2. INITIAL SETUP

2.1 Unboxing and Power On

1. Carefully remove the digital picture frame from its packaging.
2. Connect the power adapter to the frame and plug it into a power outlet. The frame will automatically power on.

2.2 Connecting to Wi-Fi

1. On the frame's touch screen, navigate to 'Settings'.
2. Select 'Wi-Fi' and choose your desired network.
3. Enter the Wi-Fi password and confirm the connection.

2.3 Downloading the Uhale App and Pairing

The 'Uhale' app is essential for sharing photos and videos wirelessly. It is available for both Android and iOS mobile phones.

1. Download the 'Uhale' app from your device's app store.

2. Create an account or log in.
3. On the digital frame, go to 'Settings' > 'My Frame' to find the unique QR code or numeric code.
4. In the Uhale app, follow the instructions to add a new frame by scanning the QR code or entering the numeric code.
5. Once paired, you can begin sharing content to your frame from anywhere.

EASY TO USE

Share Precious Memories with Our Free App

1. Download the Uhale App - Available on the Apple App Store and Google Play Store
2. Connect your digital frame using its unique Share Code or QR code
3. Get connected and start sharing photos and videos in under a minute

3. OPERATING YOUR DIGITAL PICTURE FRAME

3.1 Sending Photos and Videos via App

After pairing your frame with the Uhale app, you can send photos and videos directly from your smartphone:

1. Open the Uhale app on your smartphone.
2. Select the photos or videos you wish to share.
3. Choose your connected frame as the destination.

4. The content will appear on your frame, often with a notification.

Image 3: The frame supports unlimited user connections for sharing.

3.2 Managing Photos and Videos on the Frame

The 10.1-inch IPS HD touch screen allows for easy navigation and management of your media:

- **Touch Interface:** Swipe left/right to browse photos, tap to access options.
- **Settings Menu:** Access options like 'Favorite', 'Unlock', 'Hide photo', 'Delete', 'Adjust photo', 'Rotate photo', and 'Slideshow' from the on-screen menu.
- **Auto-Rotation:** The frame automatically adjusts the orientation of photos/videos based on its physical placement (horizontal or vertical).

3.3 Transferring Photos and Videos via PC

You can also transfer media directly from your computer using a USB cable:

1. Connect the digital picture frame to your computer using a USB cable.
2. On the frame, go to 'Settings' > 'Manage photos' > 'PC transfer'.

3. Your computer should detect the frame as a storage device. Locate the 'DCIM' folder on the frame.
4. Drag and drop your desired photos and videos into the 'DCIM' folder.
5. Safely eject the frame from your computer after the transfer is complete.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the screen and frame. Avoid abrasive cleaners or solvents.
- **Placement:** Place the frame on a stable surface, away from direct sunlight, heat sources, and excessive moisture.
- **Software Updates:** The frame may receive automatic software updates. Ensure the frame remains powered on during any update process. If an update requires a manual restart, follow the on-screen prompts.

6. TROUBLESHOOTING

6.1 Common Issues and Solutions

- **Frame not powering on:** Ensure the power adapter is securely connected to both the frame and a working power outlet.
- **Cannot connect to Wi-Fi:** Verify your Wi-Fi password is correct. Ensure the frame is within range of your Wi-Fi router. Try restarting both the frame and your router.
- **Photos/Videos not appearing:** Check if the frame is successfully paired with the Uhale app. Ensure the content has been successfully uploaded via the app or transferred via PC. Verify supported file formats (JPG/JPEG/BMP/PNG for photos, MP4 for videos).
- **Frame not restarting after update:** If the frame does not automatically restart after an upgrade process, please restart it manually by unplugging and re-plugging the power adapter.
