2. SAFETY INFORMATION

Important Safety Precautions:

- Do not use this gazebo in high winds (exceeding 25 mph), heavy snow, severe storms, or other extreme weather conditions.
- The manufacturer is not responsible for damage resulting from misuse or extreme weather.
- Installation on a solid, level ground surface (e.g., concrete) is strongly recommended for stability.
- When installing on soft surfaces, use ground stakes for fixation and additional guy ropes to enhance product stability.
- Safety measures and professional installation are highly recommended to ensure proper setup and stability.
- Keep children and pets away from the assembly area.
- Wear appropriate safety gear during assembly, such as gloves and eye protection.
- Ensure all bolts and fasteners are securely tightened before use.

3. PACKAGE CONTENTS AND KEY COMPONENTS

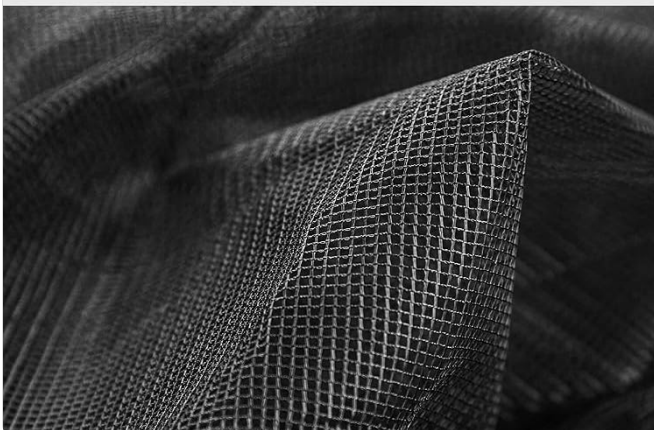

Your YITAHOME gazebo package typically arrives in multiple boxes. Please verify all components are present and undamaged before beginning assembly. Refer to the included parts list in your physical manual for a complete inventory.

BLACK ROOF & BLACK COLUMNS

BROWN CURTAINS

BLACK MESH

Key Structural Features:

- **Double Galvanized Steel Roof:** Designed to prevent fading and offer extended lifespan. Features a double-top vented design for optimal airflow and comfort, especially in windy conditions.
- **Sturdy Aluminum Frame:** Constructed from strong, powder-coated black aluminum, resistant to fading, rust, and corrosion. Designed for all-weather use.
- **Double Layer Sidewall System:** Includes brown polyester cloth curtains and black mesh netting. Features a fully enclosed double-sided zipper and a double track system for versatile use.
- **Reinforced Columns:** Columns are designed with wider width for enhanced strength and durability.
- **Ceiling Hooks:** Two hooks are located in the middle of the roof for hanging lights or fans.

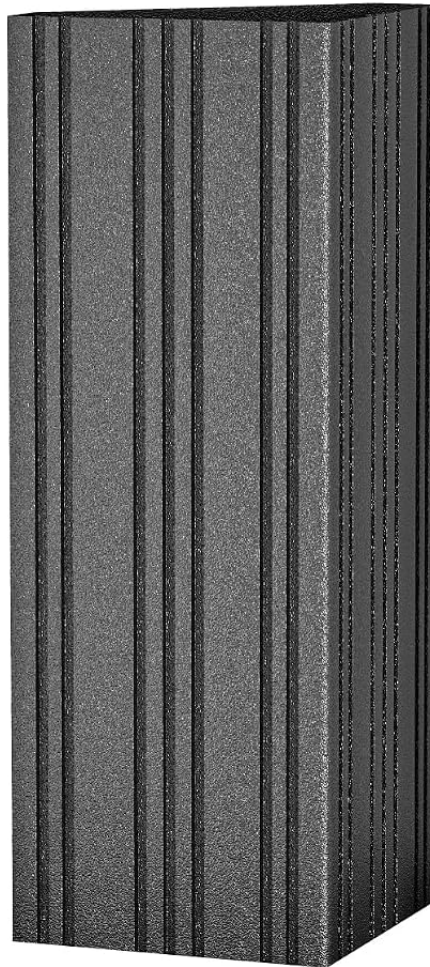

WIDER WIDTH, LARGER VOLUME

Built for enhanced column strength and durability

4. SETUP & ASSEMBLY INSTRUCTIONS

Assembly of the YITAHOME gazebo requires careful attention to detail. It is recommended to have 2-5 people for assembly, which typically takes 2-4 hours. Detailed installation videos and instructions are provided to assist you. Ensure you have all necessary tools and parts before starting.

General Assembly Steps:

1. **Unpack and Identify Parts:** Carefully unpack all boxes and lay out components. Refer to the parts list in your manual to identify each piece.
2. **Assemble the Base Frame:** Connect the base rails and secure them according to the diagram. Ensure the frame is square and level.
3. **Attach the Columns:** Securely fasten the main support columns to the base frame.
4. **Construct the Roof Frame:** Assemble the upper roof frame components, ensuring all connections are tight.
5. **Install Roof Panels:** Carefully place and secure the galvanized steel roof panels onto the roof frame. Pay attention to overlapping sections for water resistance.

6. **Install Sidewalls and Netting:** Attach the double-layer sidewalls (polyester curtains and mesh netting) to the designated tracks.
7. **Secure to Ground:** Use the provided ground stakes to anchor the gazebo firmly to the ground. For soft surfaces, consider additional anchoring methods.

Note: The package may arrive in multiple boxes at different times. Please wait for all boxes before starting assembly.

5. OPERATING INSTRUCTIONS

Curtains and Netting:

- The gazebo features a double track system for the inner mesh netting and outer fabric curtains.
- Use the inner mesh netting to provide ventilation and protection from insects while maintaining an open view.
- Deploy the outer fabric curtains for increased privacy, sun protection, and weather resistance (light rain, wind).
- Both layers can be zipped closed for full enclosure or tied back to the columns when not in use.

PANORAMIC VIEW

INNER MESH CURTAIN

Blocks flies and UV rays

OUTER FABRIC CURTAIN

Keeps warm and weatherproof

Image: Demonstrates the versatility of the double-layer sidewalls, offering panoramic views, insect protection with mesh, and privacy/weather protection with fabric curtains.

Roof Features:

- The double-tier roof design promotes airflow, reducing heat buildup and increasing comfort.
- The galvanized steel roof is designed to effectively prevent the buildup of rainwater or snow.
- Utilize the integrated ceiling hooks to hang outdoor lighting or small fans for enhanced ambiance and comfort.

THE CEILING HOOK

There's a "J" shaped hook on the roof to hang things

GALVANIZED STEEL DOUBLE ROOF

Effectively Prevents the Buildup of Rainwater or Snow

Image: The galvanized steel double roof effectively sheds rainwater and prevents snow accumulation.

6. MAINTENANCE

Regular maintenance will extend the life and appearance of your gazebo.

- **Cleaning the Frame:** Wipe the aluminum frame with a damp cloth and mild soap. Rinse thoroughly and dry. Avoid abrasive cleaners.
- **Cleaning the Roof:** Periodically clean the galvanized steel roof panels to remove leaves, debris, and dirt. Use a soft brush and water.
- **Curtain Care:** The polyester curtains can be spot cleaned with mild soap and water. For deeper cleaning, follow care instructions on the fabric tag if available. Ensure curtains are dry before storing or closing for extended periods to prevent mildew.
- **Netting Care:** The mesh netting can be gently wiped clean.
- **Fastener Check:** Periodically inspect all bolts and fasteners to ensure they remain tight. Re-tighten as necessary.
- **Winter Storage:** While the hardtop roof is designed for all-weather use, consider removing curtains and netting during winter months or severe weather to prolong their lifespan. Clear heavy snow accumulation from

the roof promptly.

7. TROUBLESHOOTING

This section addresses common issues you might encounter.

Problem	Possible Cause	Solution
Gazebo feels unstable or wobbly.	Loose fasteners; uneven ground; insufficient anchoring.	Check and tighten all bolts. Ensure the gazebo is on level ground. Use all provided ground stakes and consider additional anchoring (e.g., concrete anchors, sandbags) if on soft ground or in windy areas.
Water leakage from the roof.	Improperly installed roof panels; damaged seals.	Verify that all roof panels are correctly overlapped and secured according to assembly instructions. Inspect for any visible damage to panels or seals.
Curtains or netting do not slide smoothly.	Debris in tracks; bent tracks; damaged rollers/hooks.	Clean the tracks of any dirt or debris. Inspect tracks for bends or damage. Check curtain hooks/rollers for proper function.
Missing parts upon delivery.	Shipping error; multiple box delivery.	Confirm all boxes have arrived. Refer to the parts list in your manual. Contact YITAHOME customer support with your model number and a list of missing parts.

8. SPECIFICATIONS

Feature	Detail
Model Number	MAYIHqrOrv
Brand	YITAHOME
Product Dimensions (L x W x H)	144"L x 120"W x 116"H (12ft x 10ft x 9.67ft)
Floor Area	120 Square Feet
Frame Material	Aluminum (Powder Coated)
Roof Material	Galvanized Steel (Double Roof)
Sidewall Material	Polyester Cloth (Brown), Mesh Netting (Black)
Color	Brown (Curtains), Black (Frame/Roof)
Water Resistance Level	Water Resistant
UV Protection	Yes
Assembly Required	Yes (Recommended 2-5 people, 2-4 hours)
Occupancy	2-6 People
