3. SETUP

3.1 SIM Card and TF Card Installation

The DOOGEE N55 Plus supports dual Nano SIM cards or one Nano SIM card combined with a TF (microSD) card for expanded storage. Use the provided SIM card pin to open the SIM tray.

1. Locate the SIM tray slot on the side of the phone.
2. Insert the SIM card pin into the small hole next to the tray and press gently until the tray ejects.
3. Carefully pull out the SIM tray.
4. Place your Nano SIM card(s) and/or TF card into the designated slots on the tray, ensuring correct orientation as indicated on the tray.
5. Gently push the tray back into the slot until it is flush with the phone's body.

5. MAINTENANCE

5.1 Battery Management

The 5150mAh large battery provides extended usage. To maximize battery life:

- Reduce screen brightness.
- Close unused apps running in the background.
- Turn off Wi-Fi, Bluetooth, and GPS when not in use.
- Enable battery saver mode when battery is low.

5.2 Storage Management

With 128GB internal storage and up to 1TB expandable storage, you have ample space. To manage storage effectively:

- Regularly clear cache from apps.
- Delete unnecessary files and duplicate photos/videos.
- Move large files to the TF card.

- Utilize cloud storage for backups.

6. TROUBLESHOOTING

This section addresses common issues you might encounter with your DOOGEE N55 Plus.

Problem	Possible Solution
Phone not turning on	Ensure the battery is charged. Press and hold the Power button for at least 10-15 seconds to force a restart.
Apps crashing or freezing	Clear the app's cache or data. Uninstall and reinstall the app. Ensure sufficient RAM and storage.
Poor network signal	Check if your SIM card is properly inserted. Verify network compatibility with your carrier (supports 4G FDD/TDD, 3G WCDMA, 2G GSM bands). Move to an area with better coverage.
Battery drains quickly	Reduce screen brightness. Close background apps. Disable unnecessary features like GPS, Bluetooth, Wi-Fi when not in use.
