6. MAINTENANCE

To ensure the longevity and appearance of your VASAGLE 2-Tier Side Table, follow these maintenance guidelines:

- **Cleaning:** The table is crafted from quality powder-coated steel, making it water- and scratch-resistant and easy to clean. Simply wipe it clean with a damp cloth. For tougher stains, a mild soap solution can be used, followed by wiping dry.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals, as these can damage the powder-coated finish.

- **Regular Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Outdoor Use:** While suitable for outdoor use, prolonged exposure to extreme weather conditions (heavy rain, direct scorching sun, freezing temperatures) may affect its lifespan. Consider covering or storing indoors during harsh weather.

7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Table Wobbles:** If the table is unstable, check that all screws are tightened. Use the adjustable feet at the base of each leg to level the table on uneven surfaces. Turn the feet clockwise or counter-

clockwise until stability is achieved.

- **Items Sliding Off:** The tray design and guard rails are intended to minimize this. Ensure items are placed centrally and are not excessively tall or wide for the shelf dimensions.
- **Difficulty During Assembly:** Re-check the instruction manual to ensure all parts are oriented correctly. Sometimes, a part might be installed backward, requiring minor adjustment. Do not force parts together.
