DOGNESS Automatic 11L Pet Feeder

DOGNESS Automatic 11L Pet Feeder with HD Camera - User Manual

Model: Automatic 11L Pet Feeder

1. Introduction

Thank you for choosing the DOGNESS Automatic 11L Pet Feeder. This advanced pet feeding system is designed to provide convenience and peace of mind, ensuring your pet is fed on schedule with precise portions. Featuring an integrated HD camera with night vision, app control, and dual power options, this feeder allows you to monitor and manage your pet's meals from anywhere.

2. Product Features

- **Ultra Wide Angle 1080 HD Camera with Night Vision:** Monitor your pet in real-time, day or night, with a wide-angle view.
- **App Control & Customized Feeding Schedule:** Set personalized meal times and portion sizes via the mobile app for consistent feeding.
- **Easy to Use & 2.4G WiFi Connection:** Simple setup with two connection modes (QR code scan or Bluetooth pairing) and reliable 2.4G WiFi support.
- **11L Capacity & Detachable Food Tank:** Large capacity food storage with an easily removable tank for cleaning and maintenance. Sealed design keeps food fresh.
- **Dual Power Supply:** Operates with a 5V USB adapter and includes a 5000 mAh battery backup system to ensure feeding even during power outages (battery not included).
- **Two-Way Audio:** Interact with your pet remotely through the built-in microphone and speaker.

3. Package Contents

Please check the package contents to ensure all items are present:

- DOGNESS Automatic 11L Pet Feeder Unit
- Detachable Food Tank
- Food Bowl(s)

- Power Adapter
- USB Cable
- Desiccant Pack
- User Manual (this document)

4. Setup Guide

4.1 Unpacking and Assembly

1. Carefully remove all components from the packaging.
2. Attach the food bowl(s) to the feeder base. Ensure they are securely in place.
3. Insert the desiccant pack into its designated compartment, usually located under the lid, to maintain food freshness.
4. Place the detachable food tank onto the feeder base, ensuring it locks securely.

Figure 1: The DOGNESS Automatic 11L Pet Feeder, shown with a smartphone displaying its live camera feed, highlights its remote monitoring capabilities.

4.2 Power Supply

1. Connect the USB cable to the feeder and plug the power adapter into a standard wall outlet.
2. For battery backup, install three D-size batteries (not included) into the battery compartment at the bottom of the feeder. This ensures continuous operation during power outages.

Figure 2: This image illustrates the dual power supply options for the feeder: standard plug-in power and a battery backup system for uninterrupted operation during power outages.

4.3 App Installation and Pairing

1. Download the 'DOGNESS' app from your smartphone's app store (iOS or Android).
2. Create an account and log in.
3. Follow the in-app instructions to add your new feeder. You may need to scan a QR code on the device or use Bluetooth pairing.
4. Ensure your phone is connected to a 2.4G WiFi network during the pairing process. Place the feeder close to your WiFi router for a strong signal.

5. Operating Instructions

5.1 Setting Feeding Schedules

1. Open the DOGNESS app and select your feeder.

2. Navigate to the 'Feeding Schedule' section.
3. Set desired meal times and customize portion sizes according to your pet's needs.
4. Save your schedule. The feeder will automatically dispense food at the programmed times.

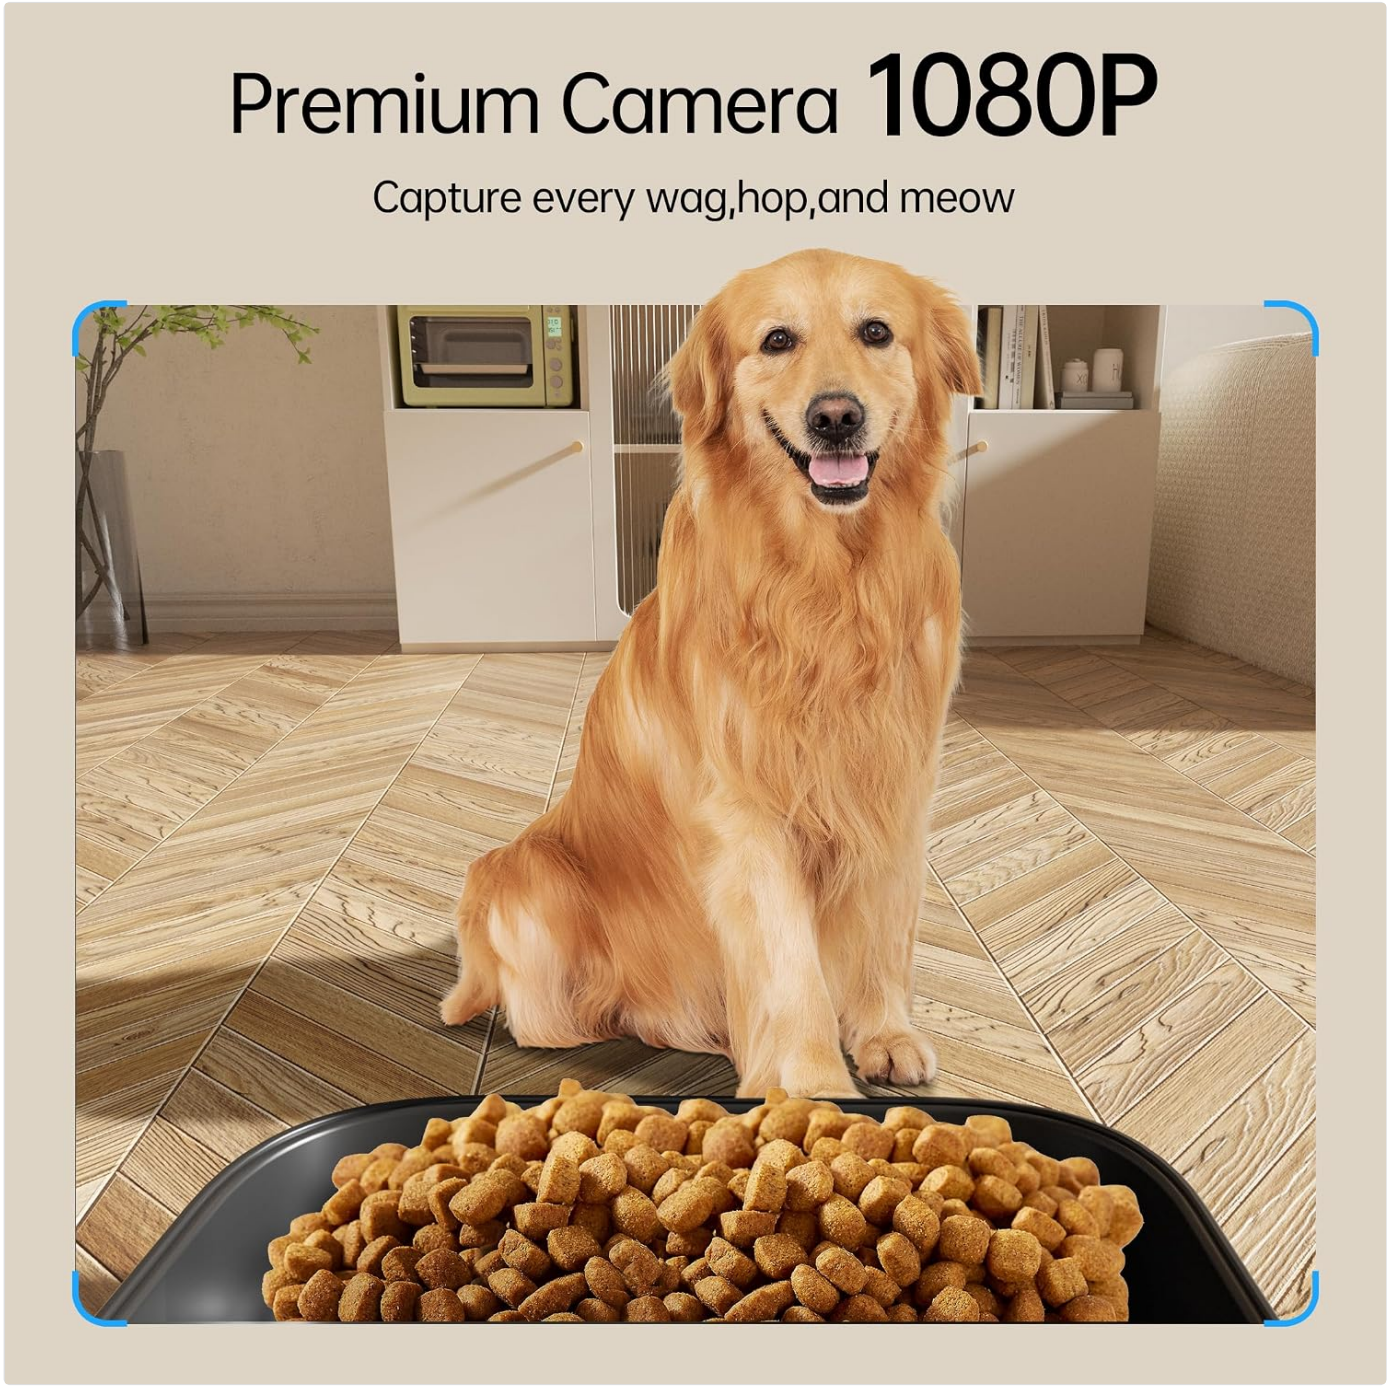

Figure 3: Manage your pet's meal times and portion sizes remotely using the intuitive mobile application, as shown in this image of the feeding schedule interface.

5.2 Manual Feeding

To dispense food manually, either press the manual feed button on the feeder unit or use the 'Feed Now' option in the app. You can select the number of portions to dispense instantly.

5.3 Camera Features

- **Live View:** Access the live 1080 HD video feed from the app to watch your pet anytime.
- **Night Vision:** The camera automatically switches to night vision in low-light conditions, providing clear visibility.
- **Two-Way Audio:** Use the microphone and speaker icons in the app to talk to your pet or listen to them.

- **Recording & Snapshots:** Capture photos or record videos of your pet's activities directly from the app.

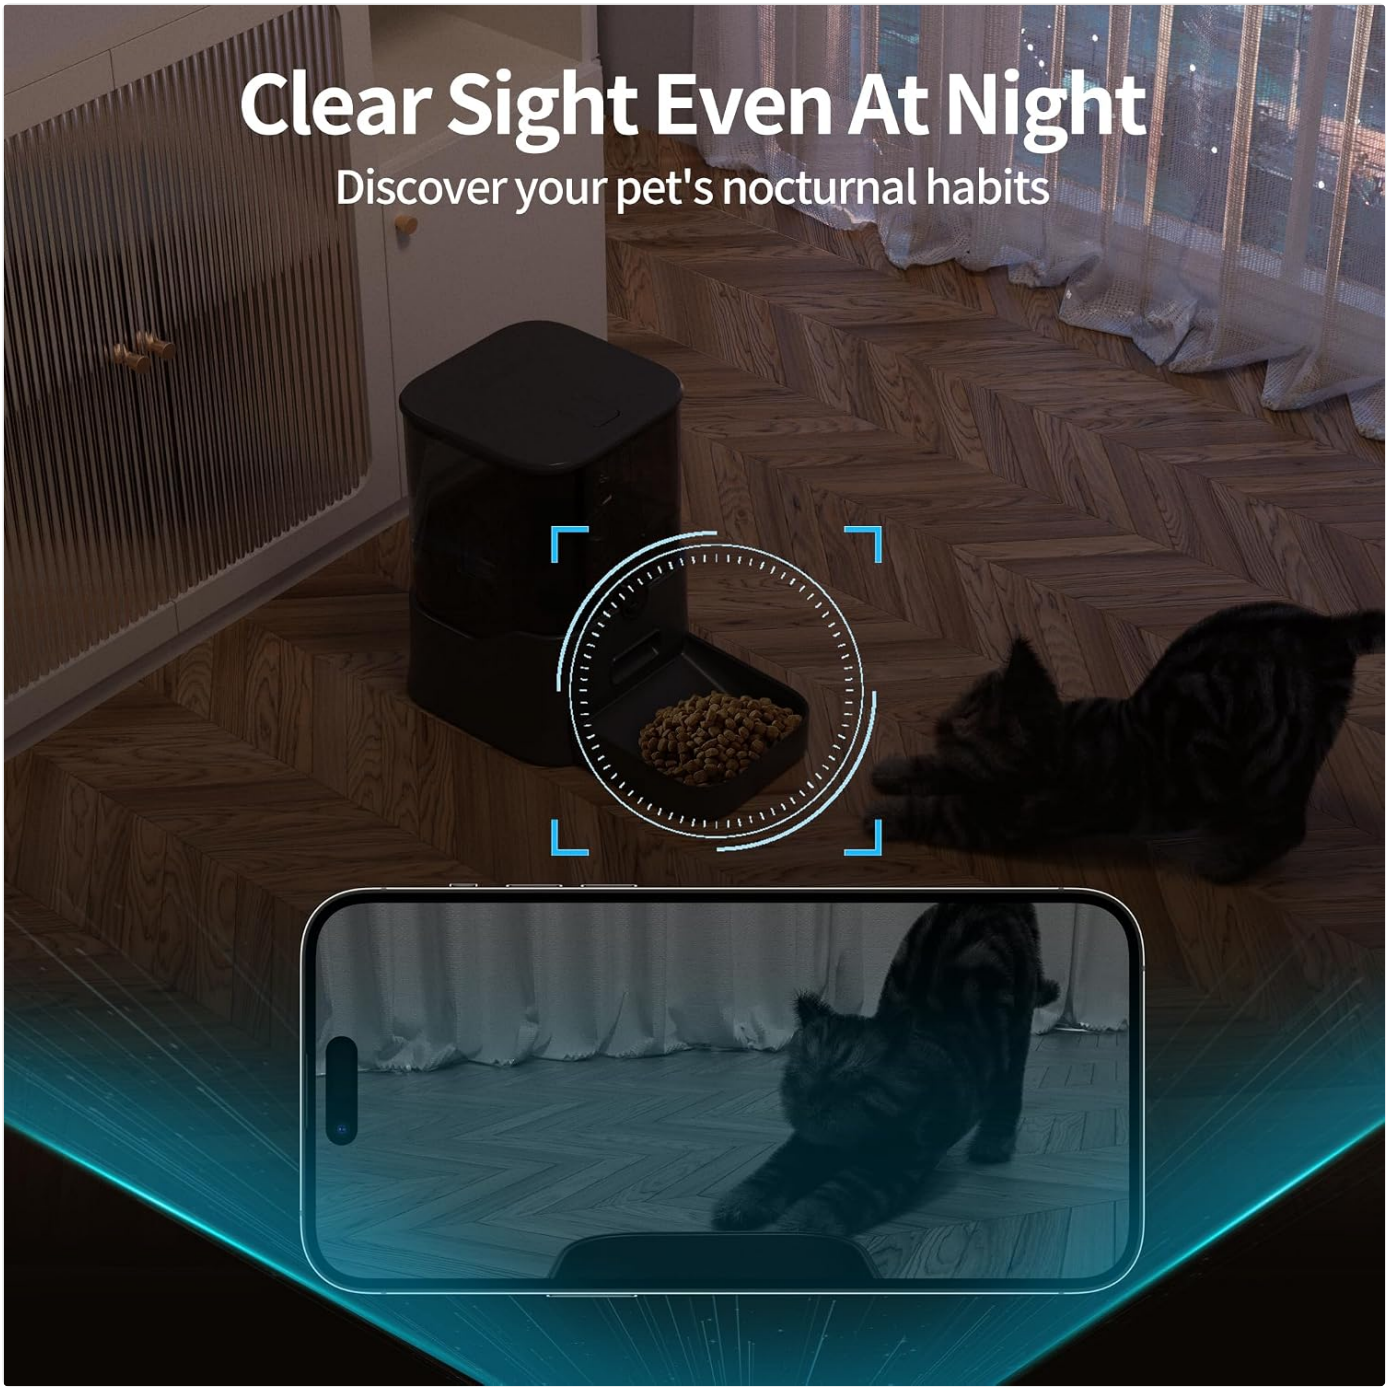

Figure 4: The feeder's HD night vision camera provides clear visibility of your pet's feeding activity even in low-light conditions, as demonstrated by this image of a cat eating.

Figure 5: The two-way audio feature allows you to communicate with your pet remotely, fostering connection even when you're away.

5.4 Voice Recording

Record a personalized voice message (e.g., a meal call) through the app. This message will play automatically when food is dispensed, attracting your pet to their meal.

6. Maintenance and Cleaning

6.1 Cleaning the Food Tank and Bowls

The food tank and bowls are detachable for easy cleaning. Hand wash these components with mild soap and water, then rinse thoroughly and dry completely before reassembling.

Figure 6: The airtight design of the food tank helps keep pet food fresh and dry, preventing spoilage and maintaining nutritional value.

6.2 Cleaning the Feeder Base

Do not immerse the feeder base in water. Wipe the exterior of the feeder base with a soft, damp cloth. Ensure no water enters the electronic components.

6.3 Desiccant Replacement

Replace the desiccant pack every 1-2 months, or as needed, to maintain optimal food freshness.

7. Troubleshooting

- **Feeder not connecting to WiFi:** Ensure your WiFi is 2.4G, the feeder is close to the router, and you've entered the correct password. Try restarting both the feeder and your router.
- **Food not dispensing:** Check if the food tank is properly installed and contains enough food. Ensure there are no blockages in the dispenser mechanism. Verify the feeding schedule in the app.
- **Camera not working:** Check your internet connection. Ensure the camera lens is clean and unobstructed. Restart the

feeder.

- **Battery backup not working:** Ensure D-size batteries are correctly installed and are not depleted.

8. Specifications
