Benkut BENKUT-D236-MODERN-BLACK

Benkut Modern LED Chandelier User Manual

Model: BENKUT-D236-MODERN-BLACK

Introduction

Welcome to your new Benkut Modern LED Chandelier. This manual provides essential information for the safe installation, operation, and maintenance of your lighting fixture. Please read these instructions carefully before beginning installation and retain them for future reference.

Safety Information

- Always turn off power at the circuit breaker before installation, cleaning, or maintenance. Failure to do so may result in electric shock or serious injury.
- Installation should be performed by a qualified electrician if you are unsure about electrical wiring.
- Do not connect this fixture to an external dimmer switch. This product is designed for remote control dimming only. Connecting to an incompatible dimmer may damage the fixture.
- Ensure all electrical connections are secure and comply with local electrical codes and ordinances.
- Keep packaging materials, especially small parts, away from children to prevent choking hazards.
- Do not modify the fixture or its components. Any modifications may void the warranty and create safety risks.

Package Contents

Please verify that all components are present and undamaged before proceeding with installation.

- LED Chandelier Fixture (3 Rings)
- Remote Control
- Mounting Hardware (Canopy, Mounting Bracket, Screws, Wire Nuts)

Product Specifications

Property	Value
Brand	Benkut

Property	Value
Model Number	BENKUT-D236-MODERN-BLACK
Color	Wood Grain Black
Material	Aluminum, Metal, Silicone
Light Source Type	LED
Wattage	55 watts
Voltage	110 Volts
Color Temperature	3000K-6500K (Warm, Neutral, Cold Light)
Brightness	3500 Lumens
Control Method	Remote Control
Installation Type	Semi Flush Mount
Product Dimensions	24"L x 60"W x 24"H
Ring Diameters	15.7", 20", 23.6"
Adjustable Height	Up to 59 inches
Assembly Required	Yes

Installation Guide

Follow these steps for proper installation. It is recommended to have assistance during installation.

1. **Prepare for Installation:** Turn off power at the main circuit breaker. Ensure you have all necessary tools such as a screwdriver, wire strippers, and a ladder.
2. **Mount the Canopy:** Secure the mounting bracket to the ceiling junction box. Connect the chandelier's wires to the household wiring according to local electrical codes (typically black to black, white to white, and ground to ground).
3. **Adjust Height:** The chandelier features adjustable suspension wires. Press the small button on the canopy where each wire enters to adjust its length, allowing you to customize the hanging height up to 59 inches. Ensure the chandelier is level after adjustment.

This image shows the top of the chandelier where the wires connect to the ceiling canopy. It illustrates how to press a button to adjust the length of the suspension wires for height customization.

4. **Secure the Chandelier:** Once the desired height is set and wiring is complete, carefully secure the canopy to the mounting bracket on the ceiling.
5. **Initial Cable Straightening:** The load-bearing wires may appear slightly bent or uneven during initial suspension. This is normal, and the cables will straighten over time due to gravity.

This chandelier is suitable for installation on both sloped and flat ceilings.

Operating Instructions

Your Benkut LED Chandelier is controlled via the included remote control, offering versatile lighting options.

Remote Control Functions

- **Power On/Off:** Use the dedicated ON/OFF buttons on the remote to turn the chandelier on or off.
- **Color Temperature Adjustment:** Cycle through three color temperatures: 3000K (Warm Light), 4500K (Neutral Light), and 6500K (Cool Light) using the designated color temperature buttons.
- **Brightness Dimming:** Adjust the brightness level from 10% to 100% using the dimming buttons on the remote control.

This image displays the chandelier illuminated with three different color temperatures: cool light, neutral light, and warm light, demonstrating the adjustable color feature.

This image illustrates the dimming capabilities of the chandelier, showing light levels from 10% to 100%. It also clarifies that the chandelier is compatible with its remote control and regular on/off switches, but not with external dimmable switches.

Important Note: This chandelier is NOT compatible with external dimmable wall switches. It only accepts a regular on/off switch for power, with dimming and color temperature controlled exclusively by the provided remote control.

This video demonstrates the Benkut Modern LED Chandelier, showcasing its design and the functionality of its 3-color dimming and remote control features.

Maintenance

- **Cleaning:** Disconnect power before cleaning. Use a soft, dry cloth to wipe the fixture. Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish or electrical components.
- **Bulb Replacement:** The LED light source is integrated into the fixture and is non-removable. Do not attempt to

replace individual LEDs. The fixture is designed for long-lasting performance.

Troubleshooting

- **Light does not turn on:**
  - Check if the power is connected correctly at the circuit breaker.
  - Ensure the remote control batteries are functional and correctly inserted.
  - Verify all wire connections are secure.
- **Light flickers or dims unexpectedly:**
  - Ensure you are using the provided remote control for dimming, not an external wall dimmer.
  - Check for any loose electrical connections.
- **Cables appear bent or uneven:**
  - This is normal during initial suspension. The cables will straighten over time due to gravity.
- **Remote control not working:**
  - Check and replace the batteries in the remote control.
  - Ensure there are no obstructions between the remote control and the chandelier.

Warranty and Support

For warranty information or technical support, please contact Benkut customer service through the retailer where the product was purchased. Keep your purchase receipt as proof of purchase for any warranty claims.
