LAVA LAVA ME AIR

LAVA ME AIR Portable Carbon Fiber Electric-Acoustic Guitar User Manual

Model: LAVA ME AIR

Brand: LAVA

1. PRODUCT OVERVIEW

The LAVA ME AIR is a revolutionary portable carbon fiber electric-acoustic guitar, designed for musicians seeking a lightweight, durable, and versatile instrument. It integrates advanced technology to deliver exceptional sound quality and playability.

Key features include:

- **Lightweight and Portable:** Weighing only 4.3 lb, its thin profile makes it easy to transport.
- **Magnetic Pickup System:** Provides clear sound with minimal feedback.
- **Customizable Digital Knobs and Presets:** Offers extensive control over your sound.
- **Magical FreeBoost Exciter:** Enables versatile effects even when unplugged.
- **Durable Honeycomb Bionic Structure:** Ensures longevity and resilience.

2. SETUP GUIDE

2.1 Unboxing and Initial Inspection

Carefully remove the LAVA ME AIR guitar and all accessories from its packaging. Inspect the guitar for any signs of damage during transit. Ensure all components listed in the packing list are present.

2.2 Charging the Battery

Before first use, fully charge the guitar's internal Lithium Ion battery using the provided USB-C cable and a compatible power adapter. The charging indicator will show the battery status.

2.3 Tuning the Guitar

The LAVA ME AIR features an integrated tuner. Activate the tuner function and adjust the tuning pegs until each string is accurately pitched. For optimal performance, ensure strings are properly seated.

3. OPERATING THE LAVA ME AIR

3.1 Onboard Effects and Controls

The LAVA ME AIR is equipped with intuitive digital knobs that allow you to control various onboard effects without needing external pedals or amplifiers. These effects include:

- **Reverb:** Adds spaciousness to your sound.
- **Chorus:** Creates a rich, shimmering effect.
- **Delay:** Produces echoes and repeats.

Adjust the knobs to dial in your desired effect intensity and blend.

Onboard Effects and Digital Knobs
Versatile.
Customizable.

3.2 FreeBoost Magnetic Technology

The FreeBoost exciter utilizes the guitar's back as a speaker, allowing you to play with effects like reverb, chorus, and delay without plugging into an amplifier. This technology enhances the acoustic sound and provides a unique playing experience.

Electronic Capability
FreeBoost Magnetic.
Capably Magical.

4. MAINTENANCE

4.1 Cleaning

Wipe the guitar body and neck with a soft, dry, lint-free cloth after each use to remove sweat and oils. For deeper cleaning, use a slightly damp cloth and dry immediately. Avoid abrasive cleaners or solvents.

4.2 Storage

Store the LAVA ME AIR in its original case or a suitable gig bag when not in use to protect it from dust, humidity fluctuations, and physical damage. Avoid prolonged exposure to direct sunlight or extreme temperatures.

4.3 String Replacement

Replace strings regularly to maintain optimal tone and playability. Use light gauge acoustic guitar strings. Refer to the LAVA+ App or official LAVA resources for detailed string replacement instructions.

Figure 4.1: The LAVA ME AIR's durable construction is designed for active use.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your LAVA ME AIR guitar.

Problem	Possible Cause	Solution
No sound from FreeBoost effects	Battery low or effects turned off.	Charge the guitar. Ensure effect knobs are engaged and turned up.
Guitar not tuning accurately	Old strings or improper string seating.	Replace strings. Ensure strings are correctly installed and seated at the bridge and nut.
Difficulty connecting to LAVA+ App	Bluetooth not enabled or app outdated.	Ensure Bluetooth is on your device and guitar. Update LAVA+ App to the latest version.
Buzzing sound from strings	Action too low or fret issues.	Check string action. If persistent, consult a qualified guitar technician.

6. TECHNICAL SPECIFICATIONS

Feature	Specification
Model Number	LAVA ME AIR-BLACK (Note: This manual covers the LAVA ME AIR series)
Item Weight	7.7 pounds (approx. 3.5 kg)
Product Dimensions	36.22 x 12.99 x 3.54 inches (approx. 92 x 33 x 9 cm)
Body Material	Carbon Fiber
Neck Material Type	Carbon Fiber
Fretboard Material	HPL
Number of Strings	6
Guitar Pickup Configuration	Magnetic-combination
Battery Type	Lithium Ion (included)
Color	SILVER (as per current product variant)
