2. Setup and Assembly

This Murphy bed unit requires assembly. Detailed step-by-step instructions, including diagrams and hardware lists, are provided in a separate assembly manual included with your purchase. Please refer to that document for specific assembly procedures.

General Assembly Guidelines:

1. **Unpack all components:** Carefully remove all parts from the packaging and verify against the parts list in the assembly manual.
2. **Prepare the area:** Ensure you have sufficient clear space for assembly. A clean, flat surface is recommended.
3. **Two-person assembly:** Due to the size and weight of the components, assembly by two adults is strongly recommended for safety and ease.
4. **Wall mounting:** The Murphy bed unit **must be securely anchored to a wall** to prevent tipping. Use appropriate wall anchors for your wall type (e.g., wood studs, concrete, drywall). Consult a professional if unsure.

5. **Follow sequence:** Adhere strictly to the assembly sequence outlined in the manual to ensure structural integrity.
