### SalaGraphics 03262024-2

# Slow Down Lights On For Safety Sign 12x18 User Manual

Model: 03262024-2 | Brand: SalaGraphics

## 1. PRODUCT OVERVIEW

---

The SalaGraphics 'Slow Down Lights On For Safety Sign 12x18' is a durable, high-visibility sign designed to promote safety by reminding individuals to reduce speed and use vehicle lights. Constructed from industrial-grade materials, this sign is engineered for longevity and resilience in various environments.

It features professional-grade vinyl graphics and UV-resistant inks, ensuring the message remains clear and vibrant even when exposed to harsh outdoor weather conditions or demanding indoor industrial settings. The sign comes with pre-drilled mounting holes and rounded corners for easy and safe installation.

**SLOW  
DOWN**

**LIGHTS  
ON FOR  
SAFETY**

text on a highly visible yellow background, with the phrases 'SLOW DOWN' at the top and 'LIGHTS ON FOR SAFETY' below, separated by a black bar. The sign has rounded corners and appears durable.

## 2. KEY FEATURES

---

- **Durable Construction:** Made with the strongest industrial-grade materials to withstand harsh elements.
- **UV-Resistant Graphics:** Digitally printed with professional-grade vinyl graphics and UV-resistant inks to prevent fading.
- **Versatile Use:** Suitable for both indoor and outdoor environments. Will not rust.
- **Easy Installation:** Features pre-drilled mounting holes for quick and secure attachment.
- **Safety Design:** Rounded corners enhance safety during handling and installation.
- **High Visibility:** Bold black text on a bright yellow background ensures maximum readability.

## 3. SETUP AND INSTALLATION

---

The 'Slow Down Lights On For Safety Sign' is designed for straightforward installation. Follow these steps for optimal placement and security:

1. **Choose Location:** Select a prominent location where the sign will be clearly visible to its intended audience. Consider factors such as lighting, obstructions, and traffic flow.
2. **Gather Tools:** You will need appropriate mounting hardware (e.g., screws, bolts, zip ties) suitable for your chosen surface, a drill (if pre-drilled holes do not align with existing mounts), and a screwdriver or wrench.
3. **Position Sign:** Hold the sign in the desired position and mark the locations for the mounting holes.
4. **Drill (if necessary):** If mounting to a new surface or if existing holes do not match, carefully drill pilot holes at the marked locations. Ensure the drill bit size is appropriate for your mounting hardware.
5. **Secure Sign:** Attach the sign using your chosen mounting hardware, ensuring it is level and securely fastened to prevent movement or detachment. Do not overtighten, which could damage the sign material.

For outdoor installations, ensure the mounting surface can withstand wind and other environmental factors. For temporary installations, consider using heavy-duty zip ties or adhesive strips designed for outdoor use.

## 4. USAGE GUIDELINES

---

This safety sign serves as a visual reminder to promote responsible behavior in designated areas. Its effectiveness relies on proper placement and visibility.

- **Visibility:** Ensure the sign is not obstructed by foliage, vehicles, or other objects. It should be easily readable from a distance.
- **Lighting:** While the sign is highly visible, consider ambient lighting conditions. For areas with poor natural light, supplementary lighting may enhance its effectiveness, especially at night.
- **Purpose:** The sign is intended to encourage drivers and individuals to reduce their speed and turn on their vehicle lights for increased safety, particularly in residential areas, parking lots, or private roads.

## 5. MAINTENANCE

---

To ensure the longevity and continued effectiveness of your SalaGraphics safety sign, follow these simple maintenance guidelines:

- **Cleaning:** Periodically clean the sign surface with a soft cloth and mild soap and water. Avoid abrasive

cleaners or harsh chemicals, which can damage the vinyl graphics or UV-resistant coating. Rinse thoroughly with clean water.

- **Inspection:** Regularly inspect the sign for any signs of damage, such as cracks, deep scratches, or loose mounting hardware. Address any issues promptly to prevent further deterioration.
- **Environmental Factors:** While designed for harsh environments, extreme conditions (e.g., prolonged exposure to corrosive substances) may accelerate wear. Position the sign to minimize such exposure where possible.

## 6. TROUBLESHOOTING

---

Most issues with the safety sign are related to environmental factors or installation. Here are some common concerns and their solutions:

- **Fading Graphics:**

*Issue:* Sign graphics appear dull or faded over time.

*Solution:* While the sign uses UV-resistant inks, prolonged extreme sun exposure can eventually cause some fading. Ensure the sign is cleaned regularly to remove dirt buildup that can obscure visibility. If fading is significant, consider replacing the sign for optimal safety messaging.

- **Sign is Loose or Detached:**

*Issue:* The sign is wobbly or has fallen from its mounting.

*Solution:* Check the mounting hardware. Ensure screws or bolts are tightened securely. If the mounting surface is damaged, repair it or choose a new mounting location. Use appropriate hardware for the weight of the sign and the type of surface.

- **Reduced Visibility:**

*Issue:* The sign is not easily seen by its intended audience.

*Solution:* Verify that the sign is not obstructed by overgrown vegetation, parked vehicles, or other objects. Clean the sign surface. Re-evaluate the sign's placement to ensure it is at an optimal height and angle for visibility.

## 7. SPECIFICATIONS

---

Attribute	Detail
Brand	SalaGraphics
Model Number	03262024-2
Product Dimensions	18 x 12 x 0.4 inches (Length x Width x Thickness)
Color	Multi Colored (Black text on Yellow background)
Material	Industrial Grade Materials with Vinyl Graphics
Ink Type	UV Resistant Inks
Features	Pre-drilled Mounting Holes, Rounded Corners, Will Not Rust
Usage Environment	Indoor & Outdoor
Manufacturer	Sala Graphics Inc
Date First Available	May 14, 2024
