

HIMIMI Fprasol-OD01

HIMIMI 220cm Tilt-Adjustable Outdoor Umbrella User Manual

Model: Fprasol-OD01

INTRODUCTION

Thank you for choosing the HIMIMI 220cm Tilt-Adjustable Outdoor Umbrella. This manual provides essential information for the safe and effective use, assembly, and maintenance of your umbrella. Please read these instructions carefully before use and retain them for future reference.

PRODUCT FEATURES

- **Tilt Function:** Enjoy flexible shade with a 360° rotary tilt mechanism, allowing you to adjust the canopy angle to block the sun throughout the day. This feature is ideal for continuous sun protection in various outdoor settings.
- **Advanced UV Protection & Material:** The canopy is constructed from 210T ultra-high-density oxford fabric, featuring an aluminum coating and Teflon treatment. This combination provides excellent UV protection and water repellency, keeping you cool and dry.
- **Enhanced Ventilation:** Equipped with a ventilation system on the top cover, this umbrella allows air to circulate, reducing heat buildup underneath and enhancing stability in windy conditions. This design helps prevent the umbrella from being overturned by strong gusts.
- **Durable & Portable Design:** The umbrella ribs are made from high-strength carbon fiber, offering durability and resilience. The joint pole is crafted from lightweight aluminum. For convenient storage and transport, the umbrella separates into two parts (canopy and pole) and fits into the included storage bag.
- **Generous Size:** With a diameter of approximately 220cm, this large umbrella provides extensive shade, making it suitable for various outdoor activities, including beach outings, garden relaxation, or fishing.

PACKAGE CONTENTS

Please check that all components are present and in good condition:

- HIMIMI Outdoor Umbrella Canopy (Orange, 220cm diameter)

- Umbrella Pole (Aluminum)
- Storage Bag

SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove the umbrella canopy, pole, and storage bag from the packaging.
2. **Assemble the Pole:** Connect the two sections of the aluminum pole by twisting them together until securely fastened.
3. **Attach Canopy to Pole:** Insert the assembled pole into the central hub of the umbrella canopy. Ensure it clicks or locks into place securely.
4. **Secure the Base:** Insert the umbrella pole firmly into a suitable umbrella base (not included) or directly into soft ground like sand. For stability, especially in windy conditions, ensure the pole is deeply anchored.
5. **Open the Umbrella:** Use the manual lift mechanism to push the canopy upwards until it fully extends and locks into the open position.

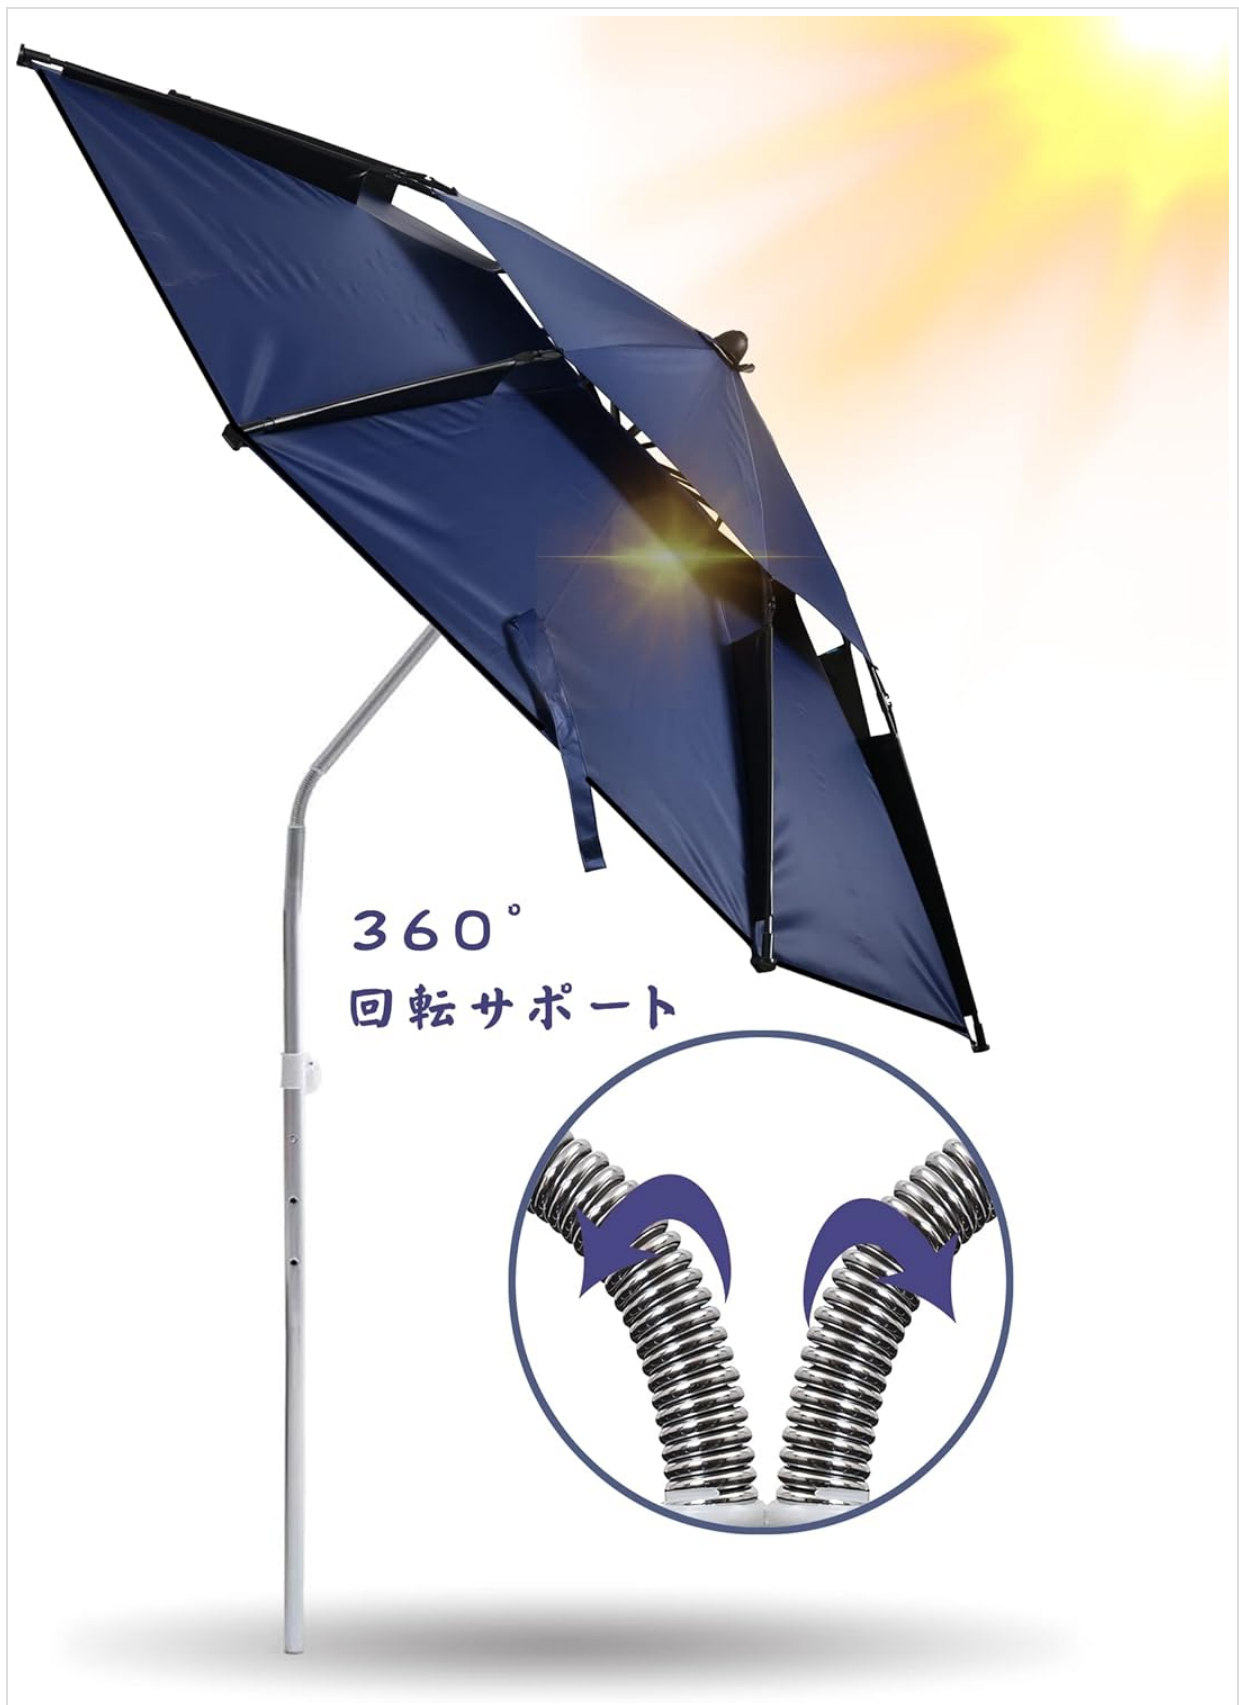

Image: The umbrella features a 360-degree rotation support for angle adjustment.

OPERATING INSTRUCTIONS

Opening and Closing the Umbrella

1. **To Open:** Push the manual lift mechanism upwards along the pole until the canopy fully expands and locks into place.
2. **To Close:** Locate the release button or lever on the manual lift mechanism. Press or pull it while gently

guiding the canopy downwards until it is fully closed. Secure any ties or straps to keep the canopy compact.

Adjusting the Tilt Angle

The umbrella features a rotary tilt mechanism for optimal sun protection:

1. Locate the tilt adjustment joint on the pole, typically above the main pole section.
2. Press the button or release the lever at the joint.
3. Adjust the canopy to your desired angle.
4. Release the button/lever to lock the canopy in the new tilted position.

Video: Demonstrates the process of opening the umbrella and adjusting its tilt angle. This video shows a similar umbrella model and its operational features.

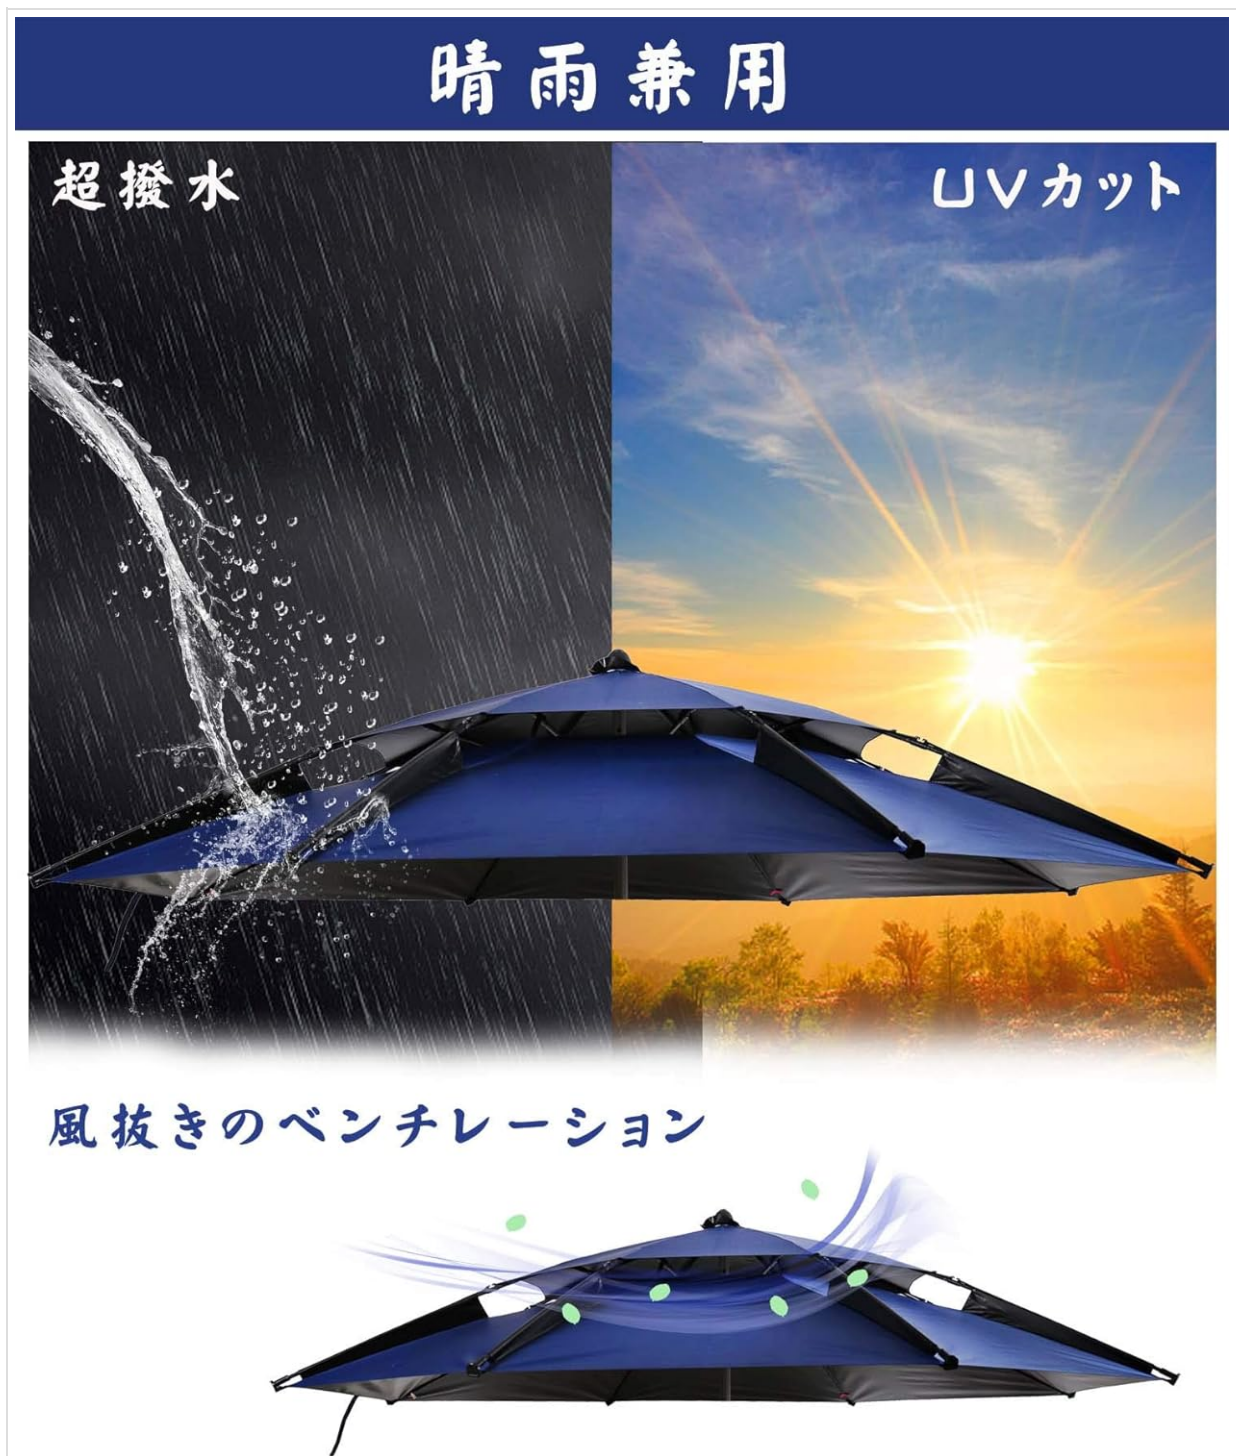

Image: The umbrella canopy provides both waterproofing and UV protection, with a top ventilation system for wind resistance.

MAINTENANCE

- **Cleaning:** To clean the canopy, wipe it with a damp cloth and mild soap. Rinse thoroughly and allow it to air dry completely before folding and storing. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, especially during strong winds or adverse weather, close the umbrella and store it in its provided storage bag. Store in a cool, dry place to prevent mold and prolong its lifespan.
- **Inspection:** Periodically check all parts, including the pole, ribs, and canopy fabric, for any signs of wear or damage. Address any issues promptly to ensure safe operation.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Umbrella does not open or close smoothly.	Mechanism is stiff or obstructed.	Check for any debris or obstructions in the mechanism. Apply a silicone-based lubricant if necessary.
Umbrella does not stay tilted.	Tilt mechanism not securely locked or worn.	Ensure the tilt locking mechanism is fully engaged. If worn, contact customer support.
Umbrella is unstable in light wind.	Improperly secured base or pole.	Ensure the umbrella pole is firmly inserted into a stable base or deeply anchored in the ground. Consider using additional weights for the base.
Water leaks through the canopy.	Canopy damage or worn water-repellent coating.	Inspect the canopy for tears. Reapply a fabric waterproofing spray if the coating is worn.

SPECIFICATIONS

Feature	Detail
Model Number	Fprasol-OD01
Brand	HIMIMI
Canopy Diameter	220 cm
Item Dimensions (W x H)	2.05 m x 1.95 m
