**Aroepurt Krip K58b 4g**

# Instruction Manual for Aroepurt Case for Krip K58b 4g Phone

Model: Krip K58b 4g | Brand: Aroepurt

## 1. PRODUCT OVERVIEW

This manual provides instructions for the Aroepurt Hybrid Case designed for the Krip K58b 4g Phone, which includes a tempered glass screen protector. The case offers robust protection and enhanced functionality for your device.

Figure 1: Overview of the Aroepurt Hybrid Case and included Tempered Glass Screen Protector.

## Key Features:

- **Hybrid Protection:** Combines a PC hard back panel with a soft silicone frame and four-corner shock airbags for comprehensive drop protection.
- **Integrated Stand:** Features a folding multi-angle support, allowing for adjustable viewing angles.
- **Magnetic Support:** Designed to be compatible with magnetic car mounts.
- **Frosted Anti-Fingerprint Surface:** Helps prevent fingerprints and provides a stylish carbon fiber texture.
- **Screen and Camera Protection:** The case is designed to be higher than both the camera and screen for enhanced flat surface protection.
- **Tempered Glass Screen Protector:** Provides additional screen protection against scratches and impacts.

## 2. WHAT'S IN THE BOX

Upon opening the package, please verify that all components are present:

- 1 x Aroepurt Hybrid Phone Case for Krip K58b 4g
- 1 x Tempered Glass Screen Protector

# 3. Setup

## 3.1 Installing the Phone Case

1. Ensure your Krip K58b 4g phone is clean and free of dust or debris.

2. Gently align the phone with the soft silicone frame of the case.

3. Press the phone firmly into the case, ensuring all corners and edges are securely seated within the case's protective frame.

4. Verify that all ports, buttons, and camera cutouts align correctly with your phone.

## 3.2 Installing the Tempered Glass Screen Protector

For optimal adhesion and clarity, follow these steps carefully:

Figure 2: Key features of the included Tempered Glass Screen Protector.

1. **Clean the Screen:** Use an alcohol wipe (not included, but commonly found in screen protector kits) to thoroughly clean your phone's screen. Remove all smudges, dust, and fingerprints.

2. **Dry the Screen:** Use a microfiber cloth (not included) to dry the screen completely. Ensure no lint or dust particles remain.

3. **Remove Protective Film:** Carefully peel off the protective film from the adhesive side of the tempered glass screen protector. Avoid touching the adhesive surface.

4. **Align and Apply:** Align the screen protector precisely with your phone's screen, paying attention to the speaker, camera, and button cutouts. Once aligned, gently lower the protector onto the screen.

5. **Press and Smooth:** Lightly press the center of the screen protector. The adhesive will begin to spread outwards. Use a clean, dry cloth or your finger to gently push out any remaining air bubbles towards the edges.

6. **Final Check:** Inspect the screen for any remaining bubbles or misalignments. Small bubbles usually disappear

within 24-48 hours.

## Scratch Proof

Scratch proof screen effectively avoids sharp objects scratching or abrasion

Figure 3: The screen protector is designed to be scratch-proof, protecting your phone's display.

# 4. OPERATING INSTRUCTIONS

## 4.1 Using the Folding Stand

The integrated folding support allows for convenient hands-free viewing:

1. Locate the folding stand element on the back of the case.

2. Gently pull out the stand until it locks into an open position.

3. Place your phone on a flat surface in either portrait or landscape orientation to enjoy hands-free viewing.

4. To close, push the stand back into its recessed position until it is flush with the case.

Figure 4: The multi-function stand allows for various viewing angles and secure holding.

## 4.2 Utilizing the Magnetic Feature

The case is designed with a magnetic component for use with compatible magnetic car mounts (mount not included):

1. Ensure your magnetic car mount is securely installed in your vehicle.

2. Simply bring the back of the phone case into contact with the magnetic surface of the mount. The strong magnet will secure your phone in place.

3. To remove, gently pull your phone away from the magnetic mount.

## 4.3 Using the Wristband for Secure Holding

The integrated wristband provides a secure grip and helps prevent accidental drops:

1. Slide your fingers through the wristband loop on the back of the case.

2. Adjust your grip for comfortable and secure one-handed operation.

Figure 5: The wristband enhances secure handling, and the case is compatible with magnetic car mounts.

## 5. MAINTENANCE

Proper care will extend the life and appearance of your phone case and screen protector.

### 5.1 Cleaning the Case

- Wipe the case regularly with a soft, damp cloth to remove dust and smudges.
- For tougher stains, a mild soap solution can be used, but ensure the case is thoroughly dried afterwards.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the case material and finish.

### 5.2 Caring for the Screen Protector

- Clean the screen protector with a microfiber cloth to remove fingerprints and smudges.
- If necessary, a screen cleaning spray designed for electronics can be used.
- Avoid sharp objects that could scratch the screen protector, although it is designed for high scratch resistance.

Figure 6: The case features reinforced corners with shock airbags for enhanced drop protection.

# 6. TROUBLESHOOTING

## 6.1 Case Does Not Fit Properly

- **Verify Model Compatibility:** Ensure that your phone is indeed the Krip K58b 4g model. This case is specifically designed for this model.
- **Re-installation:** Remove the case and re-install it, ensuring proper alignment of all edges and corners.

## 6.2 Bubbles Under Screen Protector

- **Re-apply:** If bubbles persist after initial application, gently lift the nearest edge of the screen protector and re-apply, pushing the bubble out with a clean cloth.
- **Dust Particles:** Large, persistent bubbles often indicate a dust particle. If so, you may need to carefully lift the protector, use a dust-absorber sticker (not included) to remove the particle, and re-apply.
- **Small Bubbles:** Very small bubbles may disappear on their own within 24-48 hours as the adhesive fully cures.

## 6.3 Magnetic Feature Not Working

- **Check Mount:** Ensure your car mount is a magnetic type and is functioning correctly.
- **Proper Contact:** Make sure the back of the phone case is making full contact with the magnetic surface of the mount.

## 7. SPECIFICATIONS

| Feature | Detail |
|---|---|
| Product Dimensions | 0.39 x 0.39 x 0.39 inches |
| Item Weight | 2.46 ounces |
| ASIN | B0D41VGDP9 |
| Special Features | Fingerprint-resistant frosted surface, Folding support, magnetic fastening, Thickened anti-drop + Card Function |
