SPECIFICATIONS

Feature	Description
Model Name	T110
Item Model Number	RMA2306
Connectivity Technology	Wireless (Bluetooth 5.4)
Audio Driver	10mm Dynamic Bass Driver
Noise Cancellation	AI ENC Noise Cancellation for Calls
Total Playback Time	Up to 38 hours (with charging case)
Earbud Battery Life	Up to 7 hours
Low Latency Mode	88ms (Gaming Mode)
Water Resistance	IPX5
Control Method	Touch
Weight	2.82 ounces

SETUP GUIDE

1. Initial Charging

Before first use, place both earbuds into the charging case and connect the case to a power source using the provided USB cable. Ensure the earbuds and case are fully charged for optimal performance. A 10-minute charge provides 120 minutes of playback.

2. Pairing with Your Device

1. Open the charging case. The earbuds will automatically enter pairing mode.
2. On your device (smartphone, tablet, etc.), enable Bluetooth.
3. Search for "realme T110" in the list of available Bluetooth devices.
4. Select "realme T110" to connect. A voice prompt will confirm successful pairing.
5. For Android devices, Google Fast Pair allows for instant connection upon opening the case near your phone.

OPERATING INSTRUCTIONS

Touch Controls

The realme T110 earbuds feature intuitive touch controls for easy management of music, calls, and other functions.

Action	Function
Double Tap	Play/Pause music, Answer/End call
Triple Tap	Next song
Press and Hold (Left Earbud)	Volume Down
Press and Hold (Right Earbud)	Volume Up
Press and Hold (Both Earbuds)	Enter/Exit Gaming Mode

38-hour Total Playback

AI ENC Noise Cancellation for Calls

The AI Environmental Noise Cancellation (ENC) feature actively reduces background noise during calls, ensuring your voice is transmitted clearly to the other party. This feature is automatically active during phone calls.

Gaming Mode (88ms Ultra-Low Latency)

Activate Gaming Mode via the realme Link app or by pressing and holding both earbuds to experience ultra-low latency of 88ms. This significantly reduces audio delay, providing a more synchronized and immersive gaming or video streaming experience.

MAINTENANCE

Cleaning

Regularly clean the earbuds and charging case with a soft, dry cloth. Avoid using abrasive materials or harsh chemicals. Ensure the charging contacts on both the earbuds and the case are free from dust and debris.

Water Resistance (IPX5)

The realme T110 earbuds are rated IPX5 water resistant, meaning they are protected against low-pressure water jets from any direction. This makes them suitable for workouts and light rain. However, they are not designed for submersion in water or exposure to high-pressure water.

TROUBLESHOOTING

- **Earbuds not pairing:** Ensure both earbuds are in the charging case and have sufficient battery. Open the case to initiate pairing. If issues persist, try resetting the earbuds (refer to realme Link app for specific reset instructions).
- **No sound from one earbud:** Place both earbuds back into the charging case, close the lid, wait a few seconds, then open it again. This often re-syncs them.
- **Connectivity issues:** Ensure your device's Bluetooth is on and within range. Try disconnecting and re-connecting the earbuds from your device's Bluetooth settings.
- **Poor call quality:** Ensure the earbuds are clean and properly seated in your ears. The AI ENC feature works best when the microphones are unobstructed.
