Usage Instructions

These hairpins are versatile and can be used to create various hairstyles, from simple buns to more elaborate updos. Here are general steps for common usage:

1. **Prepare Your Hair:** Gather your hair into the desired style, such as a bun, French twist, or chignon. Ensure your hair is neatly gathered and secured with an elastic if necessary for initial hold.
2. **Insert the Hairpin:** Hold the hairpin by its shaft. Gently push the pointed end of the hairpin through a section of your gathered hair, weaving it through the hair to secure the style. For buns, insert the hairpin from one side, catch a section of the bun, and then push it through the base of the bun towards the scalp.
3. **Secure the Style:** For added security or more complex styles, use both hairpins. Insert the second hairpin from an opposite angle or to reinforce another section of the updo.
4. **Adjust as Needed:** Once inserted, gently adjust the hair around the hairpin to ensure it is comfortable and the style is firm.

Care and Maintenance

To ensure the longevity and appearance of your LANGHONG Retro Viking Axe Hairpins, follow these care guidelines:

- **Cleaning:** Wipe the hairpins with a soft, dry cloth to remove any hair product residue or dust. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- **Storage:** When not in use, store the hairpins in the provided floral cloth bag. This protects them from scratches and keeps them clean. Store in a dry place away from direct sunlight or extreme temperatures.
- **Handling:** While durable, avoid excessive force or bending the hairpins, as this could compromise their structural integrity or finish.

Troubleshooting

If you encounter any issues while using your hairpins, consider the following:

- **Hairpin Not Holding Style:**
  - Ensure you are weaving the hairpin through enough hair to create a secure anchor.
  - For very fine or slippery hair, consider using a small elastic band to create a tighter bun before inserting the hairpin.
  - Try a different insertion angle or use both hairpins for increased stability.
- **Discomfort:**
  - Re-insert the hairpin, ensuring it is not pulling on your scalp or individual strands too tightly.
  - Adjust the position until it feels comfortable and secure.
