4. Maintenance

4.1 Battery Replacement

Replace batteries when the remote control's response becomes sluggish or the display dims. Always replace both batteries simultaneously with new AAA batteries. Do not mix old and new batteries, or different types of batteries.

4.2 Cleaning the Remote Control

To clean the remote control, wipe it gently with a soft, dry cloth. Do not use liquid cleaners, abrasive materials, or chemical solvents, as these can damage the remote's surface or internal components.

5. Troubleshooting

- **Remote not responding:**

  - Check if the batteries are correctly installed with the correct polarity.
  - Replace old batteries with new AAA batteries.
  - Ensure there are no obstructions between the remote and the AC unit's receiver.
  - Confirm the remote is pointed directly at the AC unit.

- **AC unit not receiving signal:**

  - Verify that the AC unit is powered on.
  - Check if the remote control's infrared emitter is clean and unobstructed.
  - Test the remote from a closer distance to the AC unit.
