MAINTENANCE

Cleaning the Remote Control

To maintain the remote's appearance and functionality:

- Wipe the surface with a soft, dry cloth.
- Do not use liquid cleaners, sprays, or abrasive materials, as these can damage the remote.

Battery Replacement

Replace batteries when the remote's response becomes sluggish or the display fades. Always replace both batteries at the same time with new AAA batteries. Do not mix old and new batteries or different types of batteries.

TROUBLESHOOTING

Problem	Possible Cause / Solution
Remote not responding	<ul style="list-style-type: none">• Check battery orientation and ensure they are fresh.• Ensure there are no obstructions between the remote and the air conditioner unit.• Verify the remote is within the operating range (up to 10 meters).
Air conditioner does not respond to heating mode commands	Some users have reported that this universal remote may not fully support the heating function on all Mitsubishi air conditioner models, even if the original remote did. This remote is primarily designed for cooling functions. If heating is critical, verify compatibility with the manufacturer or consider using the original remote if available.
