1. INTRODUCTION

The vretti BQ1 Bluetooth Label Printer is a compact, portable thermal label printer designed for various labeling needs in home, office, school, and small business environments. It connects wirelessly to your smartphone via Bluetooth, allowing for quick and easy label creation and printing through the dedicated "xeasy label" application.

This printer utilizes thermal printing technology, eliminating the need for ink or toner, which saves on replacement costs and maintenance. It supports label sizes from 25mm to 58mm, offering flexibility for printing address labels, price tags, food labels, clothing tags, barcodes, QR codes, and more.

2. SETUP

2.1 Package Contents

Before you begin, please verify that all items are included in your package:

- 1 x vretti BQ1 Label Printer
- 1 x User Manual (this document)
- 1 x 50x30mm Label Paper Roll (pre-installed inside the machine)
- 1 x Type-C USB Charging Cable

PACKAGE INCLUDES

① LABEL PRINTER x1

② USE MANUAL x1

③ 50x30MM PAPER ROLLS x1
(INSIDE THE MACHINE)

④ TYPE-C CABLE x1

2.2 Loading Label Paper

The printer comes with a label roll pre-installed. If you need to replace or load a new roll:

1. Gently open the printer cover.
2. Insert the new label roll into the compartment, ensuring the labels feed out smoothly. The printable side of the label should face upwards.
3. Close the printer cover securely.

2.3 App Installation and Bluetooth Connection

To use your vretti BQ1 printer, you need to download and connect it via the "xeasy label" application.

1. **Download the App:** Search for "xeasy label" in your smartphone's app store (Google Play Store for Android or Apple App Store for iOS) and install it.
2. **Turn on Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
3. **Open the App and Connect:** Open the "xeasy label" app. The app will guide you to connect to your printer. Select "BQ1" from the list of available devices.

4. **Power On:** Press and hold the power button on the printer until the indicator light turns on.

3. OPERATING INSTRUCTIONS

3.1 Creating and Printing Labels

Once connected, the "xeasy label" app provides a user-friendly interface for designing and printing labels.

1. **Select a Template or Create New:** The app offers a variety of pre-designed templates, fonts, icons, and frames. You can choose an existing template or start a new design.
2. **Customize Your Label:** Edit text, add images, barcodes, QR codes, and adjust the layout to fit your needs. The app supports various customization options.
3. **Preview and Print:** Before printing, preview your label to ensure it looks as desired. Then, tap the print button in the app to send the design to your vretti BQ1 printer.

Multiple Creative Printing Templates

3.2 Common Label Applications

The vretti BQ1 printer is versatile and suitable for a wide range of applications:

- **Home Organization:** Label storage bins, pantry items, spice jars, and more.
- **Office & School:** Organize files, label stationery, create name tags, or mark assets.
- **Retail & Small Business:** Print price tags, product labels, address labels for shipping, and inventory management labels.
- **Personal Use:** Create decorative labels for gifts, DIY projects, or personal items.

4. MAINTENANCE

4.1 Cleaning the Printer

To ensure optimal performance and print quality, regular cleaning is recommended:

- **Exterior:** Wipe the exterior of the printer with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- **Print Head:** If print quality degrades, gently clean the thermal print head with an alcohol swab. Ensure the printer is turned off and cooled down before cleaning.

4.2 Label Roll Storage

Store label rolls in a cool, dry place away from direct sunlight and excessive heat to preserve their adhesive properties and print quality.

5. TROUBLESHOOTING

If you encounter issues with your vretti BQ1 printer, try the following steps:

- **Printer Not Turning On:** Ensure the printer is charged. Connect it to a power source using the provided Type-C cable.
- **Cannot Connect via Bluetooth:**
 - Make sure Bluetooth is enabled on your smartphone.
 - Ensure the printer is powered on and within range.
 - Restart both the printer and your smartphone.
 - Try reconnecting through the "xeasy label" app.
- **Poor Print Quality:**
 - Check if the label roll is inserted correctly and is not damaged.
 - Clean the thermal print head as described in the Maintenance section.
 - Ensure the label type is compatible with thermal printing.
- **Labels Not Feeding Correctly:**
 - Verify the label roll is properly seated and not jammed.
 - Ensure the printer cover is fully closed.
