-definition camera offers a 110° wide viewing angle, allowing you to observe your pet. The IR night vision feature enables clear viewing even in low-light conditions or at night.

Bright environment

Dark environment

3MP High Definition

Note: The camera is fixed in design and cannot move up or down, so the feeding bowl will not be visible.

3. Two-Way Audio and Personalized Meal Call

Utilize the built-in microphone and speaker for real-time two-way communication with your pet. You can also record a personalized voice message that will play automatically at meal times to call your pet to the feeder.

Real-time Two-way Audio

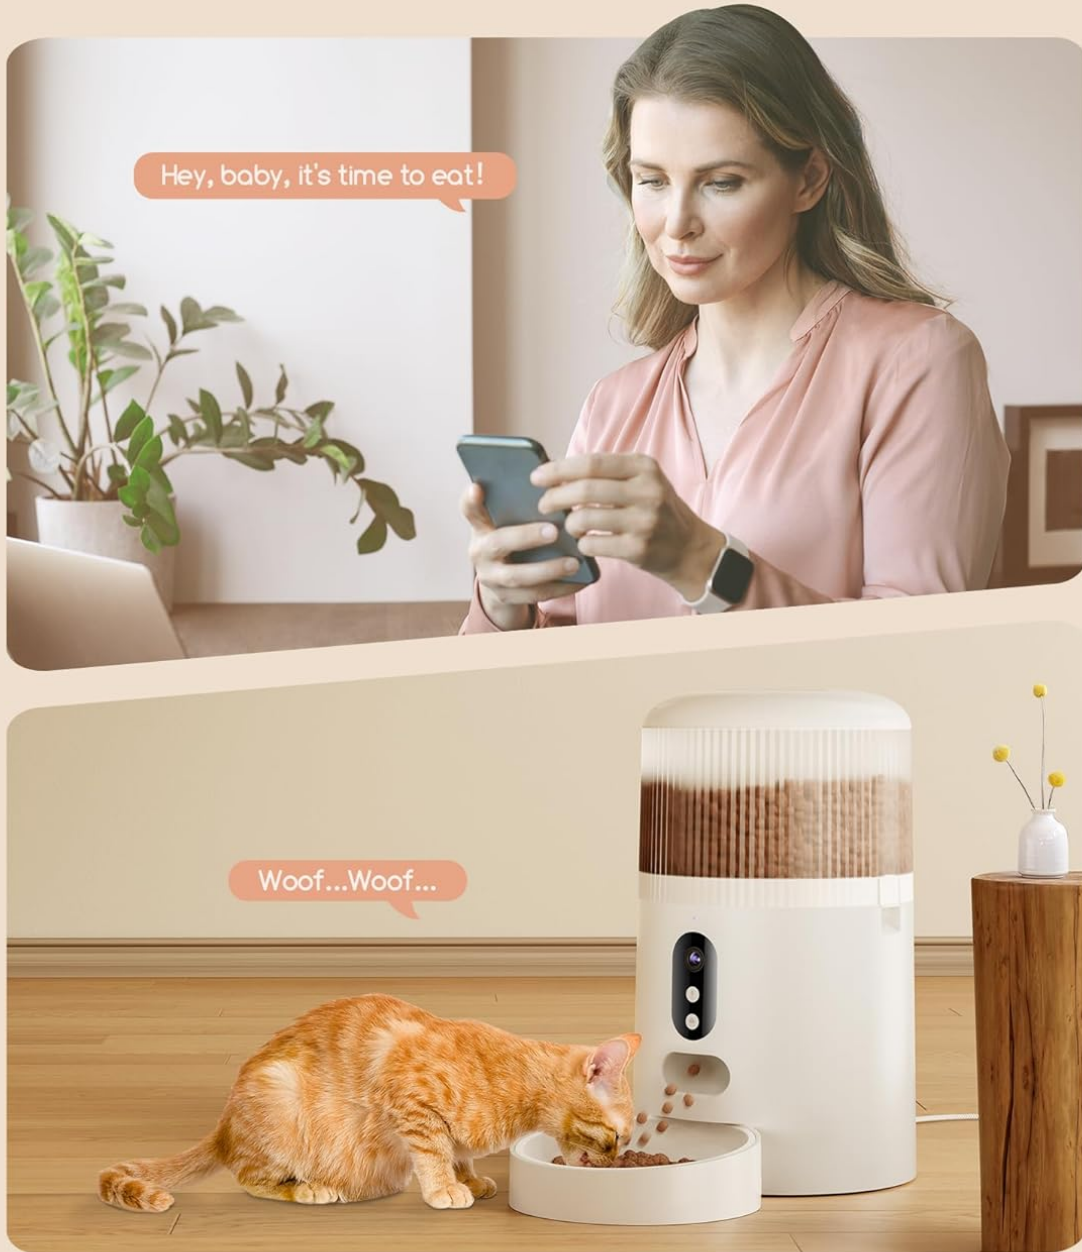

Image: A woman interacting with her pet remotely via the feeder's two-way audio feature, with speech bubbles indicating communication.

4. Motion Alerts and Notifications

The motion detector triggers video recording of your pet's activities and sends real-time motion alerts to your phone. Sensitivity levels can be adjusted (high, medium, low). For video playback, insert a 128GB SD card (not included). The app also provides pop-up notifications for low food levels (detected by the built-in sensor), device offline status, and other concerns.

5. Micro SD Card Recording

The feeder supports recording to a Micro SD card (not included) for video storage and playback. It is compatible with MicroSD cards of Class 10 or higher, ranging from 8GB to 256GB.

Recording to Micro card supported (Not included)

Note: Supports MicroSD cards of Class 10 or higher, ranging from 8GB to 256GB.

MAINTENANCE

Cleaning Instructions

The feeder features a detachable structure for easy cleaning. Regularly clean the food hopper, dispensing mechanism, and food bowl to maintain hygiene. All detachable parts can be hand-washed. Ensure all parts are completely dry before reassembly and use. **Do not wash the main machine base, which contains electronic components.**

Easy to Clean

Detachable structure for a hygienic feeding environment

Note: Wipe all parts dry before use. Do not wash the machine base.

Image: An exploded view of the faroro pet feeder, showing its various detachable components being cleaned with water splashes, illustrating the ease of disassembly for cleaning.

Desiccant Bag Replacement

Replace the desiccant bag periodically (e.g., every 1-2 months) to ensure optimal food freshness and prevent moisture buildup in the food hopper.

TROUBLESHOOTING

- **Feeder not dispensing food or making unusual noise:** Check for food blockages in the dispensing mechanism. Ensure the kibble size is within the recommended 10mm limit. If the issue persists, reset the device. If the problem is with the controlling unit, contact customer support.
- **Device offline:** Verify your WiFi connection and ensure the feeder is within range of your router.

Check if the power supply is stable.

- **App connectivity issues:** Ensure your smartphone is connected to a 5G or 2.4G WiFi network. Restart the app and the feeder.
- **No motion alerts:** Check the motion detection sensitivity settings in the app. Ensure a Micro SD card is inserted for video recording and playback.
- **Low food sensor alert:** Refill the food hopper.

SPECIFICATIONS

Brand	faroro
Model Name	Automatic Pet Feeder with Camera (TD20)
Capacity	4 Liters (approx. 16.9 cups)
Compatible Food Types	Freeze-dried, dry, air-dried food
Max Kibble Size	10mm (0.39 inches)
