Key Features

The Geeni Smart Pet Feeder offers a range of functionalities to enhance pet care:

- **1080p HD Camera:** Provides clear live video monitoring of your pet.
- **Two-Way Audio:** Allows you to listen to and speak with your pet remotely.
- **Pre-Recorded Messages:** Play custom messages for your pet during feeding times.
- **Flexible Feeding Schedules:** Set up to 15 meals per day with customizable portion sizes.
- **Night Vision:** Ensures clear visibility in low-light conditions.
- **Motion Detection:** Receive alerts for pet activity.
- **App Control:** Manage all features and settings via the Geeni app.
- **Voice Control:** Compatible with Alexa and Google Home for convenient operation.

Package Contents

Verify that all components are present in the package:

- Geeni 6L Smart Pet Feeder Unit
- Removable Stainless Steel Food Bowl
- AC Adapter
- 6ft Power Cable
- User Manual (this document)

Setup

1. Assembly and Power Connection

1. Place the feeder on a flat, stable surface.
2. Insert the removable stainless steel food bowl into its designated slot at the base of the feeder.
3. Connect the AC adapter to the power port on the feeder and plug it into a standard wall outlet.

2. Filling the Food Container

1. Open the lid of the food container at the top of the feeder.
2. Pour dry pet food into the container. Ensure the food kibble size is appropriate for the feeder mechanism to prevent jamming. The feeder has a 6L capacity.
3. Close the lid securely.

3. App Download and Connection

1. Download the "Geeni" app from the Apple App Store or Google Play Store.
2. Register for a new account or log in if you already have one.
3. Follow the in-app instructions to add your Geeni Smart Pet Feeder. This typically involves putting the device into pairing mode (refer to the device's indicator light for status) and connecting it to your home Wi-Fi network (2.4GHz Wi-Fi is required).

Operating Instructions

1. Setting Feeding Schedules

- Open the Geeni app and select your pet feeder.
- Navigate to the "Schedule" or "Feeding Plan" section.
- Add new feeding times, specifying the exact time and the number of portions for each meal. You can set up to 15 meals per day.
- Save your schedule. The feeder will automatically dispense food at the programmed times.

2. Manual Feeding

To dispense food instantly, use the manual feed option within the Geeni app or press the manual feed button on the device (if available).

3. Camera Features (Live View, Night Vision, Motion Detection)

- **Live View:** Access the live video feed of your pet through the Geeni app at any time.
- **Night Vision:** The camera automatically switches to night vision in low-light conditions, providing clear black-and-white video.
- **Motion Detection:** Enable motion detection in the app settings to receive alerts on your smartphone when movement is detected near the feeder.

4. Two-Way Audio and Pre-Recorded Messages

- **Two-Way Audio:** Use the microphone icon in the app's live view to speak to your pet. Your voice will be played through the feeder's speaker.
- **Pre-Recorded Messages:** Record short messages within the app that can be played automatically during feeding times or on demand. This feature allows you to call your pet for meals or offer comforting words.

5. Voice Control Integration (Alexa & Google Home)

- Ensure your Geeni account is linked with your Amazon Alexa or Google Home app.
- Once linked, you can use voice commands to control the feeder, such as "Alexa, feed my pet 2 portions" or "Hey Google, dispense food for my dog."

Maintenance

Regular cleaning ensures optimal performance and hygiene for your pet.

Cleaning the Feeder

- **Removable Bowl:** The stainless steel food bowl can be easily removed for cleaning. Wash it with mild soap and water, then rinse thoroughly and dry completely before reinserting.
- **Food Container:** Periodically empty the food container and wipe the interior with a dry or slightly damp cloth. Ensure no moisture remains before refilling with dry food.
- **Main Unit:** Wipe the exterior of the feeder with a soft, dry cloth. Do not immerse the main unit in water or use abrasive cleaners.
- **Care Instructions:** Hand Wash Only for removable parts.

Troubleshooting

If you encounter issues with your Geeni Smart Pet Feeder, refer to the following common solutions:

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food jammed, empty container, power issue, incorrect schedule.	Check food level. Ensure kibble size is appropriate. Clear any obstructions in the dispenser. Verify power connection. Review and adjust feeding schedule in the app.
Camera not showing live view or poor quality.	Weak Wi-Fi signal, app issue, camera obstruction.	Ensure strong 2.4GHz Wi-Fi connection. Restart the app. Check for physical obstructions on the camera lens.
Motion detection not working or not recording.	Motion detection disabled, sensitivity too low, storage issue.	Verify motion detection is enabled in the app settings. Adjust sensitivity. Ensure sufficient cloud storage or local storage (if applicable).
Voice control (Alexa/Google Home) not responding.	Incorrect linking, device offline, incorrect commands.	Confirm Geeni account is correctly linked in your smart assistant app. Ensure the feeder is online in the Geeni app. Use precise voice commands.
Inconsistent feeding portions.	Food type/shape, internal mechanism issue.	Ensure food is dry and not clumping. Verify the feeder is on a level surface. If issues persist, contact customer support.
