SETUP

1. Unpacking and Placement

Carefully remove the TV and all accessories from the packaging. Ensure all components listed in the "What's in the Box" section are present. Place the TV on a stable, flat surface or mount it securely to a wall using a compatible VESA mount (not included). Allow adequate ventilation around the TV.

- **What's in the Box:** TV unit.

2. Connecting Peripherals

The Metz MTE2000Z TV offers multiple connectivity options for your external devices.

Design senza cornici

La struttura in metallo senza cornici è semplice, elegante e pratica.

Copertura posteriore High-density

Presenta un piano posteriore ad alta densità con uno spessore di 0,5 mm, quindi più robusto e durevole.

- **HDMI Ports:** Connect Blu-ray players, gaming consoles, or set-top boxes using HDMI cables for high-definition audio and video. This model features HDMI 1.4 x2.
- **USB Ports:** Insert USB drives to play multimedia content such as photos, music, or videos. This model features USB 2.0 x1.
- **Antenna/Cable Input (RF):** Connect your terrestrial (DVB-T/T2), cable (DVB-C), or satellite (DVB-S/S2) antenna for broadcast television.
- **AV Input:** For older devices, use the AV input.
- **CI+ Slot:** Insert a CI+ module with a smart card for encrypted digital television services.

3. Power Connection and Initial Setup

Once all desired devices are connected, plug the TV's power cord into a suitable electrical outlet. Press the power button on the TV or remote control to turn it on. The TV will guide you through the initial setup process, including language selection, channel scanning, and network configuration (if applicable for future smart features, though this model is not explicitly smart TV, it mentions Wi-Fi connectivity in specifications).

OPERATING INSTRUCTIONS

1. Basic Functions

- **Power On/Off:** Use the power button on the remote or TV.
- **Channel Selection:** Use the CH+/- buttons or number pad on the remote.
- **Volume Control:** Use the VOL+/- buttons on the remote.
- **Input Source:** Press the "Source" or "Input" button on the remote to switch between connected devices (HDMI, USB, TV, AV).

2. Picture Settings

Your Metz MTE2000Z TV features advanced image processing to optimize color accuracy and clarity. Access the picture settings menu to adjust brightness, contrast, color, and sharpness to your preference.

Schermo senza bordi

PROGETTATO PER BRILLARE

Con un rapporto schermo-cornice del 96,6%, la tecnologia a schermo intero offre un'esperienza visiva più coinvolgente.

MAINTENANCE

1. Cleaning the TV

To clean the screen, gently wipe it with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water or a specialized screen cleaner. Do not spray liquid directly onto the screen. Clean the TV casing with a soft, dry cloth.

2. Software Updates

Periodically check for software updates to ensure optimal performance and access to the latest features. Refer to the TV's settings menu for update options. The manufacturer provides a minimum of 8 years of software and firmware updates.

TROUBLESHOOTING

If you encounter issues with your Metz MTE2000Z TV, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
No Power	Ensure the power cord is securely plugged into the TV and the electrical outlet. Check the power outlet with another device.
No Picture / Poor Picture Quality	Verify the correct input source is selected. Check cable connections (HDMI, antenna). Adjust picture settings (brightness, contrast). Ensure the antenna is properly connected and positioned for optimal signal reception. Some users have reported issues with channel tuning; ensure a strong signal and try rescanning channels.
No Sound / Poor Sound Quality	Check the volume level and mute status. Ensure external audio devices are properly connected. Adjust sound settings in the TV menu. Some users have noted the audio quality might be squillante (shrill) or mediocre; consider adjusting equalizer settings or connecting external speakers for improved audio.
Remote Control Not Working	Replace the batteries in the remote control. Ensure there are no obstructions between the remote and the TV's IR sensor.
