## MAINTENANCE

The table is made from 15mm thick particle board (E1 class) with a melamine coating, providing a durable and easy-to-clean surface.

- **Cleaning:** Wipe the surface with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the melamine finish.
- **Spills:** Clean up spills immediately to prevent moisture absorption and potential damage to the particle board.
- **Sunlight:** Avoid prolonged exposure to direct sunlight to prevent fading or discoloration.
- **Heat:** Do not place hot items directly on the surface. Use coasters or protective pads.

## TROUBLESHOOTING

- **Wobbly Table:** Check all screws and connections to ensure they are tightened properly. Ensure the table is on a level surface. Adjust anti-slip pads if necessary.
- **Drawer Not Sliding Smoothly:** Verify that the drawer slides are correctly installed and free of obstructions. Ensure the drawer is assembled squarely.

- **Scratches on Surface:** Minor scratches can sometimes be minimized with furniture repair pens or waxes matching the color. For deeper scratches, contact customer support for advice.
