## 4. INSTALLATION GUIDE

Follow these steps to replace the battery in your eufy Omni S1 Pro or S1 robot vacuum:

1. **Power Off:** Ensure your robot vacuum is powered off and disconnected from its charging station.
  2. **Access Battery Compartment:** Carefully turn the robot vacuum upside down. Locate the battery cover, typically secured by screws.
  3. **Remove Old Battery:** Unscrew the battery cover and remove it. Gently unlatch the connector of the old battery from the robot's port and lift the old battery out.
  4. **Insert New Battery:** Take the new eufy replacement battery. Insert it into the compartment with the sticker side facing up.
  5. **Connect Battery:** Carefully align the battery connector with the port inside the robot vacuum and push firmly until it clicks into place.
  6. **Tuck Wires:** Ensure the battery wires are neatly tucked inside the compartment to prevent pinching or damage when closing the cover.
  7. **Secure Cover:** Replace the battery cover and secure it with the screws.
  8. **Initial Charge:** Place the robot vacuum back on its charging station to allow the new battery to fully charge before its first use.
- 

## 5. BATTERY CARE AND MAINTENANCE

To maximize the lifespan and efficiency of your eufy replacement battery, consider the following:

- **Regular Replacement:** It is recommended to replace the battery approximately every 6 months to maintain optimal cleaning efficiency of your robot vacuum.
  - **Avoid Extreme Temperatures:** Do not expose the battery or the robot vacuum to extremely high or low temperatures.
  - **Proper Storage:** If the robot vacuum will not be used for an extended period, fully charge the battery before storing it in a cool, dry place.
  - **Use Genuine Accessories:** Always use authentic eufy accessories to ensure compatibility and extend the lifespan of your machine.
-
