LIORQUE K2

LIORQUE Sunrise Alarm Clock User Manual

Model: K2

1. PRODUCT OVERVIEW

The LIORQUE Sunrise Alarm Clock is designed to enhance your daily wake-up and sleep routines through light and sound. It combines a sunrise simulation for gentle awakening, a sunset simulation for peaceful sleep, various lighting modes, natural sounds, FM radio, and Bluetooth connectivity.

2. PACKAGE CONTENTS

Please check the package for the following items:

- 1 x LIORQUE Sunrise Alarm Clock (Model: K2)
- 1 x Power Adapter
- 1 x Power Cord (USB cable)
- 1 x User Manual (this document)

LIORQUE Wake Up Light Alarm Clock

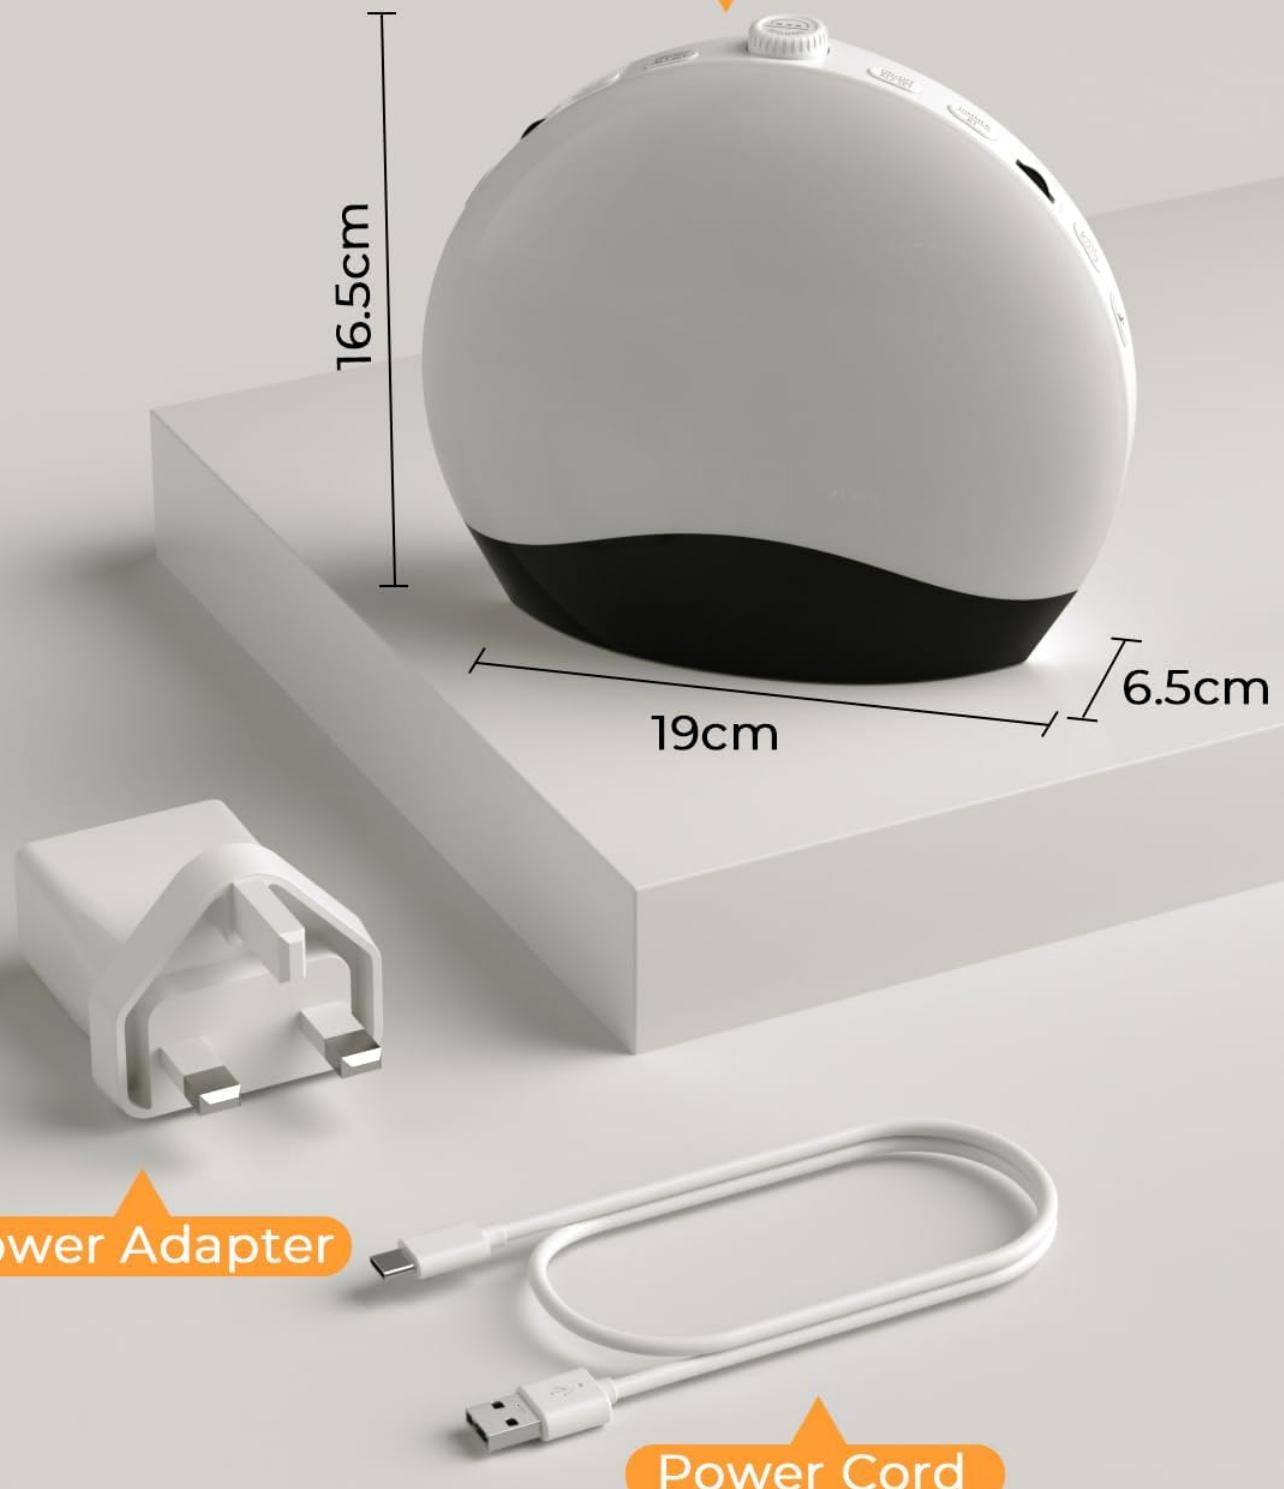

Figure 2.1: Included components: the alarm clock, power adapter, and power cord.

3. SETUP GUIDE

3.1 Initial Power On

1. Connect the power cord to the USB port on the back of the alarm clock.
2. Plug the power adapter into a standard electrical outlet.
3. The clock display will illuminate, indicating it is powered on.

3.2 Setting Time and Date

Upon first power-on or after a power interruption, you may need to set the current time and date. Refer to the physical buttons on the device for time setting controls, typically labeled with clock or settings icons. Some models support automatic time syncing via Bluetooth connection to a mobile phone.

3.3 Adjusting Display Brightness

The brightness of the time display can be adjusted to suit your preference, especially for night-time use. This feature ensures the display does not disturb your sleep.

Figure 3.1: The display brightness can be adjusted from Level 1 to Level 20.

4. OPERATING INSTRUCTIONS

4.1 Sunrise and Sunset Simulation

The clock features a sunrise simulation to gently wake you up and a sunset simulation to help you fall asleep.

- **Sunrise Simulation:** Set an alarm time, and the light will gradually increase from 0% to 100% brightness over a set duration (e.g., 10-60 minutes before the alarm).
- **Sunset Simulation:** When activating fall asleep mode, the light will gradually dim from full brightness to 0% over a maximum duration of 480 minutes.

The sunrise simulation and natural sounds alarm wakes you up gently

Figure 4.1: The sunrise simulation gently wakes you up with natural light.

Fall Asleep Mode

In fall asleep mode, the light and music will gradually diminish over time until they shut off at the end of the fall asleep duration.

Figure 4.2: In fall asleep mode, the light and music gradually diminish over time.

Figure 4.3: The clock gradually brightens its light like the dawning day, easing you awake.

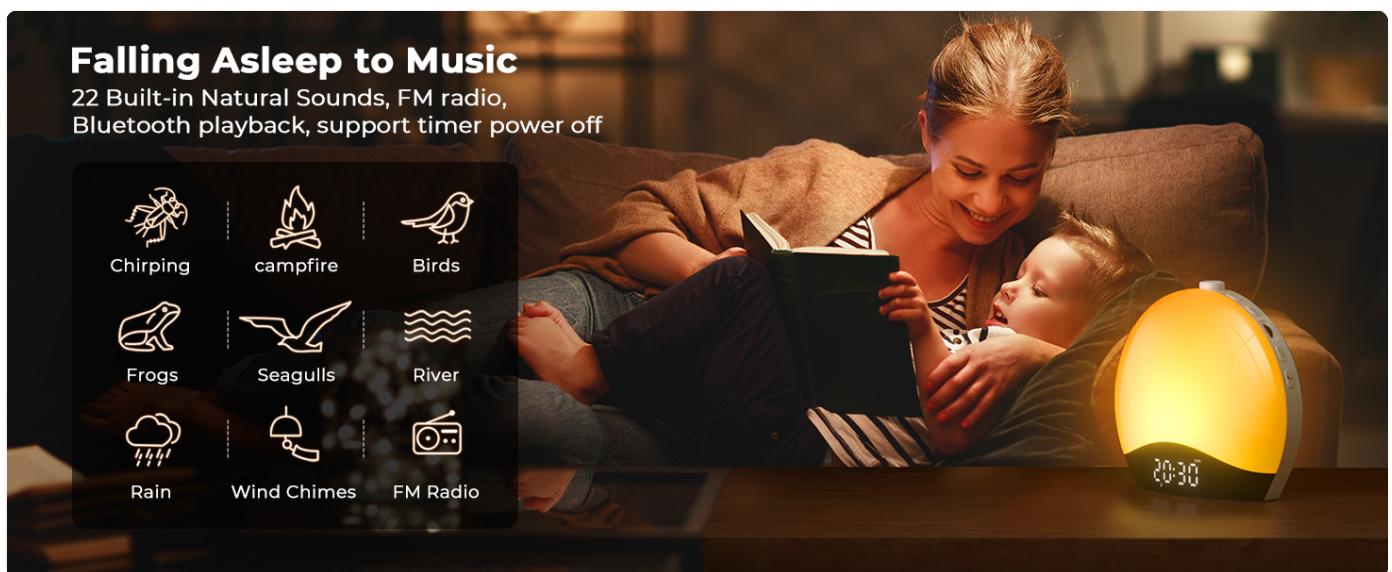

Figure 4.4: Falling asleep to music with 22 built-in natural sounds, FM radio, or Bluetooth playback.

4.2 Lighting Modes

The alarm clock offers a variety of lighting options:

- **8 Colorful Lights:** Pink, Green, Blue, Indigo, Purple, Grey, Red, and Orange.
- **9 Dynamic RGB Atmosphere Lights:** These modes provide a changing color experience.
- **20 Levels of Brightness:** Adjust the intensity of the light to suit your environment and mood.

9 Dynamic Lighting Modes

20-Level Brightness Adjustment

Awaken your senses gently and naturally with soothing alarm

Figure 4.6: Overview of features including dynamic color lighting and brightness adjustment.

4.3 Bluetooth (BT) Connection

The integrated Bluetooth function allows for seamless connectivity:

- **Automatic Time Syncing:** Connect to your phone to automatically synchronize the clock's time.
- **Music Playback:** Enjoy high-quality music by streaming audio from your Bluetooth-enabled device.

BT Mode

Connect to your phone for automatic time syncing, and play music via Bluetooth

Figure 4.7: Connect to your phone for automatic time syncing and to play music via Bluetooth.

Figure 4.8: Supports automatic time synchronization via Bluetooth connection to a mobile phone.

4.4 FM Radio

Tune into your favorite radio stations with the built-in FM radio:

- **Frequency Range:** Supports 76-108MHz.
- **Automatic Station Memory:** The clock can automatically scan and store radio stations.

Radio Mode

Frequency range 76-108MHz
Automatic digital station scanning with
preset storage

Figure 4.9: Enjoy your favorite radio station with the built-in FM radio.

4.5 White Noise Function

The alarm clock includes a white noise function to aid sleep:

- Fall asleep with relaxing white noise sounds.

- The light and music will gradually dim over time, ensuring a peaceful sleep environment.

4.6 Dual Alarms & Weekend Mode

Configure your alarms for different schedules:

- **Dual Alarms:** Set two independent alarms for different wake-up times.
- **Weekend Mode:** Activate a specific mode to prevent alarms from disturbing your rest on weekends.

Snooze & Dual Alarm

You can snooze the alarm by pressing the Snooze button for an additional 9 minutes nap. Moreover, it also allows you to set 2 separate alarms.

Figure 4.10: You can snooze the alarm or set two separate alarms.

Weekend Mode

You can set the alarm to work only on weekdays or only on weekends.

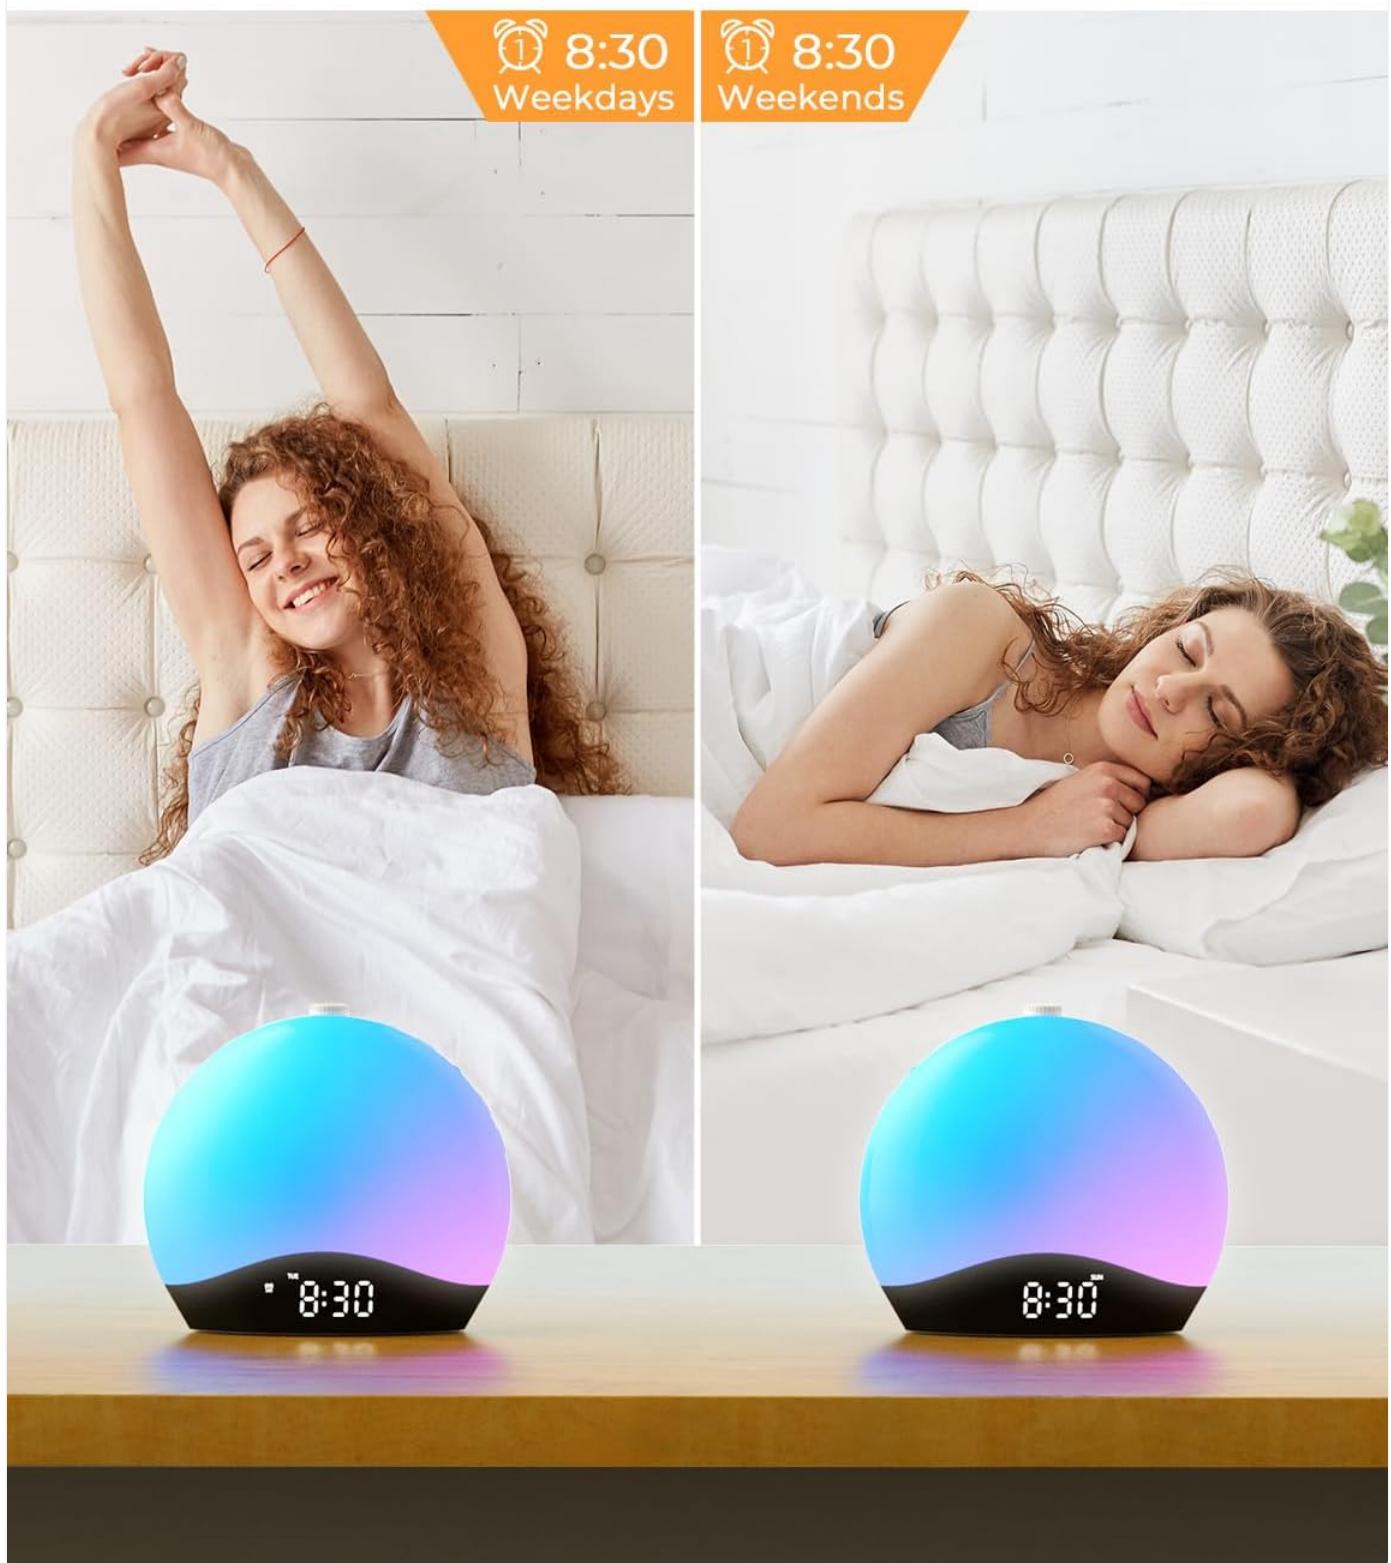

Figure 4.11: You can set the alarm to work only on weekdays or only on weekends.

Figure 4.12: Both alarms can be set with independent weekend modes.

Figure 4.13: Supports setting 2 independent alarms.

4.7 Snooze Function

When an alarm sounds, press the Snooze button to temporarily silence the alarm for an additional 9 minutes of sleep.

5. MAINTENANCE

To ensure the longevity and optimal performance of your LIORQUE Sunrise Alarm Clock, please follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the clock. Do not use abrasive cleaners, solvents, or strong chemicals, as these may damage the finish.
- **Placement:** Place the clock on a stable, flat surface away from direct sunlight, excessive heat, or moisture.
- **Power:** Always use the provided power adapter and cord. Do not attempt to use unapproved power sources.
- **Storage:** If storing the device for an extended period, unplug it from the power source and store it in a cool, dry place.

6. TROUBLESHOOTING

If you encounter issues with your LIORQUE Sunrise Alarm Clock, please refer to the following common solutions:

- **Clock not powering on:** Ensure the power adapter is securely connected to both the clock and the electrical outlet. Try a different outlet to rule out power supply issues.
- **Alarm not sounding/light not activating:** Check that the alarm is enabled and set correctly. Verify the volume level for the alarm sound and the brightness level for the light simulation. Ensure weekend mode is not active if you intend for the alarm to sound on a weekend.
- **FM Radio reception poor:** Extend the antenna fully. Reposition the clock to improve signal reception.
- **Bluetooth connection issues:** Ensure Bluetooth is enabled on your mobile device and the clock is in pairing mode. Try unpairing and re-pairing the devices.
- **Sound quality/volume too loud:** Adjust the volume settings on the device. If the lowest volume is still too loud, consider placing the clock further away or using a soft barrier to dampen the sound.
- **Difficulty with initial setup:** Carefully re-read the relevant sections of this manual, paying close attention to button functions and sequence. Practice setting functions when not under pressure.

If the problem persists after attempting these solutions, please contact LIORQUE customer support for further assistance.

7. SPECIFICATIONS

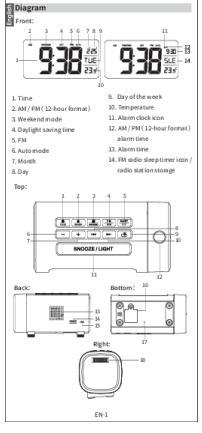

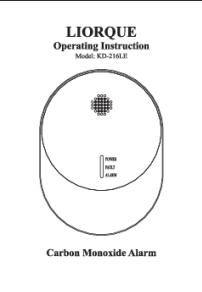

Feature	Specification
Brand	LIORQUE
Model Number	K2
Product Dimensions	19 x 17.5 x 9 cm
Item Weight	440 g
Material	Acrylonitrile Butadiene Styrene
Colour	Black
Voltage	2.3E+2 Volts
Luminous Flux	50 Lumen
Type of Bulb	LED
Batteries	1 CR5 batteries required (included)
Special Features	Colour Changing, Sleep Aid, Sunlight Therapy
Power Source	Corded Electric

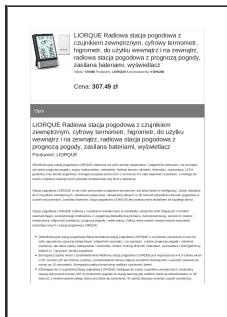

8. WARRANTY AND SUPPORT

LIORQUE products are manufactured with quality and reliability in mind. For any warranty claims, technical support, or inquiries regarding your LIORQUE Sunrise Alarm Clock, please contact the manufacturer directly through their official channels or the retailer from whom you purchased the product.

Please retain your proof of purchase for warranty purposes.
